

**TIPPECANOE COUNTY DRAINAGE BOARD
REGULAR MEETING
FEBRUARY 5, 1992**

The Tippecanoe County Drainage Board met Wednesday, February 5, 1992 in the Community Meeting Room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with Keith E. McMillin calling the meeting to order.

Those present were: Keith E. McMillin, Chairman, Nola J. Gentry and Hubert Yount, Tippecanoe County Commissioners, Michael J. Spencer, County Surveyor, Ilene Dailey, Chris Burke Consulting Engineers, J. Frederick Hoffman, Drainage Board Attorney, and Dorothy M. Emerson, Executive Secretary Drainage Board.

The first item on the agenda was to approve to the minutes of the meeting for the last Drainage Board meeting on January 8, 1991. Nola Gentry moved to approve the minutes, seconded by Hubert Yount. Unanimously approved.

CARROLL COUNTY JOINT DRAIN

Mike Spencer, County Surveyor stated Keith McMillin and Hubert Yount needed to be appointed to the Carroll County Joint Drain for the Andrew and Mary Thomas Drains.

Nola Gentry motioned to appoint Keith McMillin and Hubert Yount to the Carroll County Joint Drain for the Andrew and Mary Thomas Drains.

Hubert Yount, seconded. Motion carried.

DRAINAGE BOARD ATTORNEY CONTRACT

Mike presented the Board with a contract for the Drainage Board Attorney J. Frederick Hoffman, that needed to be executed for 1992.

Hubert Yount moved to approve the contract between Tippecanoe County Drainage Board and J. Frederick Hoffman as Attorney for said group.

Nola J. Gentry, seconded. Motion carried.

ACTIVE AND INACTIVE DITCHES

Nola Gentry moved to include the active and inactive ditches into the February minutes and mail the appropriate notices to the surrounding counties. Hubert Yount, seconded. Motion carried.

The following is a list of the active and inactive ditch assessment list for 1992.

DRAINAGE BOARD ASSESSMENT LIST				
DITCH No.	DITCH	TOTAL 4 YEAR ASSESSMENT	1991	1992
1	Amstutz, John	\$5,008.00	Inactive	Inactive
2	Anderson, Jesse	\$15,675.52	Active	Active
3	Andrews, E.W.	\$2,566.80	Active	Active

DISCUSSION ON TILE BIDS

Mike Spencer presented a tile bid that had been inadvertently returned to the bidder. Fred Hoffman opened the bid.

Mike stated he had received two proposals for Professional Services on the Berlovitz Watershed Study, one from Christopher Burke Engineering and one from Ticen, Schulte and Associates. Mike recommended Christopher Burke Engineering the lowest bidder.

Nola moved to approve the proposal from Christopher Burke Engineering for the Berlovitz Ditch Study. Hubert, seconded. Motion carried.

JOHN HOFFMAN DRAIN

Mike stated to the Board that work will be done on the Hoffman Drain at a cost less than \$25,000.00. Since it was under \$25,000.00 Mike requested quotes be done on the project rather than bids since quotes are faster.

Mike read the proposal into the minutes.

TO WHOM IT MAY CONCERN:

The Tippecanoe County Drainage Board is interested in taking quotes for maintenance work on the John Hoffman Ditch, beginning at the tile outlet which is located along County Road 900 East just north of State Road 26 East.

Work will consist of dredging approximately 1000 feet of channel down stream of the tile outlet, cleaning out road culvert under 900 East. Then clearing trees over and along the tile for some 4000 feet to the east.

After the clearing all tile holes will be fixed and or wide joints patched, then the waterway over the tile will be graded as directed by the Surveyor. When all work is completed all disturbed areas will be seeded.

There will be a pre-quote site visit held at the site on February 19th, 1992 at 9:00 am.

Written quotes will be on a per foot basis for dredging, clearing and grading of waterway.

Tile repair will be on time and material basis. Seeding will be lump sum.

Quotes will be due on March 4th at 11:00 am in the Tippecanoe County Auditors Office.

For further information please contact the Tippecanoe County Surveyor, Mike Spencer at 423-9228.

Discussion followed.

Hubert Yount moved to accept quotes for the John Hoffman Drain. Nola, seconded. Motion carried.

HADLEY LAKE DRAIN

Mike stated that West Lafayette Wetland Delineation Study will be done on February 15. We need to have that before we advertise for the proposals for engineering work.

PINE VIEW FARMS

Roger Kottowski, Weitzel Engineering and Tom Stafford, Melody Homes presented their drainage plans for Pine View Farms to the Drainage Board.

Discussion followed.

Mike Spencer recommended preliminary approval to the Board.

Nola moved to grant preliminary approval contingent on completion of restrictions and receipt of the recorded easements or agreements.

Hubert Yount, seconded. Motion carried.

Being no further business, Hubert Yount moved to adjourn the Drainage Board meeting. The next regular scheduled meeting will March 4 at 8:30 AM and will reconvene at 11:00 AM for quotes on the John Hoffman Drain.

Tippecanoe County Drainage Board
Minutes TRANSCRIPT
Regular Meeting
January 6, 1993

The Tippecanoe County Drainage Board met Wednesday, January 6, 1993 in the Community Meeting Room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana, with Nola Gentry calling the meeting to order for the re-organization of the Board. She then turned it over to J. Frederick Hoffman, Drainage Board Attorney to preside.

Those present were: Nola J. Gentry, Hubert Yount, Bill Haan, Tippecanoe County Commissioners, Michael J. Spencer, County Surveyor, Ilene Dailey, Christopher Burke Consulting Engineer, J. Frederick Hoffman, Drainage Board Attorney, Hans Peterson, Paul Elling, Project Engineers SEC Donohue, Greg Griffith, Great Lakes Chemical Corporation, Josh Andrews, West Lafayette Development Director, Opal Kuhl, West Lafayette City Engineer, and Shelli Hoffine Drainage Board Executive Secretary.

J. Frederick Hoffman, Drainage Board Attorney asked for nominations from the floor for the Board President. Commissioner Gentry nominated Commissioner Haan for President, seconded by Commissioner Yount. Unanimously approved.

Mr. Hoffman then turned the meeting over to Commissioner Haan to preside over the remainder of the meeting.

Commissioner Haan asked for nominations from the floor for the Board Vice President. Commissioner Haan nominated Commissioner Gentry for Vice President, seconded by Commissioner Yount. Unanimously approved.

Commissioner Haan asked for nominations from the floor for the Board Executive Secretary. Commissioner Gentry nominated Shelli Hoffine for Executive Secretary, seconded by Commissioner Yount. Unanimously approved.

The first item on the agenda was to approve the minutes of the meeting for the Drainage Board meeting on December 2, 1992. Hubert Yount moved to approve the minutes of December 2, 1992, seconded by Commissioner Gentry. Unanimously approved.

Hire the Attorney

Commissioner Gentry moved to appoint J. Frederick Hoffman as Attorney for the Drainage Board, seconded by Commissioner Yount. Motion carried.

Active and Inactive Ditches for 1993

Mr. Hoffman suggested putting the active and inactive ditches in the January minutes. Mr. Hoffman also read them aloud to the Board.

Storm Water Drainage Improvement Plan

Hans Peterson and Paul Elling from SEC Donohue presented the Stormwater Drainage Improvement Plan for the Cuppy-McClure watershed. Mr. Peterson discussed the project overview and objectives, project design criteria and constraints, hydrologic/hydraulic analysis, alternative improvements and recommendations, permits, and the schedule.

Mr Peterson discussed the alternative improvements.

Alternative #1 Low flow pipe and high flow channel.

The cost of the low flow pipe and high flow channel - \$930,000.00

The pipe in this alternative would be two to three feet deep under the ground from the Celery Bog to U.S. 52 then opens up and flows under US 52 with the existing pipe, then drops down into another pipe and flows on down to Hadley Lake.

Mr. Hoffman asked how big the pipe would be?

Mr. Peterson answered the pipe ranges in size from 36 inches to 42 inches.

Alternative #2 All pipe improvements.

The cost of all pipe improvements - \$1,570,000.00

Pipe size ranges from 54 inches to 60 inches.

This alternative would run completely under the ground from Celery Bog to Hadley Lake that is the main reason for the high cost. Mr. Peterson said this would look the nicest after it is complete.

Alternative #3 All channel improvements.

The cost of all channel improvements - \$755,000.00

This alternative does not have any pipe. It is a standard open channel all the way from Celery Bog down to Hadley Lake. There would have to be a concrete lining treatment at the bottom of the channel.

Mr. Peterson recommended alternative was #1 the low flow pipe and high flow channel.

Mr. Hoffman asked on these changes of easement are they giving and taking from the same landowners or taking from some landowners and giving others?

Mr. Peterson said based on the assessment map that we have, it is generally give and take on the same properties except for one parcel. Parcel #13 looks like we are taking.

Mr. Hoffman assumed there will be a petition for reconstruction to make those changes in easement.

Commissioner Gentry answered there will be a reconstruction hearing.

Discussion followed.

Bening no further business Commissioner Gentry moved to adjourn until February 3, 1993 at 8:30 a.m., seconded by Hubert Yount.

Meeting adjourned.

William D. Haan, President

Nola Gentry, Vice President

Hubert Yount, Member

TIPPECANOE COUNTY DRAINAGE BOARD
REGULAR MEETING
SEPTEMBER 8, 1993

The Tippecanoe County Drainage Board met Wednesday September 8, 1993 in the Community meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with William D. Haan calling the meeting to order.

Those present were: Tippecanoe County Commissioners William D. Haan, Nola J. Gentry, and Hubert D. Yount, Tippecanoe County Surveyor Michael J. Spencer, Drainage Board Attorney J. Frederick Hoffman, Christopher Burke Engineering Consultant Jon Stolz, and Drainage Board Secretary Shelli Hoffine.

The first item on the agenda was to approve the minutes from the last Drainage Board Meeting held August 4, 1993. Commissioner Gentry moved to approve the minutes. Seconded by Commissioner Yount. Unanimously approved.

WESTON WOODS SUBDIVISION II

Paul Coutts from C & S Engineering asked for final approval of Weston Woods II Subdivision. Mr. Coutts explained the only change that has been made since the preliminary plan was minimizing the rear yard storage, increasing size of pipe, and increasing the bottom slope of the ponds.

Mr. Hoffman asked how many ponds are there?

Mr. Coutts said the plan is for five ponds.

Mr. Coutts stated that the only condition is the verification that the diversion pipe between the Treece Meadows relief drain and the Burberry Phase III pond meet the requirements of the ordinance as previously discussed with CBBEL. Mr. Coutts would like not to put the pipe in the construction plans of Weston Woods Phase II. Instead draw up a separate set of construction plans and put the pond as part of Burberry Place Phase III.

Commissioner Gentry asked what the schedule is on Burberry Place Phase III and the schedule of Weston Woods II?

Mr. Long said construction is planned to start in 1994.

Mr. Coutts stated that Weston Woods II section III is scheduled to start moving dirt this fall and finishing utilities by the spring of 1994, section IV is scheduled for the fall of 1994.

Commissioner Yount moved to approve final plans for Weston Woods II subject to a letter concerning Burberry Place Phase III that states there will be a pond constructed and a pipe installed. Seconded by Commissioner Gentry. Unanimously approved.

ABBINGTON FARMS SUBDIVISION

George Schulte and Dan Lee asked for final approval of Abbingtion Farms Subdivision. Joseph Bumbleburg represents Abbingtion Farms Subdivision and request any copies of material that relates to Abbingtion Farms Subdivision. Mr. Schulte explained that Mr. Stolz memorandum stated that no proposed grading plan had been provided. The normal process for final drainage plan is to get approval for the curb inlets location, detention storage locations etc. Then

the next step is to get into the final design and prepare the construction plan, normally the grading plan is submitted with construction plans. Mr. Schulte submitted a plan profile for the streets but not for the grading mainly because there is not going to be any grading do to the septic system.

The watershed map based on the proposed grading plan shows the project is a self contained project and the offsite drainage has been indicated. This has been considered with the design of the culvert system to drain the offsite watershed. The erosion control plan will be provided with the final construction plan. The drainage easement and legal drain boundaries again will be provided with the final construction plan.

If details on the proposed detention pond outlet pipes, road crossing, inlets, emergency spillways, outfalls and other drainage appurtenances would be a set of construction plans. Mr. Schulte stated that they are not asking for construction plan approval, just drainage plan.

Mr. Stolz indicated an example of what needs to be submitted before final approval can be granted, the detention pond's flow appears to flow in the right direction, but without having more information. It may also appear that with a 100 year storm event there would be flow over the emergency overflow spillway.

Mr. Schulte stated that all the information is in the report that Mr. Stolz is asking, but is not shown on the drawing.

Mr. Spencer stated that normally for final approval the Board has a better understanding of what is going in the ground.

Mr. Bumbleburg felt that if the final drainage plans get too detailed, that would restrict the Surveyor from making changes to the final construction plan.

Commissioner Gentry moved to continue final approval on Abbington Farms Subdivision until Monday, September 13, 1993 at 10:00 a.m. in a Special Drainage Board Meeting held in the Community Meeting Room. Seconded by Commissioner Yount. Unanimously approved.

THE RAVINES PLANNED DEVELOPMENT

Paul Coutts, C & S Engineering, asked for preliminary approval of The Ravines Planned Development. The section discussed includes six holes of an eighteen hole golf course and twenty two residential lots located off division road in Shelby Township. The proposal is to use the natural waterway and create three permaneat storm water detention areas, then outlet the ponds to the ravine using a twelve inch pipe. The runoff for the pre-developed conditions is much higher than what the runoff will be post-developed because the runoff will be contained in the ponds.

Mr. Spencer read the requirements from the memorandum sent to Mr. Spencer from Jon Stolz P.E. CBBEL, it states what needs to be provided for final approval.

1. Additional information regarding the grading of the site should be provided. The grading within the proposed golf course area as it transitions into the residential development is unclear. Also, grading around the proposed detention facilities was not provided with this submittal. The grading around lots 1 thru 6 and along County Road 875 West is also unclear.

2. The performance of the outlet structure for detention ponds 2 and 3 should be clarified. Pond 1, located in the northeast corner, appears to adequately drain via a 12 inch outfall. However, ponds 2 and 3 will apparently

discharge via natural overland flow paths which have not been clearly indicated on the plans. It also appears that the ponds will dewater by means of percolation. the discharge from ponds 2 and 3 should be clarified as well as the means of maintaining a normal pool elevation of 672.0 and 670.0 feet, respectively. Also, the background information used to derive the stage-discharge relationship of all ponds will be necessary.

3. It appears that a drainage easement should be provided around detention pond 1. Currently, the easement appears to traverse through the pond.

4. The outlet pipe from Pond 1 includes pipes G and H which are each 465 feet in length. Structures will be required at a maximum of 400 feet between pipes per the Ordinance.

5. Verification of contributing drainage areas into the streets drains analyzed by the ILUDRAIN model should be provided.

6. The proposed drainage plan does appear to restrict 100-year developed flow to that of the 10-year existing flows or less. However, the detention storage calculations analyzed only one storm duration, ie. the 24-hour storm. A series of storm durations up to and including the 24-hour duration, must be used to determine the duration which gives the highest storage volume and determines the appropriate allowable release rate.

Commissioner Gentry moved to grant preliminary approval of The Ravines Planned Development with the six condition that Mr. Spencer read. Seconded by Commissioner Yount. Unanimously approved.

STRATFORD GLEN SUBDIVISION

Dale Koons, representing Bill Davis of Hawkins Environmental, asked for preliminary approval of Stratford Glen Subdivision located off of County Road 500 South along the west side of US231 in Wea Township. There are 29.1 acres of land that have been parcelled into 83 lots and will include the installation of utilities, street pavement and final grading. The runoff flows west along the south property line of Stratford Glen and a detention pond is planned at the north side of the north property line of Stratford Glen. The pond will be constructed by constructing a dam across a natural swale and retain the runoff of the 83 lots in Stratford Glen, the existing Mayflower Mill, Sheffield Subdivision and 36.5 acres of undeveloped agricultural area south of Stratford Glen.

Commissioner Yount read a memorandum sent to Mr. Spencer from Jon Stolz, P.E. - CBBEL, Indianapolis, dated September 7, 1993.

(start quote)

September 7, 1993

MEMORANDUM

TO: Mr. Mike Spencer - Tippecanoe County Surveyor
FROM: Jon Stolz, P.E. - CBBEL, Indianapolis
SUBJECT: Stratford Glen Subdivision
(CBBEL Project No. 93STRAT)

RECOMMENDATION: Final Approval with Conditions

The Storm drainage plan for Stratford Glen is closely associated with the previously approved Mayflower Mill subdivision drainage plan. Mayflower Mill is located east of existing U.S. 231 and drains to the west under the highway. The runoff then flows west along the south property line of Stratford Glen before flowing to the north along the west property line of Stratford Glen.

After development, Stratford Glen will discharge to this ditch as well. Detention will be provided northwest of the site, by constructing a dam across a natural swale. This pond will receive runoff from Stratford Glen, the existing Mayflower Mill and Cheffed subdivisions, and 36.5 acre undeveloped agricultural area south of Stratford Glen.

After review of the information and supporting data listed below, CBBEL offers the following comments.

1. The allowable release rate has been determined by looking at the difference between the 10-year pre-developed discharge for the Stratford Glen site (19.4 cfs), and the 100-year post-developed discharge (35.5 cfs). The applicant feels that if the reduction in the peak 100-year discharge is 16.1 cfs or greater due to the routing of the pond, the Ordinance will be satisfied. The applicant has shown that in the post-developed, 100-year condition, the peak runoff entering the basin will be approximately 108 cfs. The discharge from the pond, after routing, will be 72 cfs, a reduction of 36 cfs. It appears that the applicant has fulfilled the requirements for detention at this site.

2. The applicant has provided a watershed map for areas C1 through C4. This map indicates that area C3 is 31.9 acres. However, all other documentation indicates that the area is 21.6 acres. Rough scaling of the watershed map indicates that the area is actually closer to 21.6 acres.

3. The applicant has provided a schematic (Exhibit 5) of the TR-20 runs for this project. According to the schematic, area C1 is 32.4 acres. All other documentation (including the drainage area in square miles used in the analysis) indicates that the area is 36.5 acres.

4. The proposed detention pond is a dry bottom facility that will pond water to a maximums depth of 5.2 feet in the 100-year event. The applicant has requested a variance from the ordinance in order to allow ponding deeper than the maximum of 4 feet.

5. The proposed detention pond will utilize an earthen embankment to contain stormwater runoff. The submitted material from the applicant did not include specifications for the stability and compaction of the proposed embankment. The specifications should be presented to the County for review.

This review was based on the following information:

1. Report entitled "Drainage Report for Stratford Glen Subdivision", with on-site and off-site drainage area maps included as attachments A and B, dated August 4, 1993 and prepared by Civil Engineering Services, Inc.

2. Site Development Plans for Stratford Glen Subdivision, dated June, 1993 and prepared by Hawkins Environmental.

3. Revised sheets 3, 23 and 24 of the above listed reference, dated June, 1993, no revision dates, prepared by Hawkins Environmental.

4. Erosion Control Plan, dated April, 1993, prepared by Hawkins Environmental.
5. Erosion Control Plan, Phase 2, dated July, 1993, prepared by Hawkins Environmental.

Based upon this review, CBBEL recommends final approval of the storm drainage plan with the following conditions:

1. The applicant must clarify the outlet pipe to be used for the detention pond. The plans indicate a 36" diameter CMP, while the calculations using a 42" diameter CMP.
2. The applicant has analyzed the adequacy of the collector channel along the south and west property lines by using a HEC-2 hydraulic model. The applicant should provide plots of the cross-sections and an exhibit showing the locations of the modeled cross-section.
3. It appears that the proposed detention pond will be constructed on off-site property. The applicant should provide documentation or agreements allowing for this construction.
4. The applicant has provided a detailed erosion control plan. However, it appears that the applicant should revise the plans to show the following:
 - a. Additional erosion control should be provided around the topsoil stockpile area to reduce the potential for sedimentation in the adjoining areas.
 - b. Erosion control measures, such as an erosion control blanket, should be clearly indicated for the 3:1 embankments of the proposed detention pond dam.
5. A review of the pipe-sizing computations revealed several apparent errors in either the analysis or the plans. There are discrepancies between the calculations and the plans for the following:
 - a. The invert elevation of the pipe leaving structure G-9,3.
 - b. The inverts for structure F-2 and the endsection for Line F, and the diameter and length of the pipe between structure F-2 and the endsection.
 - c. The invert elevations for structures L-4,3 and L-4,4.
 - d. The length of pipe between structures L-4 and L-5.
 - e. The rim and invert elevations for structure G-6,2 are not provided on profile "G6".

No error or omission in either the plans, calculations or applications (whether said plans, calculations or applications have been reviewed by the review engineer or not) shall permit or release the applicant and designer from constructing this work in any other manner than that provided for in the County Ordinance.

JDS/DWE/de
M93STRAT.REV
(end quote)

Commissioner Yount moved to approve the final plans of Stratford Glen Subdivision subject to the five conditions read into the minutes. Seconded by Commissioner Gentry. Unanimously approved.

APPOINTMENT OF JOINT DRAINAGE BOARD MEMBERS

Mr. Spencer asked the Board to appoint two members of the Tippecanoe County Drainage Board to a Joint Drainage Board with Benton County for the discussion of the Frances E. Martin Drain. The Martin drain is a branch of the H.W. Moore Lateral that drains into the Otterbein Ditch.

Mr. Hoffman asked if the Frances E. Martin drain is a legal drain.

Mr. Spencer said that according to Jack Steele, Benton County Surveyor, the Frances E. Martin drain is a legal drain.

Commissioner Haan stated that he has personal involvement in this situation, so he appointed Commissioner Gentry and Commissioner Yount to serve on the Frances E. Martin Joint Drainage Board.

Mr. Spencer mentioned that there has been a meeting set up for September 22, 1993 at 7:00 p.m. in Pierce Hall, Otterbein Indiana.

OTHER BUSINESS

Mr. Spencer introduced Michelle Abrems, 4329 Hillside Court, lot 80 in Prairie Oaks Subdivision and Andy Vanburan, 22 Hillside Court, lot 88 in Prairie Oaks Subdivision. Mrs. Abrems and Mr. Vanburan expressed concern to Mr. Spencer about a drainage problem in Prairie Oaks and they wanted to address the Board about the problem. The initial problem with the Subdivision was Hillside Court drained to the south and then did not have any place to go because there was not a pipe under the road to make a release area.

Commissioner Gentry asked if the roads are County maintained?

Mr. Spencer said that Prairie Builders obtained a permit from the County Highway Department to cut through the road to put a pipe in. That would help the problem of drainage and it also indicates that the roads are maintained by the County.

Mr. Spencer stated Prairie Builders were going to regrade in the right of way and then go North along lot 80 on Hillside Court, then west between lot 80 and 89, the regrading would end heading northwest to lot 92. Mr. Vanburan's concern is with lot 92, it is a low lot that is owned by Mr. Dave Lux. It is a ponded area and the only way the water disappears is when it eventually percolates into the ground. Prairie Builders submitted a modification to Prairie Oaks drainage and it was approved by Mr. Spencer with two conditions, one being Prairie Builders obtain a permit to work in the right of way and second being they have to do the modifications within the existing drainage easement that are platted for this subdivision. Mr. Schrader had told Mr. Spencer that Prairie Builders will not comply with the modifications to Prairie Oaks.

Commissioner Yount asked what control The Board has over this situation?

Mr. Hoffman stated that The Board does not have much control, however if it is effecting the streets the County Commissioners would have control over the streets, otherwise it is up to the effected landowners to take action.

Mrs. Abrems stated that Prairie Builders are working in the easement without permits and she felt that would get The Board involved.

Mr. Spencer replied that The Board can require Prairie Builders to submit a plan on what they propose to do and that is what the modifications are, but Prairie Builders refused to follow the plan.

Mrs. Abrems explained that Prairie Builders is working outside the drainage easement on the corner of their lot. If Prairie Builders is going to take that part of their lot they want to be compensated.

Commissioner Gentry moved to continue discussion of Prairie Oaks Subdivision until Tuesday, September 14 at 4:00 p.m. in a Special Commissioners Meeting held in the Community Meeting Room. Seconded by Commissioner Yount. Unanimously approved.

Being no further business Commissioner Gentry moved to adjourn. Seconded by Commissioner Yount. Unanimously approved.

DRAINAGE BOARD MINUTES SEPTEMBER 8, 1993 REGULAR MEETING

TIPPECANOE COUNTY DRAINAGE BOARD
REGULAR MEETING
JANUARY 5, 1994

The Tippecanoe County Drainage Board met Wednesday January 5, 1994 in the Community meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with William D. Haan calling the meeting to order.

Those present were: Tippecanoe County Commissioners William D. Haan, Nola J. Gentry, Hubert D. Yount; Tippecanoe County Surveyor Michael J. Spencer; Drainage Board Attorney J. Frederick Hoffman; Drainage Board Engineering Consultant Jon Stolz and Drainage Board Secretary Shelli Hoffine.

ELECTION OF 1994 OFFICERS

Mr. Hoffman asked nominations for the President of the Tippecanoe County Drainage Board. Commissioner Haan nominated Commissioner Gentry, seconded by Commissioner Yount. Unanimously approved.

Mr. Hoffman turned the meeting over to Commissioner Gentry to preside.

Commissioner Gentry asked nominations for Vice President of the Tippecanoe County Drainage Board. Commissioner Gentry nominated Commissioner Haan, seconded by Commissioner Yount. Unanimously approved.

-APPOINTMENTS-

Commissioner Haan moved to appoint Shelli Hoffine for Executive Secretary of the Tippecanoe County Drainage Board, seconded by Commissioner Yount. Unanimously approved.

Commissioner Haan moved to appoint J. Frederick Hoffman as Attorney for the Tippecanoe County Drainage Board pending an agreement of a contract, seconded by Commissioner Yount. Unanimously approved.

Commissioner Yount moved to extend the existing contract into 1994 for Christopher Burke Engineering, LTD. to provide engineering services to the Tippecanoe County Drainage Board pending review of the contract, seconded by Commissioner Haan. Unanimously approved.

-MEETING DATES FOR 1994-

January 5, 1994	July 6, 1994
February 2, 1994	August 3, 1994
March 9, 1994	September 7, 1994
April 6, 1994	October 5, 1994
May 4, 1994	November 2, 1994
June 1, 1994	December 7, 1994

Commissioner Haan moved to accept the meeting dates for the Tippecanoe County Drainage Board, seconded by Commissioner Yount. Unanimously approved.

Commissioner Yount moved approve the minutes from the last Drainage Board meeting held December 1, 1993. Seconded by Commissioner Haan. Unanimously approved.

Joe Bumbleburg asked the Board to approve a resolution for vacation of a drainage easement located on a part of lot 5 in Capilano By the Lake Subdivision, Phase I. The drainage easement ended up in the middle of lot 5 when it was replatted.

Mr. Spencer stated he has been out to the site, Mr. Cunningham of Vester and Associates checked the easement and it definitely will not cause a problem with the lot or any of the adjoining lots. Mr. Spencer recommended the vacation of the drainage easement in lot 5, Capilano By the Lake Subdivision, Phase I.

The petition and the resolution to vacate a portion of a drainage easement on lot 5, Capilano by the lake subdivision, Phase I is on file in the Tippecanoe County Surveyor's Office.

Commissioner Yount moved to approve the resolution to vacate a portion of an easement on lot number 5, Capilano by the Lake Subdivision, Phase I, seconded by Commissioner Haan. Unanimously approved

HAWKS NEST SUBDIVISION, PHASE I

Greg Hall, Intercon Engineering, asked the Board for final approval of Hawks Nest Subdivision, Phase I and the detention ponds for the entire project. Mr. Hall also, requested a variance for exceeding the four foot of depth in Basin A.

Mr. Spencer stated he recommended approval of Phase I and the detention ponds.

Mr. Hall stated there will be eighteen lots in Phase I, one detention basin will be located in this phase.

Commissioner Haan asked if the permits from the IDNR have been processed?

Mr. Stolz stated that the portion that was requiring a permit has been moved from the floodplain and no longer requires a permit.

Commissioner Yount moved to grant the variance to exceed the maximum four foot depth in Basin A, seconded by Commissioner Haan. Unanimously approved.

Commissioner Yount moved to grant final approval of Hawks Nest Subdivision, Phase I and the detention basin for the entire project, seconded by Commissioner Haan. Unanimously approved.

TRIPLE J POINTE SUBDIVISION

Bob Grove, representing Smith Enterprises, asked for preliminary approval of Triple J Pointe Subdivision, which involves fifteen acres with 75 lots, located off Old Romney Road and County Road 250 South. The proposal is to detain the water offsite which will hold seventy two acres of offsite runoff, then take the ten year flow through the subdivision to a basin that will hold the 15 acres of developed subdivision, a pipe will carry the runoff from the basin to an existing structure of Ashton Woods Subdivision detention system. The ditch will be used as overflow for runoff that exceeds the 10 year flow.

Commissioner Yount asked if pipe along Old Romney Road would be in the road right-of-way if so, has the County Highway Department approved a permit for the pipe?

Mr. Grove stated yes, we are proposing to put the pipe in the right-of-way and no, we have not obtained a permit from the Highway Department.

Mr. Spencer stated the Highway Department has a set of plans, but he has not heard a report from them.

Commissioner Yount asked about the use of the pond offsite easement?

Mr. Grove stated that G. Mark Smith will be preparing an agreement for the easement.

Mr. Spencer stated John Fisher did a drainage study of the Wea-Ton drainage area, in the report it shows the watershed area delineated certain runoff values for sub-areas within the watershed area. Ashton Woods kept in compliance with the idea for sub-areas to be within the watershed area, at that time, the Board accepted the idea. Ashton Woods created an outlet for the Wea-Ton watershed area and during construction they have created the outlet channel and incorporated their storage area with Old Romney Heights storage area. In the study, there are recommendation about how water moves to the east as development progresses. A pipe was sized under Old Romney Road at the end of the channel to pick up water to the east. Triple J Pointe Subdivision does not comply with this idea as far as construction of proper pipe size under Old Romney Road to convey the water from the east.

Mr. Grove stated Smith Enterprises asked John Fisher for the drainage study, but were not able to obtain a copy. It was decided to make an alternate route from the project's outlet to go along the east side of Old Romney Road in an easement just outside the right-of-way, provide a manhole and a crossing based on a 10 year predeveloped flow from the Wea-Ton area.

Commissioner Gentry suggested getting a meeting set up between the Commissioners, the Surveyor, Smith Enterprises, Mr. Gloyeske, and Mr. Fisher.

Commissioner Yount moved to continue Triple J Pointe Subdivision with Mr. Grove's consent until after the above meeting has been held, seconded by Commissioner Haan. Unanimously approved.

HARRISON & MCCUTCHEON HIGH SCHOOLS IMPROVEMENTS

Kyle Miller, Triad and Associates, presented the Board with the plans to improve Harrison High School and McCutcheon High School. Harrison and McCutcheon will be adding approximately one acre of roof to the existing structures over what is now parking lot signifying no increase in the volume of runoff for either plan. Harrison's storm sewer pipes run around the perimeter of the school, some of the pipe are undersized and will be replaced along with all new pipe to go around the perimeter of the constructed area. All roof drainage will run into the storm sewer then to an existing pipe and discharge into the **Cole Ditch/"Burnett Creek"**. Mr. Miller indicated a portion of one existing outfall pipe will be replaced and a permit from the IDNR is required for construction in the floodway area.

Commissioner Gentry asked what the design is of the outfall pipe into the creek?

Mr. Miller stated there will an end section on the pipe and that rip-rap will be placed on both sides of the banks.

Mr. Miller explained that McCutcheon High School storm sewer pipes run the perimeter of the existing structure and outlets into the **Wea Creek**. The

improvements will replace what is now asphalt and the storm sewer pipe around the perimeter of the constructed area.

Commissioner Yount moved to approve Harrison High School's final improvement plan subject to the approval of the permit from the IDNR, seconded by Commissioner Haan. Unanimously approved.

Commissioner Yount moved to approve McCutcheon High School's final drainage improvement plan, seconded by Commissioner Haan. Unanimously approved.

ACTIVE DITCHES FOR 1994

97	McLaughlin, John		

OTHER BUSINESS

Mr. Spencer asked if section six, letter F of the Drainage Ordinance, Submittal and Consideration of Plans, could be clarified to clear up questions pertain to the twenty days submittal deadline being twenty working days or twenty calendar days.

Commissioner Yount suggested changing the twenty days to thirty calendar days and requiring a review memo from the County Engineering Consultant to the petitioner, ten days prior to the hearing date.

Mr. Hoffman stated he will write an amendment to the Drainage Ordinance, letter F in section six, Submittal and Consideration of Plans, to change the twenty days submittal to thirty calendars days and the Surveyor will make a report to the petitioners not less than ten days prior to the hearing date.

GREAT LAKES CHEMICAL

Mr. Spencer stated all the landowners along the proposed channel have been informed of the Great Lakes project, the County has a complete set of construction plans, a drainage report, and Army Corp of Engineers permit. The County does not have IDNR or the IDEM, but those have been filed and should be approved soon. Ken Baldwin had some question for insurance reasons on fencing around the sediment basin before the water goes into **Hadley Lake**. The County will contribute \$700,000.00 dollars out of that the County has spent approx \$150,000.00 on Engineering, the Engineer's construction estimate is 1,040,000.00.

Commissioner Gentry asked what the time table is on advertising for reconstruction, and does the project have to be advertised before the bidding or concurrent with the bid process?

Mr. Hoffman stated the advertising has to be done before the bid processing. The County would have to give thirty to forty day notice and then have the hearing, if approved the bidding can go out, all that together would take about three months.

Judy Rhodes asked if there was any legal document showing West Lafayette committing to an agreement of participation in this project?

Commissioner Gentry stated that the County has a signed worksheet by Nola J. Gentry and Mayor Sonya Margerum showing the break down of contribution between the State of Indiana, Tippecanoe County and the City of West Lafayette for Great Lakes Chemical Corporation/**Cuppy McClure** watershed project

Ms. Rhodes asked and received a copy of the worksheet.

Being no further business Commissioner Yount moved to adjourn until February 2, 1994, seconded by Commissioner Haan. Unanimously approved.

TIPPECANOE COUNTY DRAINAGE BOARD
 REGULAR MEETING
 FEBRUARY 1, 1995

The Tippecanoe County Drainage Board met Wednesday February 1, 1995 in the Community meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with William D. Haan calling the meeting to order.

Those present were: Tippecanoe County Commissioners William D. Haan, Nola J. Gentry, Gene Jones; Tippecanoe County Surveyor Michael J. Spencer; Drainage Board Attorney pro-tem David Luhman; and Drainage Board Secretary Shelli Muller.

The first item on the agenda was to approve the minutes from the last Drainage Board Meeting held January 4, 1995. Commissioner Gentry moved to approve the minutes, Seconded by Commissioner Jones. Motion carried.

ACTIVE AND INACTIVE DITCH LIST 1995

Mr. Luhman read the active ditch list into the minutes.

Mr. Spencer stated the John Hoffman Ditch is on a three year assessment which started in 1991 with a ten dollar an acre assessment. It is now necessary for the Board to schedule a meeting between Clinton, Carroll and Tippecanoe Counties to reduce the assessment.

Commissioner Haan appointed himself and Commissioner Gentry to serve on the Tri County Board.

CHRISTOPHER B. BURKE ENGINEERING CONTRACT

Mr. Luhman stated after reviewing the original contract from Christopher B. Burke Engineering a few items were discussed and changes were made. The contract was revised with one exception on page 6 paragraph 24. The suggested revision was if a contractor was doing work based upon the Engineers plans the contractor would indemnify Burke for any damages to Burke because of the contractors negligence. Also suggested was to include Burke as a named insured on the insurance policy. Mr. Luhman explained the main reason for the suggestion was so the County and Christopher B. Burke Engineering would not be held liable.

Commissioner Gentry moved to approve the contract with Christopher B. Burke Engineering, LTD., and authorize the President of the Board to sign the contract, seconded by Commissioner Jones. Motion carried.

OTHER BUSINESS

Mr. Spencer presented the Board with the reforestation proposal for the Cuppy-McClure Drain, which will comply with the DNR requirements for a 2 to 1 mitigation on tree removal. The Parks Department for the City of West Lafayette suggested sites for the trees replacement. Mr. Spencer explained he wanted the Board to be aware of the progress and that Mr. Ditzler of J.F. New will submit the plan to Dan Ernst of the Indiana Department of Natural Resources.

Being no further business, Commissioner Gentry moved to adjourn until March 1, 1995, seconded by Commissioner Jones. Meeting adjourned.

TIPPECANOE COUNTY DRAINAGE BOARD
REGULAR MEETING
JANUARY 3, 1996

The Tippecanoe County Drainage Board met Wednesday January 3, 1996 in the Commissioners Meeting Room of the Tippecanoe County Courthouse, Lafayette, Indiana with William D. Haan calling the meeting to order.

Those present were: Tippecanoe County Commissioners William D. Haan, Nola J. Gentry, and Gene Jones; Tippecanoe County Surveyor Michael J. Spencer; Drainage Board Attorney J. Frederick Hoffman; Drainage Board Engineering Consultant Dave Eichelberger, and Drainage Board Secretary Shelli Muller.

ELECTION OF OFFICERS

The first item on the agenda was to elect new officers for 1996.

Mr. Hoffman opened the floor to nominations for President.

Commissioner Haan nominated Commissioner Gentry.

Commissioner Haan moved to close nominations for president, seconded by Commissioner Jones. Motion carried, Commissioner Gentry was elected.

Mr. Hoffman turned the meeting over to the President.

Commissioner Gentry asked for nominations for Vice President.

Commissioner Haan nominated Commissioner Jones for Vice President.

Commissioner Haan moved to close nominations for Vice President, Commissioner Gentry seconded. Motion carried, Commissioner Jones was elected.

APPOINTMENTS TO THE BOARD

The next item on the agenda is to renew the contracts with Hoffman, Luhman & Busch as the law firm.

Commissioner Haan moved to renew the 1995 contract with Hoffman, Luhman and Busch, seconded by Commissioner Jones. Motion carried.

Mr. Spencer presented the Board with two proposals for the contract with Christopher B. Burke Engineering Limited.

- 1) A proposal for professional engineering services on a varied rate depending on specified standard charges.
- 2) a proposal for professional engineering services on a fixed rate of \$50.00 per hour.

Commissioner Gentry asked for a report on the number of engineering review hours in 1995 for all the projects submitted in 1995. The discussion of which contract to be used will be continued at the February meeting.

Commissioner Haan moved to extend the 1995 contract with Christopher B. Burke Engineering Limited for one month into 1996, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to reappoint Shelli Muller as Drainage Board Secretary for 1996, seconded by Commissioner Jones. Motion carried.

1996 ACTIVE/INACTIVE DITCH LIST

Mr. Hoffman asked for the active and inactive ditches to be placed in the minutes.

Commissioner Haan moved to place the 1996 active/inactive ditch list the minutes, seconded by Commissioner Jones. Motion carried.

1996 - ACTIVE/INACTIVE DITCH LIST

ACTIVE

E.W. ANDREW, ANSON-DEPHINE, JULIUS BERLOWITZ, BEUTLER-GOSMA, ANDREW BROWN, TRAIN COE, COUNTY FARM, THOMAS ELLIS, FASSNACHT-CRIST, REBECCA GRIMES, HARRISON MEADOWS, EUGENE JOHNSON, JAMES KELLERMAN, AMANDA KIRKPATRICK, FRANK KIRKPATRICK, JAMES KIRKPATRICK, CALVIN LESLEY, MARY MCKINNEY, F.E. MORIN, KESTER MOTSINGER, J. KELLY O'NEAL, AUDLEY OSHIER, FRANKLIN RESER, SKINNER RAY, JOSEPH STERRETT, GUSTAV SWANSON, JACOB TAYLOR, JESSE DICKENS, DISMAL CREEK, SHAWNEE CREEK, SAMUEL ELLIOTT, JOHN HOFFMAN, BUCK CREEK, DARBY-WETHERHILL, ISSAC GOWEN, SAMUEL MARSH, EMMETT RAYMAN, WILSON-NIXON, SOPHIA BRUMM, H.W. MOORE, MARY THOMAS, ARBEGUST-YOUNG

INACTIVE

JOHN AMSTUZ, JESSE ANDERSON, DEMPSEY BAKER, BAKER VS NEWELL, NELLIE BALL, MICHAEL BINDER, JOHN BLICKENSTAFF, NATHANIEL BOX, ALFRED BURKHALTER, ORIN BYERS, FLOYD COE, GRANT COLE, JESSE CRIPE, CHARLES DAUGHERTY, FANNIE DEVAULT, MARION DUNKIN, MARTIN ERVIN, ELIJAH FUGATE, MARTIN GRAY, FRED HAFNER, E.F. HAYWOOD, THOMAS HAYWOOD, GEORGE INSKEEP, LEWIS JAKES, FLOYD KERSCHNER, JOHN KUHN, JOHN MCCOY, JOHN MCFARLAND, WESLEY MAHIN, ABSOLEM MILLER, ANN MONTGOMERY, PARKER LANE, CALVIN PETER, PETER RETTERETH, ARTHUR RICHERD, ALEXANDER ROSS, JAMES SHEPHERDSON, JOHN SALZMAN, ABE SMITH, MARY SOUTHWORTH, WILLIAM STEWART, ALONZO TAYLOR, JOHN TOOHEY, JOHN VANNATTA, HARRISON WALLACE, SUSSANA WALTERS, WILLIAM WALTERS, WAPLES-MCDILL, LENA WILDER, J&J WILSON, SIMEON YEAGER, FRANKLIN YOE, JENKINS, KIRKPATRICK ONE, MCLAUGHLIN, JOHN HOFFMAN

Commissioner Gentry mentioned the ditches that are in red:

COUNTY FARM, REBECCA GRIMES, FRANKLIN RESER, GUSTAV SWANSON

Mr. Spencer read a letter he received from Betty J. Michael.

"December 29, 1995

Nola J. Gentry, President
Board of Commissioners

Michael J. Spencer
County Surveyor

Re: Interest on Drainage Funds

At the Fall County Auditor's Conference held by the State Board of Accounts, a session was held concerning drainage ditches, charges, billings, investments, interest, etc.

The County Board of Accounts supervisors instructed the Auditors and personnel concerning the above issues. We were informed that most Counties put interest earned on Drainage funds into the County General Fund since County general pays for expenses such as tax bills, Surveyor and Drainage Board Budgets.

An alternative in some cases is to credit this interest to the County Drain Fund (unapportioned). When we inquired about the feasibility of apportioning the monthly interest into more than 100 separate drainage funds, the answer was a dead silence of incredibility that this was being done.

We have double-checked this information with District Board of Accounts personnel and have been told that there is nothing in the statutes that mandates interest should go into each Drain fund or even into the County General Drain Fund.

Therefore, as of January 1, 1996, we will be willing to allocate the monthly interest to either the General Drain Fund or to the County General Fund but NOT to each individual Drain account. Please let me know your preference.

Sincerely,

Betty J. Michael"

Mr. Hoffman stated the ditches are trust funds and the landowners in the watershed areas know the ditches are earning interest, it would not be appropriate to discontinue the investment.

Commissioner Haan moved to direct Mr. Hoffman to write a letter stating per the agreement that was made when the ditches were established the interest was to be allocated, but the Board is willing to distribute the interest on a semimonthly bases to coincide with the spring & fall settlements, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to approve the 1996 Drainage Board schedule, seconded by Commissioner Jones. Motion carried.

APPROVAL OF MINUTES

Commissioner Haan moved to approve the minutes from the December 6, 1995 Drainage Board meeting, seconded by Commissioner Jones. Motion carried.

BRENTWOOD COMMUNITY

Mr. Spencer stated Brentwood Manufacture Home Community is located off US52 West, South of the Elk's Country Club. They asked for preliminary drainage approval, which he recommended as long as the IDNR approved the construction within a floodway. There are approximately 280 lots on 60 acres with a dry bottom retention pond.

Mr. Spencer explained the retention pond does not comply with the Ordinance therefore the developer is asking for a variance. The Ordinance requires a 48 hour discharge time, the plans actual peak discharge is closer to 75 hours.

Commissioner Haan moved to grant preliminary approval to Brentwood Community contingent on the approval of construction in a floodway from IDNR, revised calculations and the request for the variance to the Ordinance, seconded by Commissioner Jones. Motion carried.

SOUTHERN MEADOWS

Mr. Spencer recommended granting Southern Meadows Subdivision final approval. The development is located at the corner of South 18th Street and 350 South within the City of Lafayette. Mr. Spencer explained the development needs approval from the County Drainage Board because it drains to the Elliott Ditch. At the Urban review meetings it was determined any development below the railroad tracks draining into Elliott Ditch would be allowed to direct release into the Ditch without onsite detention. The development includes a water amenity onsite, which water will flow into and out, but is not being planned as a detention pond and does not comply with the requirements of the Ordinance. Mr. Spencer had a question as to whether or not the pond would have to comply with the requirements of the Ordinance.

Mr. Hoffman stated the pond would not have to meet the Ordinance requirements as long as it does not affect the drainage.

Mr. Spencer explained the site drains to the pond.

Commissioner Haan stated if the majority of the site drains to the pond it is a retention pond and should meet the requirements of the Ordinance.

Ron Miller, Schneider Engineering, stated the current discharge in a one hour storm duration to Elliott is 2.7 hours. With the installation of a 42 inch pipe draining from the water amenity discharge into the Elliott in a one hour storm will be a little over an hour.

Commissioner Haan moved to grant final approval of Southern Meadows Subdivision with the condition the pond meets the Drainage Board Ordinance requirement for a non-fenced pond, seconded Commissioner Jones. Motion carried.

VILLAGE PANTRY #564R

Mr. Spencer introduced Village Pantry #564R, which is located at the corner of Brady and Concord, East of the existing Village Pantry. Weihe Engineering submitted final drainage plans and after the review it was recommended to grant final approval with the variance of a 12 inch pipe to a 10 inch concrete pipe for the outfall of the proposed detention area in order to limit the discharge.

Commissioner Haan moved to grant the variance of the Ordinance from a 12 inch required pipe to a 10 inch proposed pipe, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to grant final approval of Village Pantry #564R, seconded by Commissioner Jones. Motion carried.

PETITION TO ESTABLISH O'FERRALL LEGAL DRAIN

Mr. Hoffman excused himself from the meeting 9:45 a.m.

Mr. Spencer asked the Board to acknowledge the petition to establish the O'Ferrall Legal Drain, branch of the Alexander Ross Ditch as a valid petition.

Commissioner Haan moved to acknowledge the petition as a valid petition to establish the O'Ferrall Legal Drain, branch of the Alexander Ross Ditch and the petition represents over 10 percent of the effect landowners, seconded by Commissioner Jones. Motion carried.

Mr. Hoffman returned to the meeting at 9:57 a.m.

ALEXANDER ROSS DITCH EASEMENT REDUCTION

Mr. Spencer explained on the Meijer site two branches of the Alexander Ross Ditch were described, one on the Southeast corner of the site and the other along the West side of the site. After the construction of the site it was discovered the pipe described along the West side of the site is not actually on the Meijer site. Meijer is asking the description of the pipe on the West side be corrected and the easement on the Southeast corner be reduced from 75 feet to 25 feet center of the pipe either side.

Mr. Hoffman stated Mr. Spencer will have to define the easement as only being on the Southeast corner of the site and redefine the easement on the West side of the property.

Commissioner Haan moved to reduce the easement of the Alexander Ross Ditch located at the Southeast corner of the Meijer site from 75 feet to 25 feet either side of the center of the pipe, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to direct Mr. Spencer to correct the Survey maps to show the actual location of the Alexander Ross Ditch and document that the ditch does not run through the West side of the Meijer property, seconded by Commissioner Jones. Motion carried.

Commissioner Gentry asked Mr. Spencer to do a field check on the erosion of the Alexander Ross Ditch bank behind Meadowbrook Subdivision.

SANWIN APARTMENTS

Bob Grove presented the Board with Sanwin Apartments drainage plan and asked for preliminary approval. Located North of US52 West and East of County Road 250 West, the site consist of 3.11 acres and is planned to include a multi-family development with 63 units and a commercial area along the highway. After review from Christopher B. Burke Engineering consultant a revised preliminary plan was submitted addressing the concerns of the memo. The majority of the site, in the

revised plan, drains to the Northeast and Ken Baldwin will provide a 20 foot easement for a 12 inch outlet pipe that runs from the Northeast corner of the site to the existing McClure Ditch.

Commissioner Haan moved to grant preliminary approval of Sanwin Apartments, seconded by Commissioner Jones. Motion carried.

Cuppy-McClure - update

Mr. Spencer stated the notices for the hearing to be held February 7, 1996 on the reconstruction of the Cuppy-McClure Drain were sent January 2, 1996.

Mr. Spencer stated RUST Environmental & Infrastructure has submitted several proposals for construction inspection.

Commissioner Gentry suggested Mr. Spencer get other bids for the construction inspection or consider in-house inspections.

Being no further business Commissioner Haan moved to adjourn until February 7, 1996, seconded by Commissioner Jones. Meeting adjourned.

DRAINAGE BOARD MINUTES JANUARY 3, 1996 REGULAR MEETING

TIPPECANOE COUNTY DRAINAGE BOARD
 REGULAR MEETING
 FEBRUARY 5, 1997

The Tippecanoe County Drainage Board met Wednesday February 5, 1997 in the Tippecanoe Room of the Tippecanoe County Office Building, Lafayette, Indiana with Commissioner Hudson calling the meeting to order.

Those present: Tippecanoe County Commissioners Kathleen Hudson and Gene Jones, Tippecanoe County Surveyor Michael J. Spencer, Tippecanoe County Drainage Board Attorney Cy Gerde, Engineering Consultant David Eichelberger, and Drainage Board Secretary Shelli Muller.

Commissioner Hudson stated Commissioner Chase resigned Monday February 3, 1997 which created a vacancy in the position of Vice President to the Drainage Board. She nominated Commissioner Jones to fill the vacancy, seconded by Commissioner Jones. Motion carried to elect Commissioner Jones as Drainage Board Vice President.

The first item on the agenda was to approve the minutes from the meeting held December 11, 1996. Commissioner Jones moved to approve the minutes, seconded by Commissioner Hudson. Motion carried.

Commissioner Jones moved to approve the minutes of the last meeting held January 8, 1997, seconded by Commissioner Hudson. Motion carried.

Mr. Gerde asked for the active and inactive ditch list to be placed in the minutes and a motion be made to approve the list.

101	Hoffman, John		\$1.00 \$72,105.03	\$3,502.62

Commissioner Jones moved to approve the active and inactive ditches for 1997, seconded by Commissioner Hudson. Motion carried.

1997 CONTRACTS

ENGINEERING CONTRACT

Mr. Gerde stated he commends the contract written for Christopher B. Burke Engineering, Limited, but some verbiage was changed to better protect the County's interest.

Mr. Eichelberger stated the changes will be made and the contract ready for signature at the March meeting.

ATTORNEY CONTRACT

Mr. Gerde stated the contract for Drainage Board Attorney is ready for approval and the signature of the Drainage Board. The contract is the same format as Mr. Hoffman's contract with a few changes; date, name and hourly rate changed to \$140.00 per hour also, the last paragraph was added to the contract.

Commissioner Hudson read the paragraph that was added:

"All parties hereto agree not to discriminate against any employee or applicant for employment with respect to his hire tenure, terms, conditions or privileges of employment or any matter directly or indirectly related to employment, because of his race, religion, color, sex, disability, handicap, national origin or ancestry. Breach of this convenient may be regarded as a material breach of the contract."

Commissioner Jones moved to approve the contract for Drainage Board Attorney, seconded by Commissioner Hudson. Motion carried. The entire contract is on file in the County Surveyor's Office.

JAMES N. KIRKPATRICK DITCH

Mr. Spencer asked that the **James N. Kirkpatrick Ditch** proposal discussion be continued until the March meeting allowing time to fill the vacancy of the third Drainage Board member.

Commissioner Hudson moved to continue the discussion of the James N. Kirkpatrick Ditch proposals until the March Drainage Board Meeting, seconded by Commissioner Jones. Motion carried

OBSTRUCTION OF DRAINS

Mr. Spencer referred to the following "PETITION TO TIPPECANOE COUNTY DRAINAGE BOARD TO REMOVE OBSTRUCTION IN MUTUAL DRAIN OF MUTUAL SURFACE WATERCOURSE" the "DRAINAGE BOARDS POWER EXTENDED TO PRIVATE DRAINS" article in "Indiana Prairie Farmer" and Indiana Code amendment act No. 1277. All of these documents are on file in the County Surveyor's Office. Mr. Spencer wanted the Commissioners to be aware of and have a discussion on this issue. Mr. Spencer felt this law was to protect against man-made obstructions and asked Mr. Gerde to examine the possibility of the law including natural obstructions.

Mr. Gerde gave an example of where this law could be taken into effect. The first being on North 9th Street Road, north of Burnetts Road, the current condition causes water to travel across the road producing a hazardous condition. The reason for the water across the road is due to drainage problems outside the County Road Right-of-Way.

Mr. Steve Murray, Executive Director, Tippecanoe County Highway Department, stated another persistent problem is 200 South, east of the South fork of the Wildcat Creek. Mr. Murray explained no actual source of funding is available to work on obstruction of drains which do not have a maintenance fund. Mr. Murray asked the Drainage Board to consider creating a fund which would help the Surveyor's Office and the Highway Department to determine what action could be taken. Mr. Murray stated when a problem becomes severe enough the County Highway Department will clean out an obstruction that is off county road right-of-way to protect the road way, but the funds used for the clean-up are funds that could be used elsewhere.

Commissioner Jones stated Steve Wettschurack told him that FEMA was going to help out with the situation on North 9th Street.

Mr. Murray pointed out with the older residential subdivision the storm water system were allowed to outlet into privately owned ravines, there is no funding available to help with maintenance on these situations. If the storm water system becomes plugged or breaks down causing the streets to flood the County Highway Department has repaired the problem, using funds that were not intended for that type of repair.

Mr. Gerde's understanding is that in the majority of those situation the County does not have an easement, which cause a legal problem for the County.

Mr. Spencer stated in all cases where the County has worked out side the easement a complaint was filed therefore the landowners are willing to grant entry onto their land.

MARCH DRAINAGE BOARD MEETING DATE

Mr. Spencer explained the March 1997 Drainage Board meeting date needs to be changed, if possible. Mr. Gerde is going to be out of town on the scheduled meeting date of March 5, 1997.

Discussion of the next Drainage Board Meeting, after an agreed date and time, Commissioner Hudson stated the next Drainage Board meeting will be Tuesday, March 11, 1997 at 9:00 a.m.

Being no further business Commissioner Hudson moved to adjourn until Tuesday, March 11, 1997 at 9:00 a.m., seconded by Commissioner Jones. Meeting adjourned.

TIPPECANOE COUNTY DRAINAGE BOARD

February 4, 1998

regular meeting

Those present were:

Tippecanoe County Commissioners Ruth Shedd, and John Knochel, County Surveyor Mike Spencer, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultant Dave Eichelberger and Drainage Board Secretary Shelli Muller.

The Tippecanoe County Drainage Board met Wednesday, February 4, 1998, in the Tippecanoe Room of the Tippecanoe County Office Building, 20 North 3rd Street, Lafayette, Indiana with Commissioner Shedd calling the meeting to order.

The first item on the agenda was to approve the minutes from the October 15, 1997 and December 19, 1997 regular Drainage Board meetings. Commissioner Knochel moved to approve the minutes, seconded by Commissioner Shedd. Minutes Approved.

MIKE MADRID COMPANY

Bob Gross, and Craig Rodarmel of R.W. Gross and Associates, presented the Board with final drainage plans of Mike Madrid Company, located west of I-65, in the northeast portion of the intersection of Swisher Road and the Rail Road. Mr. Gross explained at the south end of the site an existing 15 inch culvert under Swisher Road is the outlet. In the post-developed condition the same 15 inch pipe will be used for the outlet of the site with two sub basin. The sub basin at the north and east sides of the site will outlet into a 12 inch pipe under the driveway and then flow into the 15 inch outlet pipe under Swisher Road. The second sub basin will be at the south end of the site and outlet through a 12 inch pipe with a 4.25 inch diameter orifice on the end to restrict the flow before outletting into the 15 inch pipe under Swisher Road. Mr. Gross explained neither of the two basins will be very deep, but they will be spread over a large area.

Mr. Spencer stated he recommends final approval with the condition the applicant receives approval from the County Highway Department for use of the road right-of-way as site detention.

Commissioner Shedd asked where the emergency overflow will go and who owns the property the overflow will go on?

Mr. Gross stated Mike Madrid Company owns the property for the proposed emergency overflow.

Commissioner Knochel moved to grant final approval of the Mike Madrid Company drainage plan with the condition the applicant receives approval from the County Highway Department, seconded by Commissioner Shedd. Motion carried.

DRAINAGE BOARD 1998 CONTRACTS

Attorney

Mr. Spencer presented the Board with a 1998 contract from Hoffman, Luhman and Busch Law Firm for their services to the Tippecanoe County Drainage Board.

Commissioner Knochel moved to approve the 1998 contract with Hoffman, Luhman and Busch Law Firm, seconded by Commissioner Shedd. Motion carried.

Engineering Consultant

Mr. Luhman presented the Board with a 1998 contract from Christopher B. Burke Engineering, LTD. for engineering consultant services for the Tippecanoe County Drainage Board.

Mr. Luhman suggested continuing the 1998 contract with Christopher B. Burke Engineering, Ltd. until some language is included, which is in the agreement from January 3, 1995 contract. Christopher B. Burke Engineering, Ltd. could copy the 1995 contract and update it to include the current rates.

Commissioner Knochel moved to continue the 1998 engineering consultant contract with Christopher B. Burke until the March 4, 1998 Drainage Board Meeting, seconded by Commissioner Shedd. Motion carried.

1998 ACTIVE AND INACTIVE DITCH LIST

Mr. Luhman read the 1998 active and inactive ditch list.

ACTIVE DITCH LIST

- 4. Delphine Anson 8. Julius Berlovitz 10. Michael Binder 14. Buck Creek
- 16. Orrin Byers 18. Train Coe 20. County Farm 26. Darby Wetherill

Commissioner Knochel moved to approve the 1998 ditch assessment list, seconded by Commissioner Shedd. Motion carried.

OTHER BUSINESS

Mr. Spencer brought to the Board's attention a public notice from the Corp. of Engineers regarding the proposed wetland constructed above a county regulated tile drainage system the **John McCoy Ditch** located south of Wea School along County Road 200 East. Mr. Spencer explained there have been some concern from the property owners in the watershed area with what the Corp. has proposed. Mr. Spencer asked the Board if the County should have an informational meeting regarding the wetland?

Commissioner Knochel moved to have an information meeting with all the effected landowner in the area of the proposed wetland, seconded by Commissioner Shedd. Motion carried.

Mr. Spencer asked if the 30 day requirement for a public notice would be in affect with this meeting only being an informational meeting?

Mr. Luhman stated no, not for an informational meeting because it is not being reconstruted, the assessment is not going to change and there is not going to be any legal affect on the landowners.

MINUTE BOOK

Mr. Luhman explained that there was a question as to whether or not a ledger size minute book was required to be used, if not, than could the minute book be changed to a letter or legal size. Mr. Luhman stated he could not find any statue where a ledger size book had to be used.

Commissioner Shedd granted approval to change the size of the minute book from ledger to letter, beginning with the 1998 Drainage Board minutes.

Being no further business, Commissioner Knochel moved to adjourn until March 4, 1998, seconded by Commissioner Shedd. Meeting adjourned.

Commissioner Knochel moved to approve the list of Active and Inactive Ditch Assessment for the year 1999, seconded by Commissioner Shedd. Motion carried.

WATKINS GLEN SUBDIVISION, PHASE 4, PART 3

Tim Beyer of Vester and Associates, asked the Board for preliminary approval of Watkins Glen Subdivision, Phase 4, Part 3 located off County Road 400 East. The proposed subdivision consists of 9 lot on a 5 acre site. Mr. Beyer asked for a variance from the Drainage Ordinance that requires on-site detention. The majority of the proposed plan drains to an existing pipe and then to an existing detention facility for Watkins Glen South, Part V. The facility has the capacity to handle the additional runoff of Phase 4, Part 2.

Mr. Spencer recommended granting the variance for no on-site detention and preliminary approval of the drainage plan for Watkins Glen, Phase 4, Part 3.

Commissioner Knochel moved to grant preliminary approval of Watkins Glen, Phase 4, Part 3 and to grant the variance allowing no on-site detention, seconded by Commissioner Shedd. Motion carried.

SEASONS FOUR SUBDIVISION, PHASE III

Roger Fine, of John E. Fisher and Associates, asked the Board for approval of the outlet pipe for Seasons Four Subdivision, Phase III. The City of Lafayette requires the project to receive approval from the Tippecanoe County Drainage Board because of the outlet pipe into the **Elliott Ditch**. Mr. Fine informed the Board a DNR permit is pending for work in the floodway.

Mr. Spencer recommended approval of the outlet pipe, subject to the project receiving the DNR permit.

Commissioner Knochel moved to approve the outlet pipe into **the Elliott Ditch** for Seasons Four Subdivision, Phase III, subject to the approval of the DNR permit, seconded by Commissioner Shedd. Motion carried.

Being no further business, Commissioner Knochel moved to adjourn until March 3, 1999 at 10:00 a.m., seconded by Commissioner Shedd. Motion carried.

Kathleen Hudson, Vice President

John Knochel, Member

TIPPECANOE COUNTY DRAINAGE BOARD

February 9, 2000

Regular Meeting

Those present were:

Tippecanoe County Commissioners Kathleen Hudson, John Knochel and Ruth Shedd, County Surveyor Stephen Murray, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultant Dave Eichelberger and Drainage Board Secretary Doris Myers.

The Tippecanoe County Drainage Board met Wednesday, February 9, 2000, in the Tippecanoe Room of the Tippecanoe County Office Building, 20 North 3rd Street, Lafayette, Indiana with Commissioner Kathleen Hudson calling the meeting to order.

The first item on the agenda is to approve the minutes from the January 12, 2000, Regular Drainage Board Meeting and minutes from the January 21, 2000, Special Drainage Board Meeting. Commissioner Knochel moved to approve the minutes of January 12, 2000, Regular Drainage Board Meeting and January 21, 2000, Special Drainage Board Meeting, seconded by Commissioner Shedd. Motion carried.

Commissioner Hudson welcomed Stephen Murray, as new County Surveyor, to his first meeting with the Drainage Board.

CROSSPOINTE APARTMENTS SUBDIVISION

Wm. R. Davis with Hawkins Environmental gave presentation for Crosspointe Apartments Subdivision. This site is located east of Creasy Lane, south of Weston Woods Subdivision and east of the **Treعه Meadows Relief Drain**. The applicant proposes to construct apartments and associated parking. The stormwater management plan for this area was the subject of previous studies conducted as part of the Amelia Avenue extension over the **Treعه Meadows Relief Drain**. Two issues from C.B. Burke Engineering report to be discussed. First issue is ponding of waters on project. The parking lot plans were intended to pond 7" of water. Second issue concerning previously discharge channel that has been schematic approved for the drainage of this site. Their intention is to use this channel for draining this site. If not approved as is a modification can be brought before the board.

Commissioner Hudson asked Dave Eichelberger to explain about the wet bottom ponds.

Dave Eichelberger, Drainage Board Engineering Consultant, stated the previous stormwater management plan indicated that portions of this development would drain to proposed wet-bottom ponds prior to discharging to the **Treعه Meadows Relief Drain**. However, it does not appear these ponds are proposed as part of this subject development on their plans. Are these ponds already in place, are they going to be constructed as part of this project or are they going to have some interim outlet to the **Treعه Meadow Relief Drain** between now and then? If are wanting final approval may need to have condition that proposed ponds are constructed or proposed outlet is approved.

Steve Murray asked Wm. R. Davis what was their intent.

Wm R. Davis commented there is another project that has risen to this area. The project is not moving very rapidly. They want to get these projects temporarily constructed as did in schematic approval of wet-bottom channel as part of this project.

Commissioner Hudson asked if these outlets would be the ones carrying water over parking lot. Answer was no.

Commissioner Hudson asked what was going to be done about the water ponding over the parking lot area.

Steve Murray stated 7" water ponding over parking lot is allowable by ordinance. This is backwater from 100-year flood as composed to conventional ponding for storage in the lot.

Steve Murray asked if there was a duration limit.

Dave Eichelberger stated none that he is aware of.

Commissioner Knochel moved to grant final approval to Crossepoint Apartments Subdivision subject to the outlets being constructed as part of this project, seconded by Commissioner Shedd. Motion carried.

WABASH NATIONAL SITE DETENTION

Wm. R. Davis with Hawkins Environmental gave presentation for Wabash National Site Detention. This is a 340-acre site located north of C.R. 350 South, between Concord Road and U.S. 52. This is a schematic design for Wabash National and is the second time for reviewing this site. We are trying to come up with an overall plan for final development of Wabash National property. They are not placing structures, etc, but are determining the amount of improved surface they can have, what areas need to be stoned, types of drainage, etc. Currently there is a tile branch of **Elliott Ditch** traversing this property. At present a lot of water stands on this property. We are proposing how to move this water in a developed condition. Will be stoning parts of the property after constructing diversion ditches. Will be removing tile in the **Elliott Ditch** Branch and make open drain. The present detention pond is adequate for future use. Wm. R. Davis is asking for approval of schematic design for Wabash National Site Detention.

Dave Eichelberger suggests preliminary approval of the ditch network and final approval of the continued use of the existing detention pond.

Commissioner Knochel moved to grant preliminary approval of the ditch design for the Wabash National Site Detention and final approval for the drainage pond, seconded Commissioner Shedd. Motion carried.

WILLIAMS COMMUNICATIONS – FIBER OPTIC CABLE

Harold Elliott with Williams Communications gave presentation to install fiber optic cable communication system. This cable will stretch from Atlanta, Cincinnati, Indianapolis and through Chicago. Part of this system will go through a portion of Tippecanoe County. Have received permits for the road crossings. Had been working with Mike Spencer for permits on drainage ditches. They had sent a letter earlier, recommended by Mike Spencer, explaining what they were going to do. Mr. Elliott stated he thinks they should have a permit due to all the bonding, etc. Mr. Elliott's purpose for being here today is to go over project, find out for sure what they do want, and get bond, etc. ready for the next meeting.

Commissioner Hudson asked Mr. Elliott if he received Dave Luhman's letter.

Mr. Elliott's comment was yes. Mr. Elliott stated they have included what Mr. Luhman asked for. Mr. Elliott had a question on drawing for each ditch. Can they use what we use as a typical ditch crossing with it put to the ditch we are crossing? Instead of a complete profile of each ditch.

Dave Luhman asked if it would be similar to what is used on highways. If so, that would be adequate. Mr. Elliott commented yes. Williams Communications will furnish drainage board with a complete list of where line is as built.

Steve Murray stated he would like Mr. Elliott to give as much information possible to the contractor, so they can narrow down their area to start being aware that there may be a legal drain there.

Mr. Elliott commented there would be a crew out to survey each of the legal drains so contractor knows exactly where they start and will be. They are running a minimum of 42" below ground. Some of the survey work is being done now.

Steve Murray asked if they would trench or plow the lines.

Mr. Elliott stated the plan was to plow. When you go across ditches we know you can't plow. So we will be trenching these lines.

Steve Murray stated they would want the cable trenched not plowed. When you trench you can see turned up broken tiles. When you plow there is no visible evidence of broken tiles. May be 3 to 5 years before drain collapses and backs up. A lot of counties have gone too only allowing trenching now days as opposed to plowing.

Commissioner Knochel stated his concern was when turning up some private tiles who will repair. They want someone who is knowledgeable to do the field tile repair.

Mr. Elliott commented he had talked with Mike and would like for the drainage board to hire someone in our county to act as an inspector to find the legal drains and bill Williams Communications for that service.

Steve Murray commented his concern is finding an inspector. It doesn't matter if the drainage board hires or if Williams Communications hires. Stephen thinks it would be better if drainage board hired the inspector.

Mr. Elliott asked about a pay scale agreement. This can all be worked out when I come back for the next meeting.

Steve Murray asked what is your construction schedule.

Mr. Elliott stated this year, this spring. It depends on all the permits coming in and all the easements that are being required one way or the other.

Steve Murray felt comfortable with this if they are willing to work under the drainage board conditions.

Mr. Elliott suggested the \$5,000 bond might not be large enough. There is more potential damage than \$5,000.

Dave Luhman recommends \$25,000.00 bond. Wait on final draft at the March 1, 2000 meeting for details.

Mr. Elliott will return for the March 1, 2000, meeting with final draft and details.

OTHER BUSINESS

PETITION FOR ENCROACHMENT ON UTILITY & DRAINAGE EASEMENT LOT 63, RED OAKS SUBDIVISION

Steve Murray gave presentation of this petition for encroachment on utility & drainage easement Lot 63, Red Oaks Subdivision. The petition for encroachment reads as follows: The undersigned, John L. Maloney, who owns 609 Bur Oak Court, does hereby request permission of the Tippecanoe County Commissioners and the Tippecanoe County Drainage Board to encroach 25 feet into the utility and drainage easement at the rear side of their home on Lot 63, Red Oaks Subdivision, Wea Township, Tippecanoe County, Indiana, as shown on the diagram hereto attached and made a part of this petition. Diagram will be on file in surveyor's office. Stephen commented the real concern is the 25 feet encroachment will be too far down the bank and into the water level. This could be an obstruction if maintenance needs to be done to the bank for erosion purposes or pipe out fall. A 10-foot encroachment will bring to the top of bank. Stephen stated he would not recommend any more encroachment then to the top of the bank.

Commissioner Hudson asked if 10 foot would encroach into the utility and drainage easement.

Steve Murray commented without an actual survey tying the house to the lot lines we wouldn't know for sure. It would appear the 10-foot at the top of bank is roughly the easement line that they want to encroach into. If we do not grant requirement for encroachment they can not go any further than the top of bank.

Commissioner Hudson asked if Bill Augustin of Gunstra Builders was aware of this being on the agenda.

Steve Murray commented he had talked to Bill Augustin this week and thought he was aware of the agenda.

Commissioner Knochel asked if they wanted to build a deck and if it was already built.

Steve Murray answer was didn't believe so. Chris from surveyor's office had been out in the last month and took pictures. No deck was in the pictures.

Dave Luhman asked if they wanted to resubmit this petition for an amendment asking for a lower amount of encroachment. If the Drainage Board denies this petition they can resubmit another petition.

Commissioner Knochel moved to deny request for 25 foot encroachment on utility and drainage easement for Lot 63, Red Oaks Subdivision, Wea Township, Tippecanoe County, seconded by Commissioner Shedd. Motion carried.

CHICAGO TITLE INSURANCE COMPANY

Dave Luhman gave presentation regarding request of letter from Drainage Board to Chicago Title Insurance Company. The property is located at 3815 SR 38 E known as the **Kyger Bakery**. There has already been a dry closing on the sale. There are 2 buildings that come within the 75-foot easement. The Chicago Title Insurance Company in order to issue their title insurance need letter from Drainage Board acknowledging that buildings on this property were constructed prior to the requirement of the 1965 Drainage Act and are thus legally located structures and do not constitute illegal encroachments. Have tax records from Fairfield Township Assessors Office that show these structures were built in 1948. Dave Luhman presented Commissioner Hudson with letter on Drainage Board stationery for signature stating these structures were built prior to the requirements of the 1965 Drainage Act and are thus legally located structures and do not constitute illegal encroachments. Dave Luhman has reviewed this with Mr. Bumbleburg, who represents Kyger, and has his approval.

Commissioner Knochel moved president of Drainage Board to sign this letter stating the building were built before 1965 and do not constitute illegal encroachments, seconded by Commissioner Shedd. Motion carried.

Being no further business Commissioner Knochel moved to adjourn meeting, seconded by Commissioner Shedd. Meeting adjourned.

Kathleen Hudson, President

Doris Myers, Secretary

John Knochel, Vice President

**Bi-County Drainage Board
Minutes
Tippecanoe & Benton Counties
July 9, 2002
Otterbein Ditch Assessment Meeting**

Those present were:

Benton County Commissioners David Fisher and Kevin Leuck, Tippecanoe County Commissioners KD Benson and Ruth Shedd, Warren County Commissioner James Lanham, Tippecanoe County Surveyor Stephen Murray, Benton County Surveyor Jack Steele, Joint Drainage Board Attorney David Luhman and Executive Secretary Brenda Garrison.

Election of Officers:

The Bi-County Drainage Board met July 9, 2002 in Pierce Hall; United Methodist Church located at 106 East Oxford Street, Otterbein Indiana. Dave Luhman, Attorney for the Joint Drainage Board, called the meeting to order. The first order of business was the election of officers. Ruth Shedd made the motion to nominate David Fisher for President. KD Benson seconded the motion. The motion passed. David Fisher made the motion to nominate KD Benson for Vice President and Ruth Shedd seconded the motion. The motion passed. Jack Steele made the motion to nominate Brenda Garrison as the Recording Secretary, and Stephen Murray seconded the motion. The motion passed. Dave Luhman then turned the meeting over to the President David Fisher. David Fisher turned the meeting over to Tippecanoe County Surveyor Stephen Murray and Benton County Surveyor Jack Steele.

History and Proposal of the Otterbein Ditch:

Steve Murray began by giving a history of the Otterbein Ditch. The Otterbein Ditch was originally established as a Court Ditch in Benton County in November of 1931, a result of a petition from the trustees of the town of Otterbein. By current Drainage Code, the Otterbein Ditch is a Legal Regulated Drain with no established maintenance fund. Records indicate discussion of establishing a maintenance fund had taken place since 1977, with petitions for maintenance and/or reconstruction being presented in 1984, 1987 and 2000. Steve then explained the Drainage Code statues pertaining to the establishment of a Joint Board and a maintenance fund once a petition is received and filed with the Surveyor's office.

Steve read the landowner names that had sent letters of remonstrance to the board. The following landowners' names were read into the record; Jeffrey L. Snyder, Rolland and Alice McKinney, Henry Bell Jr., Karen and Charles Magdziak, Bob McLean, Maybell Lewis, and Perry W. Elliott. These letters were filed and would be part of the official Drain record.

Steve then read the maintenance report to the Board and attendees. The total watershed area is 2961.65 acres, with 1736.01 acres in Tippecanoe County and 1225.64 acres in Benton County. There are 14,580 feet of ditch in Tippecanoe County, and 8220 feet in Benton County, with a total of 22,800 feet or 4.32 miles. The approximate cost of maintenance work currently necessary will be \$141,710.72. The proposed maintenance work would be brush and tree removal, removal of sediment and build-up in the ditch bottom and/or excavation, new outlet pipes for existing tiles and drains which outlet into the ditch, and riprap reinforcement where needed at waterways and bends. The Benton and Tippecanoe Highway Departments would replace structures under their county roads as needed.

The work would be done in phases. The first phase would be the worst stretch, approximately 2000 feet west or upstream of Tippecanoe County Road 800 West, and would extend west and northwest to the joint county line. The culvert under the Benton and Tippecanoe County Line Road north of U.S. 52 had been replaced to the original grade, which resulted in an approximately 24 to 30 inch jump up. There is an approximately two-foot accumulation of silt where the H.W. Moore Lateral outlets into the ditch, an apparent cause of poor drainage. Steve formally thanked Jack Steele for his assistance and knowledge shared regarding the Otterbein Ditch. With that said, he turned the meeting back over to the President, David Fisher. David referred to Jack for any additional comments.

Benton County Surveyor Jack Steele stated he had answered most of the questions on assessments individually. He stated the proposed assessment on the Otterbein Ditch for those landowners presently assessed on the H.W. Moore lateral would be split between the H.W. Moore and the Otterbein Ditch; resulting in no net increase. He referred the attendees' attention to watershed maps of the Otterbein Ditch and the H.W. Moore lateral that were exhibited.

Discussion was held on the present poor drainage of the H.W. Moore Lateral and the Town of Otterbein's drainage. Landowner Tina Miller complained of poor drainage in her yard from the runoff of farm fields adjoining her property. Jack stated the poor drainage was due to tile stopping at the edge of her property. While Jack sympathized with her, it was the

landowners' responsibility and could not be included in the maintenance work proposed. He referred her to the Town Board for possible assistance. In response to an inquiry from landowner Dennis Mathis, Jack reviewed previous maintenance work on the H.W. Moore Lateral. Commissioner Kevin Leuck explained to the attendees that all of the Town of Otterbein drains into the Otterbein Ditch, not just the surrounding farmland. He believed the inadequate drainage system of the town contributed to the poor drainage of the Otterbein Ditch. He stated it was the result of previous Board's actions from as early as 1908, when the town was growing.

Dennis Mathis asked Jack Steele the present balance of the H.W. Moore fund. Jack stated a balance of approximately \$34,000.00 was in the H.W. Moore fund. He reiterated this money was and would be separate from the Otterbein Ditch fund which was being proposed.

Attorney Dave Luhman explained the Drainage Code statute pertaining to landowners within the watershed sharing the cost of maintenance. Steve noted the Surveyors arrived at the proposed assessment cost while trying to keep the cost at a reasonable rate to the landowners. Planning the work in phases would be less of a hardship on the landowners financially. He continued by explaining the assessment for those presently being assessed on the H.W. Moore lateral would be split between the H.W. Moore Drain and the Otterbein Ditch. The H.W. Moore assessment of \$10.00 an acre and \$24.00 per lot would be split as follows; \$5.00 an acre going to the H.W. Moore fund and \$5.00 an acre going to the Otterbein Ditch fund and the \$24.00 per lot assessment split with \$12.00 going to the H.W. Moore fund and \$12.00 to the Otterbein Ditch fund. Therefore, the proposed assessment on the Otterbein Ditch would not raise the present assessment for those landowners benefited by the H.W. Moore Lateral.

Discussion was held pertaining to the various ways of obtaining monies to pay for the proposed work. Jack noted the proposed amount would increase in time due to inflation. The option of grants could not be considered due to limited number of grants available to counties, and he did not want to jeopardize a grant application presently in the works for another drain within his jurisdiction. Steve stated assuming the monies were adequate to accomplish the work after four years the proposed assessment would decrease to \$3.00 per acre and \$10.00 per lot.

Landowner Jerry Rooze asked when the assessment and maintenance work would start. Steve replied the assessment would start in May of 2003 and the work would begin tentively next year (2003). Discussion was then held pertaining to the removal of trees along the ditch banks. Due to possible future changes in the environmental laws and the Department of Natural Resources rules and guidelines being streamlined this year, it would be prudent to start the work as soon as possible.

Landowner Margaret McCabe asked Steve to read the Letter of Remonstrance from Perry Ellis. Steve then read the letter and it was filed with the aforementioned letters in the official Drain record.

The Tippecanoe County Surveyor recommended adoption of the assessments presented to the Board, and establishment of a maintenance fund for the Otterbein Ditch. At that time, Attorney Dave Luhman read the Findings and Order statement by the Board to the attendees. Commissioner Kevin Leuck made a motion to adopt the Findings and Order on the Otterbein Ditch Drain and to certify the assessments with the Tippecanoe (&Benton) County Auditor as statute required. KD Benson then seconded the motion and the motion carried.

Commissioner KD Benson made the motion to adjourn and Commissioner Kevin Leuck seconded. There being no further business, the meeting adjourned.

Kevin Leuck, Benton County Commissioner

David Fisher, President

Ruth E. Shedd, Tippecanoe County Commissioner

KD Benson, Vice President

James Lanham, Warren County Commissioner

Brenda Garrison, Secretary

Tippecanoe County Drainage Board
Minutes
November 1, 2006
Regular Meeting

Those present were:

Tippecanoe County Drainage Board President KD Benson, Vice President John Knochel, member Ruth Shedd, County Surveyor Steve Murray, Drainage Board Attorney Dave Luhman, and Drainage Board Secretary Brenda Garrison. Drainage Board Engineering Consultant Dave Eichelberger from Christopher B. Burke Engineering Limited was absent.

Approval of Minutes

John Knochel made a motion to approve the October 4, 2006 Regular Drainage Board minutes as written. Ruth Shedd seconded the motion. The October 4, 2006 Regular Drainage Board meeting minutes were approved as written.

Duke Energy Westwood Substation

KD noted this project was continued from the October 4, 2006 Drainage Board Meeting due to a violation of the Stormwater Ordinance regarding construction activity prior to Drainage Board approval. Bill Taylor of Duke Energy was in attendance and available for questions by the Board.

Brandon Fulk from Schneider Corporation appeared before the Board and requested a Stormwater Quality post construction variance with final approval for Duke Energy Westwood Substation. Brandon stated a tree planting plan along County Road 500 West would be submitted and the site would be permanent stone. This would be included in the master covenants. The covenants and the plan had not been submitted to date in order to include any requirements made by the Board today. He noted landowner Dawn Copas had appeared before the Board last month and spoke with Bill Taylor after the meeting regarding a tree planting plan. Bill Taylor stated Mrs. Copas had requested Evergreen trees. He suggested two rows of Evergreens along Co. Rd. 500 West and he indicated she was agreeable. Brandon added they agreed with the September 29, 2006 Burke memo. He requested a Stormwater Quality Variance along with final approval.

KD noted the notice from IDEM to Duke Energy was clear in that the applicant was required to submit their project to the local Drainage Board for approval. They were in violation of the Ordinance. Brandon agreed and stated Schneider Corp. had no knowledge of the IDEM letter to Duke Energy until their initial meeting with Duke Representatives which was after the violation occurred. They reiterated to the representatives at that time they would have to follow the County Drainage Ordinance. The Surveyor also noted the letter stated the applicant would have to comply with the Drainage Ordinance regarding Rule 5. He noted the letter also stated "in the meantime it would be considered deficient although they were aware of the extenuating circumstances and had no intention at that time of holding up their project". However it was clearly stated prior to that indicating they would have to go through the Drainage Board for compliance. Their construction activity should have ceased at that point. He noted the Ordinance called for a \$500.00 a day fine and stated due to the timeline involved the fine could be as high as \$75,000.00. He felt it was a misunderstanding on Duke's part and a fine of that magnitude was not warranted. He recommended a \$1000.00 fine and submittal of a tree planting plan agreeable with the Board. John Knochel also stated he felt it was a misunderstanding on Duke's part and was satisfied with the proposed fine amount along with the proposed tree planting plan.

John Knochel made a motion to accept the proposed \$1000.00 fine along with a tree planting plan including a maintenance plan to be worked out with the Surveyor's office. Ruth Shedd seconded the motion. KD noted as a first interaction with Duke- this was not a good start and reiterated to Mr. Taylor the need to go through proper channels within County Government for project approvals. The Surveyor noted Tipmont REMC was required to get Drainage Board approval for their Substation as the requirement was for all utility companies. A \$1000.00 fine to Duke Energy for the Westwood Substation construction violation along with a plan for screening trees for the entire frontage along County Road 500 West agreeable to the Surveyor's office was approved.

John Knochel made a motion to grant the requested variance for Stormwater Quality. Ruth Shedd seconded the motion. A variance for Stormwater Quality was granted as requested. John Knochel made a motion to grant final approval with the conditions as stated on the Sept. 29, 2006 Burke memo for Duke Energy Westwood Substation. Ruth Shedd seconded the motion. Duke Energy Westwood Substation was granted final approval with conditions as stated on the Sept. 29, 2006 Burke memo along with the submission of a tree planting plan agreeable to the Surveyor's office. KD reiterated with Mr. Taylor Duke Energy must follow the Tippecanoe County Drainage Ordinance when planning projects in the future and the County would follow their future projects closely.

Other Business

2007 Drainage Board Meeting Dates

KD stated March 13th was a Tuesday therefore the 14th would be appropriate due to Purdue Road School the first week of March. The Board was in agreement of the proposed dates submitted by the Secretary with the revised date of March 14th, 2007. The Secretary would post the dates as agreed by the Board.

Hickory Hills III Phase 1 Section 3

The Surveyor updated the Board regarding Hickory Hills III Phase 1 Section 3. He had met with Mr. Holden of Farmers State Bank of Frankfort Indiana and now the developer by default of the aforementioned subdivision. He stated the Bank was in the process of contracting a company to construct the swale back as designed and to complete the original punch list previously provided to them (approx. a year ago) by the Surveyor's office. Mr. Holden informed the Surveyor their intent was not to go through court proceedings and he felt if the County would send a letter to the Bank they would cut a check to the County for the work needed. However the Surveyor informed Mr. Holden the Board would like the Bank to hire a Company to accomplish the work needed so the County could give the final approval. Mr. Holden was agreeable. Phil Kretzmier of A&K Construction stated they had agreed upon an amount with the Bank to restore the swale and complete the punch list. The amount was approximately \$5500.00. Mr. Kretzmier was looking into possibly completing the construction this year, however was not positive all the items could be accomplished by end of year. The Surveyor recommended the Board grant him authority upon receipt of proper documentation to release of the Certificate of Occupancy on Lot 104 and allow other individuals to draw building permits as requested.

John Knochel made a motion to grant the Surveyor the authority- upon receipt of proper documentation (and with a timeline of no later than end of May 2007) - to release of the Certificate of Occupancy on Lot 104 and allow other individuals to draw building permits when requested. In response to KD's inquiry, the Surveyor noted Maintenance Bonds and/or Letter of Credit in lieu of Bonds would be in effect for the Subdivision. He had no doubt A&K Construction would try to complete the work by end of year, but did not know if that would be feasible due to weather conditions. He stated he informed Mr. Kretzmier a letter from the Bank acknowledging A&K Construction would do the work was required. The Attorney also noted Farmers State Bank had acknowledged they were financially responsible to see that drainage was restored to the previously approved final plans. He had spoke with the Bank's Attorney and he had acknowledged the work to be done first would be on Lot 104 behind the home so the landowner may close on their pending loan and move in. The Surveyor reiterated the Bank had inherited the project due to the default of the original developer. He felt they had every intention of following through with the work needed. Ruth Shedd then seconded the motion. The Surveyor was granted the authority- upon receipt of proper documentation (no later than end of May 2007) - to release of the Certificate of Occupancy on Lot 104 and allow other individuals to draw building permits when the work was completed.

Benton County Assessment Notification

H.W. Moore Lateral and Otterbein Drain

The Surveyor referred to the Attorney concerning Benton County Assessment Notification. The Attorney stated a letter was received from the Benton County Surveyor – Jack Steele which requested removal of the assessments on Lot 5 (Parcel #152083010057) and Lot 10 (Parcel #152083010101) of the Shoff addition to the Town of Otterbein with regard to the H.W. Moore Lateral Drain and the Otterbein Ditch. He noted the reasoning for the removal was the following: a 48" and 36" tile severs both lots along with the 150 feet wide right of entry for drainage improvements under consideration made both lots unbuildable. It is the Benton County's Surveyor's opinion the assessment for both lots should be reduced to 0. The recommendation had been approved through the Benton County Drainage Board and was submitted to this Drainage Board as the other part of the Bi- County Drainage Board for approval. The Surveyor stated it was a Bi-County Drain and the majority of the lateral tile was in Benton County who were in control of the drain. He was aware the H.W. Moore Lateral tile previously had major problems and was reconstructed a few years ago. He stated he was comfortable with the Benton County Surveyor's recommendation to remove the lots off of the drain tax roll for the aforementioned drains. In response to Ruth Shedd's inquiry, the Attorney stated in determining drainage assessments one must weigh damage the landowner occurs against the benefit he receives. It is Mr. Steele's opinion regarding these lots the damages the landowner received is greater than any benefit they may get from drainage. In response to KD, the Surveyor noted Mr. Steele oversees Building Permits in Benton County to include all of the Town of Otterbein in addition to being the Area Plan Director for Benton County.

John Knochel made a motion to approve the removal of the assessments on Lot 5 (Parcel #152083010057) and Lot 10 (Parcel #152083010101) of the Shoff Addition to the Town of Otterbein from the H.W. Moore Lateral and the Otterbein Ditch Drainage Assessment Rolls. Ruth Shedd seconded the motion. A Correction of Assessments would be filed including a copy of the minutes with the Auditor Office of both Counties for the removal of the drainage assessments on said lots.

Lauramie Creek Watershed Management Plan Professional Services Agreement

The Surveyor presented a Lauramie Creek Watershed Management Plan Professional Services Agreement with Christopher B. Burke Engineering LTD for acceptance. He stated there were monies available within the 319 Grant through IDEM for the implementation of some of the practices recommended within the previous Lauramie Creek Watershed Study. A cost share program should be developed for various best management practices in target areas as identified in the Watershed Management Plan. There was a provision for Public Information and Outreach and they would be reforming a Steering Committee with interested stake holders. IDEM indicated there were 319 Grant implementation monies still available for this use. The intent of having the watershed planning process was to identify what problems there may be within the watershed since this feeds into the South Fork of the Wildcat. He felt fortunate to receive the opportunity to receive implementation money from the 319 Grant. He wanted the Board as well as the Surveyor's office to have the experience with watershed studies and the various funds for such studies. He recommended the Board execute the Lauramie Creek Watershed Management Plan Professional Services Agreement with Christopher B. Burke Engineering LTD. He noted within a portion of the Lauramie Creek Watershed lies the JB Anderson Regulated Drain. In response to Ruth Shedd's inquiry, the Surveyor stated the cut off date for the use of the grant monies was August 15, 2009 and there was no penalty for not spending it. There were numerous studies going on along the Wildcat Creek and he had heard from landowners along the Wildcat Creek who were enthusiastic about the studies. This also may allow an opportunity for improvements on the J.B. Anderson Regulated Drain. He stated the 319 Grant money was federal monies administered by IDEM and good conservation practices would reduce maintenance costs of drains and ditches in the long run. The Attorney stated he had reviewed the Contract.

John Knochel made a motion to accept the Lauramie Creek Watershed Management Plan Professional Services Agreement with Christopher B. Burke Engineering LTD dated October 23, 2006. Ruth Shedd seconded the motion. The Lauramie Creek Watershed Management Plan Professional Services Agreement with Christopher B. Burke Engineering LTD dated October 23, 2006 was approved as presented by the Surveyor.

Public Comment

With no public comment, John Knochel made a motion to adjourn the meeting. Ruth Shedd seconded the motion. The meeting was adjourned.
