

REGULAR MEETING OF THE TIPPECANOE COUNTY DRAINAGE BOARD HELD OCTOBER 1, 1975

The Tippecanoe County Drainage Board met in the County Council Room in the Tippecanoe County Council Room in the County Court House at 9:15 a.m., with the following members present: Bruce Osborn, Robert Fields, William Vanderveen, Robert L. Martin, Fred Hoffman and Gladys Ridder.

Minutes  
Approved

Upon the reading of the minutes of the August 6th and 20th, 1975 meetings, Bruce Osborn made the motion to accept the minutes as read. The motion was seconded by Robert Fields and made unanimous by William Vanderveen.

Meeting date  
Changed

The November meeting date falls on the day after election and the Council Room will be occupied. Also many of the farm people will be harvesting, so the Board felt it wise to change the date for the next meeting until December 10, 1975.

Nellie Ball  
Ditch  
Petition

The petition of the people in the Nellie Ball Legal Ditch watershed area was read and discussed. They had asked to be considered for reconstruction so the Board referred it to the Surveyor to prepare for a new reconstruction hearing.

9:30 a.m.  
Maintenance  
for  
Ray Skinner  
Ditch

Robert Fields opened the hearing on the Ray Skinner ditch by asking the Surveyor for his report and recommendations. The Surveyor read two letters received by the Board in connection with this ditch. One was from Mildred Ellison asking for assistance on her portion of the ditch and the other was from John B. Willig stating he was against a maintenance fund for he felt he received no benefit from the ditch.

Charles Kennedy was the only person in attendance. He expressed his complete approval of a maintenance fund and the \$1.00 per acre assessment as recommended by the Surveyor. Bruce Osborn made a motion to establish a \$1.00 per acre assessment on the Ray Skinner ditch. Robert Fields seconded the motion and William Vanderveen made it unanimous.

Ilgenfritz  
Ditch

Mr. Lewis Beeler, Mrs. James Phillips and Mrs. Thelma Clearwater appeared before the Board to ask for help in repairing the Ilgenfritz Legal Ditch. Even though a maintenance fund had been established on this ditch earlier, the Surveyor wanted the approval of the Board on this project especially since there had been so much controversy in that area. Mr. Beeler assured the Board that the repairs needed would definitely not shed a greater amount of water on those below in the Dismal Creek area but only protect their tile.

## REGULAR MEETING OF THE TIPPECANOE COUNTY DRAINAGE BOARD HELD OCTOBER 1, 1975 CONTINUED

Upon motion of William Vanderveen, seconded by Robert Fields and made unanimous by Bruce Osborn, the Board instructed the Surveyor to make the necessary repairs.

Robert Fields opened the hearing on the maintenance fund for the John Blickenstaff ditch by asking the Surveyor to make his recommendations and to read his report. Mr. Martin complied and explained the need to call a new hearing. The amount of \$0.10 per acre assessment as is now collected for the John Blickenstaff ditch is inadequate and with present expenses being as much as they are he felt \$1.00 per acre was necessary.

Those in attendance were: Charles Kennedy, Theodore Dieterle, Keith J. Barger, Byron Skinner, Edith Sheese and Rachel C. Skinner.

Keith Barger questioned whether the 1400 feet of tile ditch was a part of the Legal drain. He said he would like to see a legal description of the ditch to know just what their money would maintain. Byron Skinner and Edith Sheese had questioned their acreage assessed to this watershed. With the records so confusing the Board asked the Surveyor to go out, determine just what did drain into the ditch so that once and for all the legal description could be established.

Mr. Barger said that cement thrown into the roadside ditch at the bridge at 900S and 500E, east of the Theodore Dieterle farm caused much harm to the performance of this ditch. Mr. Osborn said he would have the Highway department look into this situation.

Many felt \$0.50 per acre would be enough but when faced with the amount of \$1,751.06 now due on this ditch thought the \$1.00 per acre assessment seemed more realistic. The SCS office had rebuilt a headwall plus repairs to the tile portion on Charles Kennedy and Marvin Hesler farms causing the indebtedness.

Upon motion of Robert Fields, seconded by William Vanderveen and made unanimous by Bruce Osborn the \$1.00 per acre assessment was established.

Order & Findings Upon the establishing of maintenance funds on the Ray Skinner and the John Blickenstaff ditches, and the Board signed the order and findings and the certificate of assessments.

## Certificate of Assessments

William Vanderveen motioned to adjourn. Robert Fields seconded and Bruce Osborn made it unanimous.

ATTEST:

Gladys Ridder  
Gladys Ridder, Executive Secretary

Robert Fields  
Robert Fields, Chairman

William Vanderveen  
William Vanderveen, Vice Chairman

Bruce Osborn  
Bruce Osborn, Board Member

The Tippecanoe County Drainage Board met in the County Council Room on September 1, 1976 at 9:00 a.m., with the following members present: William Vanderveen, Bruce Osborn, Fred Hoffman, Robert L. Martin and Gladys Ridder. Michael Spencer also sat in on the meeting.

Upon motion of Bruce Osborn and seconded by William Vanderveen the minutes of the July 19th, 1976 meeting Minutes were approved as read. Approved

Since the establishment of a maintenance fund on two ditches, namely the Ray Skinner and the Anson-Delphine, it has been brought to the attention of the surveyor that an error exists in those watersheds. Upon examination of same the surveyor recommended to the Board the following corrections:

On Anson-Delphine	PT SE SEC 17 TWP 24 R 4 40Acres PT SE SEC 17 TWP 24 R 4 40Acres	40Acres Assessed 6.05Acres Assessed	change to:	
				Acreage Changes
On Ray Skinner	Chizum's S.D. Block 3 Lots 1 thru 12 Chizum's S.D. Block 3 Take out all 12 lots (They now go into Moses Baker ditch)		change to:	

With the surveyor's recommendation, the Board moved to correct where necessary and the Attorney instructed the Secretary to notify all in the watershed of both ditches these corrections.

William Vanderveen, serving as chairman in the absence of Robert Fields, opened the hearing on the reconstruction of the Waddell Branch of the Jesse B. Anderson ditch. He asked the surveyor for his comments and the surveyor said he honestly felt it shouldn't be built. Then he asked Mr. Waddell how he felt about the design of the ditch and Mr. Waddell said he could not approve the plan as it is drawn for the plans now stop the tile at the road and that would not do him any good at all. He was also very unhappy with the benefits and damages figures for he was charged with 65% of the total cost and E. Eugene Johnson the other 35%. He also said he felt J. L. Hodgen should surely benefit on at least 20 acres. Mr. Hodgen had written the following letter of disapproval: Waddell Br. of

Tippecanoe County Drainage Board  
Dear Sirs:

Clarks Hill, Indiana  
Aug. 5, 1976

J. B. Anderson  
ditch

In regard to the Waddell Branch of the J. B. Anderson Ditch.

I am opposed to the reconstruction of said ditch as it is now drawn up. Would like to make a suggestion for a grass waterway all the way to the open ditch on Mr. Anglin -North of Highway 28.

I believe the tile ditch where Mr. Waddell wants to hook up has more than it can handle now.

Sincerely yours,  
J. L. Hodgen

REGULAR MEETING OF THE TIPPECANOE COUNTY DRAINAGE BOARD HELD SEPTEMBER 1, 1976 (Continued)

In attendance were: Arthur Waddell, William Waddell and Eugene Johnson. The arguments became rather heated and after some time Mr. Osborn ask the Waddells to meet again with just the Board on Friday, September 10, 1976 at 9:00 a.m., when they could discuss the problem privately. Mr. Waddell said he did not want the SCS office when it was suggested to bring them into the case.

\*\*\*\*\*  
John Fisher, Joseph Bumbleburg, and Lynn Treece appeared before the Board to get their approval on the drainage in Treece Meadows Section 2 Part 1. The Area Plan will not give final approval on this section until the drainage has the approval of the surveyor and the Board.

Mr. Osborn said he felt the Board had been most patient, for it has been almost two years since the first hearing on the Treece Meadows Legal Drain and it still isn't completed. This magnifies their calls with many complaints as to the problems out there that never would have existed if the drain had have been completed as it should have been.

Treece Meadows drain

Mr. Fisher said he knew this was truly a trial run for all involved for it was the first Urban Drain to ask for a maintenance fund and that he was sure all had learned much and profitted from those mistakes. Mr. Osborn said the next time someone came before this Board asking for an urban drain be accepted before it was completed they would find it difficult to get an affirmative answer.

Because the situation is as it is and because they need to sell the lots to finish paying for the construction of the drain, the Board will consider an approval. Mr. Osborn said he would not do so, however, without the President of this Board being present. Mr. Osborn told Mr. Treece his answer would be given to him on Friday of this week.

Mr. Fisher said Davis Construction will re-shape, place in new pipe and have the drain completed by fall. Someone asked if a performance bond, that Davis no doubt has, would cover the drain and Mr. Bumbleburg said it did not.

Mr. Vanderveen said he felt the Board had a pretty good size club to use in case the promises of finishing the drain are not kept, for when they come before the Board again seeking approval for another Section, the Board would surely turn them down.

J & J Wilson drain

Mr. Charles Redmon had asked the Board to be put on the agenda for 10:00 a.m. He did not show.

The maintenance hearing on the "Buck Creek Open Drain" was opened by the Acting Chairman, Mr. Wm Vanderveen. He asked the surveyor for a report on his findings as to the condition of this ditch and his recommendations as to what needs to be done in the future to keep it in good repair. Mr. Martin said he had walked the ditch and found parts of it in good condition with the banks most clean, but other parts in need of willows, etc., be removed. He said he also noted in places much silt had washed into the ditch.

Those in attendance were: George DeLong, Carl Wise, Charles Campbell, Fred Wise, Robert Wise, Francis Humberger, Dwayne Ward, John B. McCormick, John Wesley Sheppard, Carol Felix, Melvin Miller, Orville Shultheis, Russell Rinehart, D. O. Rinehart, Charles Skiles, Carol Flora, Paul Humberd, Kelly Day, Cable Ball and Jim Murtaugh.

Mr. Vanderveen read a petition that had been filed on August 26, 1976 in the surveyor's office against establishing a maintenance fund. There were twenty names on the petition and all of them living in Carroll County. Kelly Day asked the extent of maintenance to be done for he said he felt sure that his current sprays would be discontinued and taken off the market.

Mr. Mullin asked why a blanket charge of \$1.00 per acre was set when he had to handle the water from the upper end and yet his per acre basis was the same. The surveyor and the county attorney explained why they both felt this was the best and fairest way to assess a ditch. A constant argument of who really benefitted or were damaged most would ensue if the assessments were based on that method of assessing. All felt there was no completely fair way but at least this affected the majority equally.

Kelly Day asked what he could do with his ditch and the attorney read parts of the drainage law stating no permanent structures could be placed on the easement and that the individual took his own risk in planting crops too close to the ditch.

After a question and answer period Mr. Vanderveen asked for a show of hands of those in favor of a maintenance fund for the ditch and only Kelly Day's hand showed. Mr. Vanderveen said if no more of those people in the watershed were interested in the ditch fund than that, the Board would dismiss the meeting and wait until they were interested. Mark Porter, County Commissioner from Carroll County, who served as the only member from their Board to this joint meeting, said in Carroll County, on his land, a ditch maintenance fund had been established and it had proven very helpful. He said, "whenever there's a broken tile, I call the surveyor's office and immediately it's taken care of." Then added "when drainage is so necessary to all farmers, I can't see why anyone would be against a maintenance fund."

Mr. Robert Shively then asked the Board if those in attendance who had signed the petition could have a recess and discuss it among themselves. Recess was permitted.

When the meeting resumed, Mr. Vanderveen asked what conclusions they had come to and who was the spokesman for the group. John McCormick said he would speak for them. He made a motion that they would accept a maintenance fund. Kelly Day seconded that motion. Then John said what they really would prefer was a reconstruction and then a maintenance fund. The county attorney said this hearing was called to either establish or not establish a maintenance fund and that was the only vote that could be counted at this hearing and that vote could only be made by the joint Boards. He said if all insisted on a reconstruction, then a new hearing would have to be called with all of the preparatory work of profiles, field work, cost of reconstruction, etc. As they talked among themselves most agreed it would be better to have some money to fix broken tile and clean banks than to wait however long it would take to get a reconstruction program going. Bob Shively asked the Chairman to ask for another show of hands and as Mr. Vanderveen asked who was in favor of establishing a maintenance fund, most of the hands went up in favor of the establishment of a fund. The group ask the Chairman to appoint a committee of three who would walk the ditch once a year and report back to the two surveyors when there was a need for maintenance.

Mr. Vanderveen then appointed Mr. John McCormick, Mr. Robert Shively and Kelly Day to serve on that committee. Mr. Shively asked the attorney if his neighbor does not maintain his tile (private) how to force him to do so. The attorney said as long as it was on his own property the Drainage Board could not interfere and the only answer would be to sue him. The attorney said the surveyor can not make him put in new tiles but if the outlet pipe that goes directly into the legal drain needs repair, the surveyor would consider it maintenance and repair it.

The question of how and who would handle the money collected arose. The attorney answered that in a joint effort such as this, Carroll County would collect, administer their own collections and repairs and Tippecanoe County would do the same. If at any time there is a need for joint repairs the two Boards would get together and make the necessary decisions.

With most of the problems ironed out, Mr. Vanderveen moved to establish a \$1.00 per acre maintenance fund and Mr. Osborn seconded the motion.

With the establishment of a maintenance fund of \$1.00 per acre on the Buck Creek Open Drain the Board signed the Order and Findings and the Certificate of Assessments.

Mr. Norbert Korty had asked for time to come before the Board and bring a petition to have the Kepner Storm Drain made into a legal drain. Those in attendance were: Jim Murtaugh, Norbert Korty, Paul Hammon, Cable Ball, and James Shook. Because Mr. Korty did not have the petition, there was nothing for the Board to act upon.

REGULAR MEETING OF THE TIPPECANOE COUNTY DRAINAGE BOARD HELD SEPTEMBER 1, 1976 (Continued)

With all of the business at hand attended to, Mr. Bruce Osborn moved to adjourn. The motion was seconded by William Vanderveen.

ATTEST:

*Gladys Ridder*  
Gladys Ridder, Exec. Secretary

/absent/

Robert F. Fields, Chairman

*William Vanderveen*

William Vanderveen, Vice Chairman

*Bruce Osborn*

Bruce V. Osborn, Board Member

Mark Porter, Carroll Board Member  
Serving on Buck Creek Open Ditch Hearing

The regular meeting of the Tippecanoe County Drainage Board was held October 6, 1976 at 9:00 a.m., in the County Council Room with the following members present: Robert F. Fields, Bruce Osborn, William Vanderveen, Robert L. Martin, Fred Hoffman and Gladys Ridder.

Minutes

Upon reading of the minutes of the September 1st and September 10, 1976 meetings, a motion was made by Bruce Osborn seconded by William Vanderveen and made unanimous by Robert Fields to accept those minutes as read.

Mr. Richard Donahue, Attorney for Robert Gurnick, came before the Board to report that his client had as yet no relief from a water problem that he felt the Drainage Board should take care of. He said the Drainage Board had assessed Mr. Gurnick for maintenance on the S. W. Elliott ditch but that Mr. Gurnick's water could not get to the ditch. Mr. Osborn questioned Mr. Donahue as to whether Mr. Gurnick's problem was

R. Donahue for R. Gurnick

120

MEETING OF OCTOBER 6, 1976 CONTINUED

the result of the Elliott ditch not functioning properly or was it surface water that could not get to the Elliott ditch because of an obstruction created by a neighbor of Mr. Gurnick's. It was pretty well established that I. M. House had created a dam which constricted the flow of the water towards its natural waterway creating the problem. Mr. Hoffman said the drainage board had no jurisdiction if this were the case. To insure all present that those are the facts, the Board suggested that our surveyor go to the scene and make a determination as to whether the S. W. Elliott ditch was plugged anywhere and if there were broken tile in the Elliott ditch to make necessary repairs but if the problem was not the Elliott ditch's failure to perform then theirs was a legal problem and would have to be handled in the courts. Mr. Gurnick said all of those people south of State Road 38 were in trouble. Namely Kenny Biery, Neal Dexter Stu Fisher, Mary May, Robert Gurnick, and Ed Anderson. Mr. Donahue presented a letter from the State stating their position on the problem.

Donahue for Gurnick

There were acreage changes suggested by the county surveyor on the Ray Skinner ditch and the Anson Delphine ditch. Both changes were explained and the fact that all of the property owners in the watershed area of these two ditches was noted. No one appeared on either ditch. The Board so moved to accept the change in the watershed as proposed by the surveyor.

Mr. Fred Montague of the Scholer Firm appeared before the Board to explain the drainage system proposed for the Indiana Employment Security Division. He said there was no legal drain affected other than the water eventually gets to the Elliott ditch and his sole purpose for attending this meeting was to show the Drainage Board that the design was not to increase the load on Elliott ditch. Mr. Fields said the Board surely appreciated that fact but that he felt Mr. Montague should take this drawing to the City Engineer. Mr. Montague said when the Imperial Equipment Company built in this locale, John Fisher had come before the Board and he had a letter of approval from Dan Ruth to that effect so he felt he should do the same.

A call from Mr. Fink to the county surveyor complaining about new tile that Lewis Beeler had just laid in his field was brought to the attention of the Drainage Board. Because this was a complaint on a private drain the attorney told the Board that they had no jurisdiction over this problem. The Board then asked the surveyor if he would go out and check all of the facts and bring them back to this Board.

With all of the business at hand attended to, Mr. Bruce Osborn moved to adjourn. That motion was seconded by William Vanderveen and made unanimous by Robert Fields.

Wetherill-Darby Drain

The Joint Tippecanoe-Benton County Drainage Board met on Tuesday, June 16, 1981, at 10:30 a.m. in the Commissioners Room of the Benton County Court House. Present were Norman Skoog and Gary Gutheridge of Benton County. Due to conflicting meetings, Sue Reser and William Vanderveen of Tippecanoe County were unable to attend. Chairman Skoog set the next meeting for Tuesday, June 30, 1981 at 1:00 p.m. at the same place and adjourned the meeting.

September 2, 1987 Regular Drainage Board Meeting

TIPPECANOE COUNTY DRAINAGE BOARD MEETING  
September 2, 1987

The Tippecanoe County Drainage Board met Wednesday, September 2, 1987 at 8:30 A.M. in the Commissioners Meeting room in the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana 47901.

Chairman Bruce V. Osborn called the meeting to order with the following being present: Eugene R. Moore Board Member, Michael J. Spencer Surveyor, and Maralyn D. Turner Executive Secretary, others present are on file.

SHERWOOD FOREST PART III

Robert Grove engineer, representing Charles Sherwood developer presented Preliminary Plans, but stated they were withdrawing their request for Preliminary approval. There has been concern by the property owners, the developer has ask to hold off another month. There is 220 Acres that comes down through the existing channel, however Mr. Grove does not believe all the 220 acres comes into the area, this is the concern of the property owners. Originally they had planned to build their basin in the low area which is across the channel, therefore they will be submitting a second set of plans.

SHERWOOD  
FOREST  
PART III

Tom Jordan property owner had concern as he is adjacent to the Subdivision in a low area. He had an engineer take a brief look at it and his concern is the elevation of 4 feet of the first three lots, these lots would deem uncontrollable drainage. He stated if you stood in his back yard and looked uphill these 3 lots would put him in a fishbowl. Question. Has any study been done in regards to this. Mr. Grove answered NO. They are looking at raising 3 feet against road. Mr. Jones stressed again his concern of the cost and the retention area and he wants to be sure that the plans to be resubmitted be correct. Bruce V. Osborn ask Mr. Grove to sit down with Mr. Jordan and discuss his many concerns before submitting new plans to the board, Mr. Grove agreed to do this. Maintenance on original subdivision is maintained by the property owners. Board doesn't want to inherit maintenance.

P.S. LAND

Robert Grove engineer representing the owner Lafayette Bank and Trust Company and Charles Vaughan presented drainage plans. Property is located South of 26 East at Farrington Avenue in the northwest corner east of Eastland Subdivision consisting of 3.2 acres. The bank is planning to build a branch bank at the location. Developer doesn't want to cause any problems. Interim detention basin along road tying into existing storm sewer. Not sure what will happen to land south of the bank site. Discharge will be less in predeveloped area. Question of who will maintain. It is private property, therefore it would be maintained by the landowners. Michael Spencer ask Mr. Charles V. Vaughan to check with his father in regards to maintenance. Michael Spencer stated that the basin is located within the Public Service, Inc. easement and he would like a letter from PSI. Mr. Grove stated PSI has some new rules in regards to encroachment permits and he has contacted them in regards to this development. Jim Hilligass representative of Lafayette Bank and Trust Company stated they have increased the depth to 300' which changes the acreage from the 2.26 to 3.2 acres. Mr. Hilligass ask if Farrington Apts were maintaining the drainage system at the 10 inch line. The 10 inch is sanitary. The lower end of the Farrington drainage system is not County drainage maintenance. Eugene R. Moore moved to give preliminary approval with two conditions that a letter from the property owners be submitted in regards to maintenance and a letter from PSI in regards to the easement, seconded by Bruce V. Osborn, unanimous approval was given.

P.S. LAND

TIMBER RAPIDS CAMP RESORT

Harry Meshberger presented construction plans for the site located in Perry Township, A part of the NW quarter of Section 28, Twp 23 North Rge 3 West consisting of 18.5 acres. Property does not involve any legal drain only has a small swale and will require grading. Previous owner has taken out gravel this is reason for swale. They are seeking to bring gravel back in and force water out through culvert. One culvert will be removed and water will be rerouted. They show a proposed lake 1/2 acre in diameter. They may dig it and may not so that they will have fill, however, if they get fill from another location they will not dig the lake. Idea is to get land level and to get it to elevation so Department of Natural Resources will say they can use it for campsite. Michael Spencer ask if they had to get permission from the Department of Natural Resources to fill? If it is in the flood way the developer has to have Department of Natural Resources approval, he has approached them. The property is at the floodway fringe. Department of Natural Resources has not completed their review of the proposed plans, just verbally. This is an overnight camping. Maximum stay is 15 days, sale of membership, people will have an interest in the site. Mr. Osborn ask how they were going to handle sewage? This will be handled by a septic system. They have contacted State Board of Health in regards to their requirements. Michael Spencer stated he had looked at the runoff, they are 40' from the creek, the only hard surface that will be generated will be a pool as there is an existing home which they are going to use for an office. Michael suggested that detention storage requirements be waived for this development.

Eugene R. Moore moved to waive the required drainage ordinance for the holding pond for this development, seconded by Bruce V. Osborn, unanimous approval was given.

WATERFORD COURT

Glen Christian and Paul D. Green of Sexton Company Indianapolis submitted a letter to the board in answer to Michael Spencer's letter in regards to drainage ordinance. Mr. Christian read letter in answer to the seven item Mr Spencer had questions. Property is located at Highway 26 East and I-65 along Frontage Road. Consists of 25.24 acrs. One Lot with 310 Units, the one lot will connect to an existing 12-inch City of Lafayette sanitary sewer located at the east side of Vermont Drive. Storm water runoff shall be routed to proposed lakes on site. Mr. Christian read letter.

WATERFORD  
COURT

September 2, 1987 Drainage Board Meeting Continued Waterford Court

WATERFORD  
COURT  
CONTINUEDAttn: Mr. Mike Spencer  
Re: Waterford Court Apartments

Dear Mr. Spencer:

In order to clearly define the application of the Tippecanoe County Drainage Ordinance No. 81-16 to Waterford Court, I have briefly described each of the items (7) under Section 14h of the ordinance.

- Item (1) - The lakes of Waterford Court are to be 8 feet deep with over 25% of the area being 10 feet deep as shown on the Plans.
- Item (2) - The excavated side slopes above and below the water pool elevation will be 3:1. These should be quite stable slopes as recommended by the soils report by Alt & Witzig (copy attached).
- Item (3) - Safety ledges, 4 feet in width, 12 inches above and 30 inches below the normal pool elevation shall be constructed as shown on the typical cross-sections of the lake. The slopes between the ledges shall be 3:1 and shall be riprapped to prevent erosion.
- Item (4) - A safety slope of 6:1 is proved at the east end of Waterford Court on the north side on the Clubhouse. The slope will be protected with rip rap above and below the water line.
- Item (5) - All of the Sexton Apartment Communities heavily involve lakes and water. The 6000 plus units owned and managed by Sexton include over 40 lakes and ponds ranging in size from about ½ acre to over 12 acres. Maintenance and esthetics go hand in hand as fifteen year old complexes are still looking great. Attractive, well maintained lakes and grounds are what keeps our communities full. When necessary, wells are drilled to fill and maintain the level of the lakes. Sexton's water management program has a long-term, highly successful history.
- Item (6) - Access to the lakes for maintenance and emergency use is readily available between buildings and at the ends of the streets. Behind all buildings and patios is a 3 foot concrete walk with a usable 3:1 or flatter slope to the water lines. Of course, vehicle access is available in Waterford Court by the Clubhouse.
- Item (7) - Aeration facilities are provided on all Sexton Community Lakes in the form of fountains, spillways and waterfalls. Waterford will have at least 2 fountains with recirculating pumps. A well is planned to provide water to maintain the water level in the lakes. Fountain design specifications are available from the manufacturer and will be secured by Sexton if requested. If you need any additional information, Please let me know.

Sincerely,

Glenn E. Christian  
cc: Curtis C. Huff  
John E. Fisher

Michael Spencer ask: Outfall main structure, is it at the point of spill over there is a 4" overflow can they increase?

Bruce V. Osborn ask where they were outletting? Outletting straight east through an existing low place on a residential lot, it isn't in any platted drainage easement through a 36" pipe under Vermont Drive. They have been requested to get with Dick Leill, and speak with the property owner of Lot 4 as he will not have any more water than he has now it will continue longer. The developer was aware of the problem. Several things can be done with the area. Whatever they do will not be within the drainage easement as amount of water. They will have wells on the area to maintain the level of the lakes, if needed. Maintenance will be by Waterford. Development is ½ mile from Wildcat, there is no legal drain. Dick Leill has talked with the property owner of Lot 4, a meeting was held with the landowners in regards to the development. Michael Spencer recommended approval of preliminary plans, however he would like to speak with the Lot owner himself and would like for the board to look at the outlet of the 36 inch pipe. The rate won't be greater, but the volume will. There is erosion problem. Michael would like to see that fixed. The seven items were out of the drainage ordinance and he had ask the developer to address all seven items.

John Fisher ask if a special meeting could be held to get final approval. Bruce Osborn stated when Michael Spencer is satisfied, then a Special meeting can be set.

Eugene R. Moore moved to approve the preliminary plans of Waterford Court as presented, seconded by Bruce V. Osborn, unanimous approval given.

JAMES COLE ELEMENTERY SCHOOLJAMES  
COLE  
ELEMENTERY

Mike McCarroll Pace Design presented sanitary revision plans, with the septic system on the south side of side close to county road. System will be a mound system crossing county drain line with Two 6 inch lines that feeds the mound system. Around the perimeter of the mound system will be a perimeter drain tile to pick up surface water. Like to tie it into the county drain line. They would be a 4' below grade. Michel would like to see a manhole so that the water can be inspected. Propose to add a 2' manhole. Mr. Osborn ask how far from inlet? 25 feet with the system. Septic field - 38' 6" on the low side. Herb Lawson Health Department sanitarian ask what kind of tile would be used going under the country ditch. Perimeter drain tile, it will be 6" pvc solid pipe. The board ask that Michael Spencer be there when they cross the legal drain. Mr. McCarroll stated they have a preconstruction meeting scheduled for Spetember 9, 1987, Michael Spencer will attend. Bruce V. Osborn ask if a waiver was needed, answer yes, this is reason for having Mr. McCarroll here today to give the waiver of crossing the drain and hook perimeter drain back in. Question was ask does the board need to notify the other landowners? State released plan with 20' and County requirements are 25' even if it's on high side. Ron Noles stated in order to meet County Ordinance they have to meet the 25'. Under advisement the board will decide whether other landowners should be notified. Mr. McCarroll stated they have another option of putting in a headwall and not tying into county tile. There could be a problem even though it is not to be sewage. Eugene R. Moore moved to grant a waiver for Tippecanoe School Corporation to cross the legal drain easement of Skinner ditch, seconded by Bruce V. Osborn, unanimous approval. Michael Spencer ask that the revised plans be presented to the Health department. After much discussion possibly the best way to go would be with a headwall, empty on own site doing this they would have to still meet the 25" requirement.

September 2, 1987 Meeting Continued

ELLIOTT DITCH

ELLIOTT  
DITCH

Michael Spencer received a letter from Louis Pearlman in regards to Elliott Ditch easement. Town of Dayton purchased a 20' easement back in 1978, this was south of top edge within the 75' easement. In the letter they are requesting reduction in the easement along the Elliott ditch from 75' to 47½' which would be at the edge of Town of Dayton's easement. After much discussion it was decided to take this under advisement.

CLOVERLEAF

CLOVERLEAF  
BRANCH#  
11ELLIOTT  
DITCH

A letter received from David B.H. Best R.L.S. Vice President of Cloverleaf Enterprises requesting to reroute a portion of Branch#11 of the Elliott Ditch, the rerouting would be right down the power line easement. They want to reduce easement from 150' to 50' along 12" tile. Michaels question was would PSI let this be done. After much discussion it was decided to take this under advisement.

DRAINAGE ENGINEER

DRAINAGE  
ENGINEER

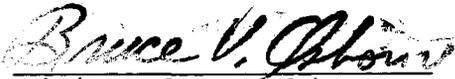

Eugene R. Moore moved to appoint Mark Houck as Drainage Engineer, seconded by Bruce V. Osborn, unanimous approval.

INDIANA GAS -ELLIOTT DITCH

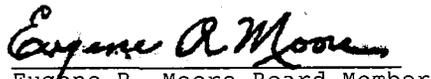

ELLIOTT  
DITCH  
INDIANA  
GAS

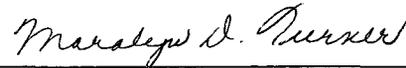

Indiana Gas requested to cross Elliott ditch easement on the SIA gas main. Eugene R. Moore moved to approve the crossing of drain easement providing Indiana Gas supply the board with Certificate of As-Built drawings showing location of gas main and they have inspector certify that all tile whether County or Private have been repaired, seconded by Bruce V. Osborn, unanimous approval.

There being no further business the meeting adjourned at 9:45 A.M.

TIPPECANOE COUNTY DRAINAGE BOARD  
WEDNESDAY, JANUARY 6, 1988

The Tippecanoe County Drainage Board met Wednesday, January 6, 1988 in the Community Meeting Room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana 47901.

Chairman Bruce Osborn called the meeting to order at 8:30 A.M. with the following being present: Eugene R. Moore and Sue W. Scholer Boardmembers, Michael J. Spencer Surveyor, Mark Houck Drainage Consultant, J. Frederick Hoffman Drainage Attorney, and Maralyn D. Turner Executive Secretary. Others present are on file.

This being the first meeting of the year Chairman Osborn ask Mr. Hoffman to preside over the meeting to conduct the election of officers.

Mr. Hoffman asked for nominations for Chairman, Sue W. Scholer nominated Bruce V. Osborn Chairman, seconded by Eugene R. Moore, there being no other nominations Mr. Osborn was elected Chairman of the Board.

Mr. Hoffman asked for nominations for Vice-Chairman, Sue W. Scholer nominated Eugene R. Moore, seconded by Bruce V. Osborn, there being no further nominations Eugene R. Moore was elected Vice-Chairman of the Board.

Sue W. Scholer moved to appoint J. Frederick Hoffman Drainage Board Attorney, seconded by Eugene R. Moore, unanimous approval.

The Board had agreed to have Mark Houck as Drainage Board Consultant.

Sue W. Scholer moved to appoint Maralyn D. Turner as the Executive Secretary of the Drainage Board, seconded by Eugene R. Moore, unanimous approval.

Mr. Hoffman read the Active Ditches for the year of 1988.  
E.W. Andrews, Julius Berlovitz, Herman Beutler, Michael Binder, John Blickenstaff, M.W. Box, A. P. Brown, Buck Creek (Carroll County) Train Coe, County Farm, Darby Wetherhill (Benton County), Christ Fassnacht, Marion Dunkin, Christ Fassnacht, Issac Gowen (White County) Martin Gray, Thomas Haywood, E.F. Haywood, Harrison Meadows, Lewis Jakes, Jenkins, James Kellerman, Frank Kirkpatrick, John A. Kuhns, Mary McKinney, Wesley Mahin, Samuel Marsh (Montgomery County) F.E. Morin, Hester Motsinger, Audley Oshier, Emmett Raymon (White County) a letter of January 5, 1988 is on file from White County requesting ditch be active, Arthur Rickerd, Abe Smith, Gustavel Swanson, Treece Meadows, Wilson-Nixon (Fountain County) Simeon Yeager, S.W. Elliott, Dismal Creek, and Shawnee Creek.

Ditches which have been inactive and need to be made active are Jesse Anderson, Dempsey Baker, Floyd Coe, Shawnee Creek.

Inactive ditches John Amstutz, Delphine Anson, Newell Baker, Nellie Ball, A.P. Brown, Alfred Burkhalter, Orrin Byers, Grant Cole, J.A. Crips, Chas Daughtery, Fannie Devault, Jess Dickens, Thomas Ellis, Martin V. Erwin, Elijah Fugate, Rebecca Grimes, Fred Hafner, E.F. Haywood, George Ilgenfritz, George Inskeep, Eugene Johnson, F.S. Kerschner, Amanda Kirkpatrick, James Kirkpatrick, Calvin Lesley, John McCoy, John McFarland, Absalm Miller, Ann Montgomery, J. Kelly O'Neal, Lane Parker, James Parlon, Calvin Peters, Franklin Resor, Peter Rettereth, Alexander Ross, James Sheperdson, John Saltzman, Ray Skinner, Joseph C. Starrett, Wm A. Stewart, Alonzo Taylor, Jacob Taylor, John Toohay, John VanNatta, Harrison Wallace, Sussana Walters, William Walters, McDill Waples, J&J Wilson, Franklin Yoe.

Luther Lucas ditch is made inactive and to be combined into the Dismal Creek ditch.

Mr. Osborn asked if first and second alternates could be appointed to be representatives for Tri-County ditches? Mr. Hoffman advised the board to go ahead and appoint them, if this isn't proper action can be taken later. The following representative and alternates were appointed for the following ditches.

Hoffman ditch, Eugene R. Moore, Sue W. Scholer was appointed first alternate and Bruce V. Osborn second alternate.

McLaughlin ditch, Bruce Osborn, Eugene R. Moore first alternate, and second alternate Sue W. Scholer.

Michael stated he had received a letter from Benton County in regards to the Darby Wetherhill ditch and he asked the board to appoint a representative and alternates for this ditch.  
Sue W. Scholer is representative, first alternate Eugene R. Moore, second alternate Bruce V. Osborn.

Otterbein Ditch representative will be Sue W. Scholer, first alternate Eugene R. Moore, second alternate Bruce V. Osborn.

Michael asked that the Secretary send letters to each county informing them of the appointments.

Michael Spencer presented a Petition received from Purdue Research Foundation to vacate a portion of the Dempsey Baker Ditch lying south of the north right-of way line of County Road 350 North and lying in the east half of the southeast quarter, Section 1, Township 23 North, Rge 5 West, and the North 50 acres more or less of the West half of

## January 6, 1988 Drainage Board Meeting Continued

the south west quarter, Section 6, Township 23 North, Range 4 West, all in Wabash Township, Tippecanoe County, Indiana.

Michael stated a hearing date would have to be set when assessment list is received.

Bruce Osborn asked where they were going with the water? Michael stated he felt it was through holding ponds then metered out to the same place it has always gone, Hadley Lake.

Bruce Osborn stated the board has never vacated a portion where it still drains through the existing legal drain. Mr. Hoffman answered no, if they are going to use the drain they can't vacate, if they are not going to use it then it can be vacated. Mr. Hoffman stated there would be a question of taking them out of the Watershed in regards to assessments. They will still have to pay their assessment as they are remaining in the watershed, the Purdue Research should be notified of this. If this is for the upper end this will help. Mark Houck stated there is a problem of metering at the same rate, but it will increase the volume of water going to Hadley Lake. They will have to meet the ordinance.

Many questions need to be answered before action is taken.

## VALLEY FORGE

Valley Forge

Michael J. Spencer informed the board that a letter of Credit for \$62,000.00 to cover half the cost of installation of the permanent drainage system, this was through Tippecanoe Development Corporation. Roy Prock is new owner of Valley Forge he wants to substitute a new \$62,000.00 letter of credit for the other one since he is the new owner. Michael has talked with Mr. Hoffman there will be no problem to do this, accept the construction bond needs to be secured for deposit for Mr. Prock just like originally had been presented by Tippecanoe Development Corporation before the old one can be released and except new one from Mr. Prock. Mr. Hoffman stated they will have to present an agreement along with the Letter of Credit then the other can be released.

## MEETING TIME CHANGE

Eugene Moore moved to change meeting time of the Drainage Board from 8:30 A.M. to 9:00 A.M., seconded by Sue W. Scholer, motion carried.

## JOHN HOFFMAN DITCH

JOHN HOFFMAN DITCH

Bruce Osborn called the meeting to order at 9:15 A.M.

Tri-County Board representatives are Eugene R. Moore Tippecanoe County, William Lucas Clinton County, and Charles Sutton Carroll County.

Mr. Hoffman conducted election of officers.

William Lucas nominated Eugene R. Moore as Chairman, seconded by Charles Sutton, there being no other nominations Eugene Moore was elected Chairman.

Eugene R. Moore nominated William Lucas as Vice-Chairman, seconded by Charles Sutton, there being no other nominations William Lucas was elected Vice-Chairman.

Eugene R. Moore nominated Maralyn D. Turner as Secretary, seconded by Charles Sutton, there being no other nominations Maralyn D. Turner was elected Secretary.

Mr. Hoffman was chosen to serve as the Attorney for the board when the board was first formed, he will continue to serve.

Mr. Osborn thanked the property owners for coming to this informal meeting. He informed them that nothing would be decided officially, it is an opportunity for the property owner to see what has happened up to this time.

After Michael J. Spencer presents the project questions may be asked.

Michael J. Spencer, surveyor introduced those present Maralyn D. Turner, Secretary, J. Frederick Hoffman Attorney, Sue W. Scholer, Bruce V. Osborn, and Eugene R. Moore Tippecanoe County Commissioners, William Lucas Clinton County Commissioner and Neal Conner Clinton County Surveyor, Grover West Carroll County Surveyor, and Charles Sutton Carroll County Commissioners, and Mark Houck Tippecanoe County Drainage Consultant.

Mr. Spencer presented Construction Estimates in Phases I, Alternate I, Alternate II, Alternate III, and Alternate IV, and Phase II. This estimate was done by Robert Gross engineer with Stewart Kline and Associates.

Mr. Spencer asked for questions.

Bob Power asked if there was tile in there at the present time? Answer yes, Phase I the tile would come out. Alternate I would be to dig the tile out approximately 6" below the existing tile, under Alternate II lowering it 4'. This is to gain grade. The area being discussed on the ditch is at 900 E.

Lola Harner asked how are you digging 4' and stopping at 900 East wouldn't you have to continue on west? Michael answered they would have to continue west of 900 East, this wouldn't be to far west as the ravine system drops off.

Mr. Power asked if a bridge would have to be put across 900 East? Michael stated they

felt the culvert was the right size and would carry the water, it is just too high.

Mr. Power asked if a tile could be put in without tearing up the road? Michael stated he did not think this could be done without tearing up the road.

Mr. Moore asked how many acres in the watershed? Total acres 2420. There may be a difference of 80 acres, this would be checked.

Mr. Power asked how much is coming out of maintenance fund? There is no maintenance fund on the ditch at this time, if a tile hole breaks it is up to the landowner to do the repairs.

Jesse Barr asked would the soil change? Answer the dirt will not be changed, just better drainage. Mr. Barr asked if the ditch was going to be the same size at 1025 East. Answer at the road 1025 108" round pipe, two 72" round pipe, two 84" and at 900 East 14'10" X 9'1" structural plate pipe arch.

Neal Dexter asked how much water will come down into Coffee Run ditch. Michael stated the same amount of water would be coming down. Mrs. Harner and Mr. Dexter were concerned about the erosion and damage.

Mr. Hoffman asked if there was a positive outlet. Answer it goes into a ravine system that eventually gets to the Wildcat creek. Mr. Hoffman asked how far from the end of the legal drain to the Wildcat. Answer give or take one and half to two miles.

LaVonne Scheffee had concern of gravel and the culvert being closed shut. Michael stated this is the reason he has pointed out the culvert sizes at the different road crossings.

Elwood Burkle asked that the cost be discussed. Mr. Spencer pointed out that the last page of the estimate summarizes the cost.

Mr. Spencer explained the Indiana Drainage Codes to the landowners. The decision is made by the property owners.

Mr. Barr asked who is responsible for drainage on property? County is responsible for the road crossings, property owners is responsible for drainage on their own property.

Elwood Burkle asked what depth would tile be? Answer some of the cuts would be 10-11 feet deep from the existing ground. Banks would be a lot higher than they are now. Michael stated at 900 East 1/4 mile east it is 5 feet below the bottom of the existing water way.

Mr. Hoffman stated the property owners should consider extending the legal drain down to the Wildcat to maintain the valleys, as there is problems if you don't have a positive outlet especially one with this size. There is no control over the valleys as it is now. He felt this would not add that much to the cost.

Jerry Frey stated he is constantly fixing blow holes. It is getting continuously worse. They are finding that the tiles are shifting. He feels the major problem is at the outlet. It has been severely neglected. There are tree roots and tiles that have floated up out of the system. He feels the first thing to do would be fixing and opening up the outlet.

Mr. Power asked in the estimate has consideration been taken in the area west of 900 East? No. Mr. Power felt this would be essential. Michael answered until a legal drain is extended down that way they can't do anything with it, they can do some corrective measures directly downstream from the road. He has to work with the starting and stopping points of the ditch, this is what he had to work with.

At this point Mr. Hoffman explained the procedures of making legal drain west of 900 East.

Malcomb Miller stated he agrees with Jerry Frey's statement. Mr. Miller's concern is the hardship the assessments would make for the property owners.

Jerry Frey stated they can't seem to hold the blow holes, each spring they are back and bigger holes. Mr. Frey doesn't know what causes this except another ditch was added about four years ago this makes more pressure from the upland it's coming down in such a velocity causing the problem.

Debbie Lineback asked what kind of time frame are you talking about as she carried petition in 1982. Mr. Hoffman stated it probably wouldn't take the time that he did previously.

Mr. Moore asked the feeling of the property owner.

LaVonne Scheffee asked if there was any rules in regards to health and sanitation? Thirty years ago when they purchased their property you couldn't jump over the ditch, now there is refrigerators and other debris making the ditch level. She doesn't understand why the farmer doesn't have to keep it cleaned out. She complained about the road grader grading gravel making a wall at the ditch.

Mr. Osborn stated the board is powerless in regards to debris in the ditches until there is a maintenance fund set up. Maintenance fund is needed.

## January 6, 1988 Drainage Board Meeting Continued

Jerry Frey asked who has authority? Mr. Hoffman explained the board is the authority.

Mr. Frey is for starting a legal drain with a maintenance fund, but he feels that the money should be brought forward to be spent on opening up the outlet and fixing the main tile. Try to get by with what they have with maintenance.

Malcomb Miller supports Mr. Frey's statement.

Mr. Moore asked Michael if a maintenance fund could be set up and just clean or does it come under reconstruction?

Michael stated they would be maintaining what there is now.

Mrs. Scheffee asked how this would help? Mr. Hoffman stated it would be taking the ditch back to it's original condition.

Mr. Lucas asked if there was an estimate for a maintenance clean out? NO. Michael felt it would just take a week to get an estimate put together. Mr. Lucas stated it would probably take two years to get a maintenance fund set up. Michael stated for a few years the fund could be set at a high figure and then lowered.

Debbie Lineback stated when she carried the petition around and 80-90% of the property owners stated it should be an open ditch, it never worked from day one.

Elwood Burkle stated that those living north and east of the Clinton and Carroll County line would receive no benefits by opening the bottom portion yet they would be paying for it. There are too many obstruction.

Dale Fossnock stated: His ancestors stated that when the ditch was put in, it never worked.

Glen Kelly stated there were six of them that worked on the ditch where the tile comes out. This was 30 years ago.

Mrs. Glen Kelly stated it cost her \$100.00 to get a petition in 1982 out of her pocket. She was informed that there is a standard petition form now and there would be no cost for the petition. Mrs. Kelly stated they have willows and to get rid of them the water has to be taken care of.

Glen Kelly stated there are two 6" raises in the ditch, one is on the Bogan property and the woods.

Question was asked was it constructed that way? Yes. When the ditch was built it was built by the people.

Michael stated the grade can be checked.

Mr. Barr would agree to keep the water going.

Mr. Scheffee stated when they first came to the area there were no problems he feels it has to be open all the way.

Mrs. Kelly stated they have two ponds on their property, water is over the road most of the time, getting out is a problem most of the time. Even when it was dry this summer it was wet.

Mrs. Harner stated this has been a problem for many years.

Mrs. Scheffee stated a lot of the problem was created when 900 East was reconstructed.

Grover West asked how many small acreages were in the watershed. His concern is the break down in lots and acreage.

Mrs. Harner stated the assessment doesn't seem fair.

Kenneth Walker stated there is peat in the area of the Ford property, reason for so much water in the area.

Neal Conner stated that it would be spring of 1989 to get a maintenance fund in to affect.

After much discussion Mr. Spencer asked for show of hands.

Phase I Alternate I, Phase II Dig Open ditch up to where the two branches come together and tile system. Approximate Cost \$200.00 acre. Vote 7.

Open Ditch all the way. Approximate Cost \$242.00 per acre. Vote 8.

Maintenance. Assessment per acre to be set possible classifications. Vote 5.

The vote going for an open ditch all the way Mr. Spencer will get estimates and hold another meeting to present findings to the property owners.

There being no further business the meeting adjourned at 10:30 A.M.

TIPPECANOE COUNTY DRAINAGE BOARD  
WEDNESDAY, JANUARY 4, 1989

The Tippecanoe County Drainage Board met in regular session Wednesday, January 4, 1989 at 9:00 A.M. in the Community Meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana.

The meeting was called to order by J. Frederick Hoffman, County Attorney for the reorganization of the Drainage Board for 1989. Those present were: Bruce V. Osborn, Eugene R. Moore, Sue W. Scholer, Michael J. Spencer, J. Frederick Hoffman, and Maralyn D. Turner, others in attendance are on file.

Mr. Hoffman asked for nominations for Chairman of the Board. Bruce V. Osborn nominated Eugene R. Moore as Chairman seconded by Sue W. Scholer, there being no further nominations Eugene was elected Chairman of the Board.

Mr. Hoffman asked the newly elected Chairman Eugene R. Moore to preside over the meeting.

Eugene Moore asked for nominations for Vice-Chairman, Bruce V. Osborn nominated Sue W. Scholer for Vice-Chairman, seconded by Eugene R. Moore, there being no further nominations Sue W. Scholer was elected Vice-Chairman.

Eugene R. Moore asked for nominations for Secretary, Bruce V. Osborn nominated Maralyn D. Turner as Secretary, seconded by Eugene R. Moore, no further nominations from the floor for secretary Maralyn D. Turner was elected.

Bruce V. Osborn moved to appoint J. Frederick Hoffman as Drainage Attorney for the year 1989, seconded by Sue W. Scholer, unanimous approval.

Mr. Hoffman read the Ditch Assessments for Active and Inactive ditches. The following ditches being Inactive for 1989 are: John Amstutz, Jesse Anderson, Dempsey Baker Newell Baker, Nellie Ball, A.P. Brown, Orrin Byers, Floyd Coe, Grant Cole, J.A. Cripe, Fannie DeVault, Jess Dickens, Martin V. Erwin, Elijah Fugate, Rebecca Grimes, Geo Ilgenfritz,

George Inskeep, Lewis Jakes, E.Eugene Johnson, F.S. Kerschner, Amanda Kirkpatrick, John A. Kuhns, Calvin Lesley, Luther Lucas, John McCoy, John McFarland, Absalm Miller, Ann Montgomery, J. Kelly O'Neal, Lane Parker, James Parlon, Calvin Peters, Franklin Resor, Peter Rettereth, Alexander Ross, James Sheperdson, John Saltzman, Ray Skinner, Joseph C. Sterrett, Wm. A. Stewart, Alonzo Taylor, Jacob Taylor, John Toohey, John VanNatta, Harrison Wallace, Sussana Walters, McDill Waples, Lena Wilder, J&J Wilson, Franklin Yoe.

The following ditches read are Active Ditches: E.W. Andrews, Delphine Anson, Juluis Berlovitz, Herman Beutler, Michael Binder, John Blickenstaff, N.W. Box, Buck Creek(Carroll County), Train Coe, County Farm, Darby Wetherill(Benton County), Marion Dunkin, Crist/Fassnacht, Issac Gowen(White County), Martin Gray, E. F. Haywood, Thomas Haywood, Harrison Meadows, Jenkins, James Kellerman, Frank Kirkpatrick, Mary McKinney, Wesley Mahin, Samuel Marsh(Montgomery County), Hester Motsinger, Aduley Oshier, Emmett Raymon(White County), Arthur Richerd, Abe Smith, Mary Southworth, Gustavel Swanson, Treece meadows, Wilson-Nixon(Fountain County), Simeon Yeager, S.W. Elliott, Dismal Creek, Shawnee Creek.

The following ditches read were made Active for 1989: Alfred Burkhalter(Clinton County), Charles Daugherty, Thomas Ellis, Fred Hafner, James Kirkpatrick, F. E. Morin, William Walters, and Kirkpatrick One. Michael Spencer wanted the Martin Gray to be included in the Active, it had been read as active, but for the records read in the Make Active. Sue W. Scholer moved to activate the ditches as read, seconded by Bruce V. Osborn, unanimous approval.

Alfred Burkhalter ditch joint with our County the Board secretary should send a letter to the Tippecanoe County Auditor and the Clinton County Auditor.

Michael stated in June 1987 a hearing was held to combine the Treece Meadows branch with S. W. Elliott ditch. These maintenance funds need to be combined and treated as the S.W. Elliott ditch. Sue W. Scholer moved to combine the maintenance funds on the Treece Meadows with the S. W. Elliott ditch treat them all as one, seconded by Bruce V. Osborn, unanimous approval.

J. Frederick Hoffman asked if the Treece Meadows was considered designated branch under the S. W. Elliott ditch? Michael answered it is; Treece Meadows has a beginning point and ending point.

Michael Spencer received a letter signed by two property owners, Malcomb Miller and Jerry Frey on the John Hoffman requesting that the board set up a maintenance fund. A hearing was held in 1988 for reconstruction, this did not go too well. Some were going to try to contact the downstream property owners to make it a legal drain all the way down to Coffee Run. Hearing nothing these property owners are requesting a maintenance fund.

Mr. Hoffman stated this is the ditch that does not have a positive outlet. Correct. They hope to make a positive outlet with the maintenance funds.

Michael will have to make a maintenance report before a hearing can be held. Discussion continued.

Jim Strother property owner 3876 Kensington Drive concerned about drainage of the Orchard Park Subdivision. Michael told Mr. Strother he had received Preliminary submittal that was requested from the engineer to supply with more information, but that

HOFFMAN  
DITCH

information has not been received. Michael will notify Mr. Strother when he receives the information and when the project comes before the board.

Sue W. Scholer asked Don Sooby, of the Lafayette City Engineer office where are we on McCarty Lane, is it progressing. Mr. Sooby stated a public hearing will be held January 26, 1989, no other meeting has been set up.

There being no further business the meeting adjourned at 9:25 A.M. Next meeting will be February 1, 1989.

TIPPECANOE COUNTY DRAINAGE BOARD  
REGULAR Meeting January 3, 1990

The TIPPECANOE County Drainage Board met Wednesday, January 3, 1990 in the Community Meeting room of the TIPPECANOE County Office Building 20 North Third Street, Lafayette, Indiana.

Those present were Bruce V. Osborn and Sue W. Scholer, Board Members; Michael J. Spencer, Surveyor; Todd Frauhiger, Drainage Consultant; J. Frederick Hoffman, Drainage Attorney; and Maralyn D. Turner, Executive Secretary, others present are on file.

The meeting was called to order at 9:00 a.m. by Drainage Attorney J. Frederick Hoffman. Mr. Hoffman stated that it is time for election of officers for a new year.

Bruce V. Osborn nominated Sue W. Scholer for chairman of the board, seconded by Sue W. Scholer, motion carried, there being no other nominations from the floor Sue was elected Chairman of the Board.

Sue W. Scholer chairman continued the meeting asking for nomination for Vice Chairman, Sue W. Scholer nominated Bruce V. Osborn as Vice-Chairman, seconded by Bruce, motion carried, there being no other nominations from the floor Bruce was elected Vice-Chairman.

Bruce V. Osborn nominated Maralyn D. Turner as Secretary, seconded by Sue W. Scholer, there being no other nominations from the floor Maralyn was elected Executive Secretary.

Bruce V. Osborn moved to accept J. Frederick Hoffman's continued services as Drainage Attorney for the year 1990, seconded by Sue W. Scholer, motion carried.

Michael J. Spencer recommended to continue the services of the Chris Burke Engineering, LTD as Drainage Engineer Consultant for the year 1990. Bruce V. Osborn moved to accept Michael's recommendation, seconded by Sue W. Scholer, motion carried.  
1990 DITCH ASSESSMENTS

Fred Hoffman read the following ditches to be made Active for assessments in May 1990. Jesse Anderson, A.P. Brown, Orrin Byers, John McFarland, Ann Montgomery, and the J. Kelly O'Neal.

Ditches that are In Active are: John Amstutz, Dempsey Baker, Nellie Ball, N.W. Box, Alfred Burkhalter, Floyd Coe, Grant, Cole, J. A. Cripe, Fannie Devault, Marion Dunkin, Jess Dickes, Martin V. Erwin, Crist/Fassnacht, Elijah Fugate, Rebecca Grimes, Harrison Meadows George Ilgenfritz, George Inskeep, Lewis Jakes, Jenkins, E. Eugene Johnson, F. S. Kerschmer, Amanda Kirkpatrick, James Kirkpatrick, John A. Kuhns, Calvin Lesley, John McCoy, Mary McKinney, Absalm Miller, Lane Parker, James Parlon, Calvin Peters, Franklin Resor, Peter Rettereth, Arthur Richard, Alexander Ross, James Shepherdson, John Saltzman, Ray Skinner, Joseph C. Sterrett, Wm A. Stewart, Alonzo Taylor, Jacob Taylor, John Toohey, John VanNatta, Harrison Wallace, Sussana Walters, McDill Waples, J. & J. Wilson, Franklin Yoe, and Shawnee Creek.

Ditches that are Active are: E. W. Andrews, Delphine Anson, Herman Beutler, Michael Binder, John Blickenstaff, Buck Creek (Carroll County), Train Coe, Darby Wetherill (Benton County), Thomas Ellis, Issac Gowen (White County), Martin Gray, Fred Hafner, E.F. Haywood, Thomas Haywood, James Kellerman, Frank Kirkpatrick, Wesley Mahin, Samuel Marsh (Montgomery County), Hester Motsinger, Audley Oshier, Emmett Raymon (White County), Abe Smith, Mary Southworth, William Walters, Wilson-Nixon (Fountain County), Simeon Yeager, S. W. Elliott, Dismal Creek, and Kirkpatrick One.

Bruce V. Osborn moved that the ditches that were read to be made active become active on the May 1990 Assessment, seconded by Sue W. Scholer, motion carried.

COUNTRY CHARMS

John Fisher asked that this be continued until next meeting February 7, 1990.

TRASH TRANSFER

John Fisher presented site drawings. Outlet goes into the Flood Plan. Mr. Hoffman asked who owns the Flood Plan? Leroy Barton. Question as to if it would increase the flow and the speed onto Barton. Question do you have permission from Mr. Barton? Answer - No. Mr. Hoffman stated that permission should be received from Leroy Barton. Mr. Fisher stated they are providing rip-rap, it will not increase the velocity. Mr. Fisher pointed out that they had met with the Soil Conservation and have worked out the one condition of erosion control. Mr. Hoffman asked if Mr. Barton knew about this meeting? NO. Presentation and discussion continued.

Bruce V. Osborn asked John Fisher to explain the plans to the Barton's.

Michael stated that the water is tributary to that area now, it will go through a pond now instead of sheet drainage.

Mr. Hoffman stated they should have their chance to object, so that they can't say we are damaging their property.

Sue W. Scholer stated there are two recommendations made.

1. The erosion control. 2. The calculations.

Bruce V. Osborn moved to give approval to the drainage control for the Trash Transfer with exception of #9 and the other recommendations as stated in the Christopher Burke

CABLE

George Schulte engineer from Ticen and Associates presented site plans. Property is located in the Treece Drainage Watershed area. The water shed area was analyzed to determine the high water elevation that would be in the channel. Their detention storage volume that they calculated was above the high water elevation of the ditch along north property line. They did decrease the allowable release rate from 2.11 cfs down to .4 cfs, there is about 3.3 acres in the site. They are increasing the volume required for storage on site.

Sue W. Scholer asked about the plans for maintenance on that ditch? Basically they are assuming that the owner would maintain the entire site, this is reason for putting 3-1 slopes on the ditch.

Mr. Hoffman asked if it was a new ditch, George again stated it is an existing ditch. The ditch at this time is full of brush, weeds, etc, it is not a legal drain.

George stated they are asking for final drainage approval.

Mr. Hoffman asked if George's client would be willing to participate in the cost of a more substantial drainage improvement in the area. Mr. Shulte stated he could not answer that question, but he feels he would be willing. Bruce asked if conditions had been met? Michael Spencer answered, no, there is one other conditions and that is that the City of Lafayette review this project, as of January 2, 1990 this area is in side the City Limits as is Wal-Mart. Mr. Sooby has not seen the plans presented. Discussion continued.

Mr. Hoffman stated this is not a subdivision, but should have the same kind of restriction as subdivisions. Mr. Hoffman asked that a letter be received from the developer stating they will participate in their fair share of the improvement when the major improvement is made. Michael asked if he was talking about facility on site. Answer-yes. Maintenance on site and that they would assist in making that area a part of the legal drain, and that they will participate in the cost of improving the Wilson Branch. Michael asked if they should provide a letter stating that they will maintain their on site system. Mr. Hoffman stated he would like for it to be in form that can be recorded, so it will run with the land should the land be sold.

George asked what things are needed for approval? 1. Participate in the improvements of the Wilson Branch. 2. Cost of improvements. 3. Maintain the one on the premises, and if they don't the County would have the right to maintain it and assess the cost. Incorporate the existing drain on the north side of the site into the Treece drain or Wilson Branch.

A letter is needed from the owner for the above mentioned items to Michael. Michael asked that the city review and give their approval be added as they are involved.

Sue asked if the board understands correctly that the City still wants that maintenance to run to the County on the regulated drain. Mr. Sooby answered, he thinks that is correct.

Bruce V. Osborn moved to give approval with the four recommendations being met, seconded by Sue W. Scholer.

WAL-MART

WAL- MART

Clifford Norton representing Wal-Mart and George Davidson of Horne Properties presented drainage plans. Michael stated the plans meet the county restriction on the limited release rate. Michael pointed out at the last meeting Mr. Long was present and brought up the fact of emergency routing for drainage which is a problem in this area, and at that time Michael stated he had Christopher Burke Engineering LTD looking at the Wilson Branch from Ross Road where the Simon improvement would end with the 100 year design flow in the channel. He had him look all the way up through Treece Meadows on what design would be required or Channel section would be required to get from Ross Road up to Treece Meadows. Michael has received the report this morning. Basically what he says in his report is to properly move the 100 year storm event from the north end of Treece Meadows or where open channel turns and goes back west through the Subdivision, looking at approximately 40 foot bottom width on the channel and 2-1 side slopes from there down to the Wilson Branch in some fashion. They have had some preliminary locations for the channel so he would have some idea for lengths to work with as far as grades to get the water down there, basically at this time to pass the 100 year storm event is to provide a 40 foot bottom width channel with 2-1 side slopes down to the Wilson Branch, then continue down the Wilson Branch taking out the trees and re-grading the bottom and side slopes down to Ross Road in order to get the water to the regional detention facility that will be constructed. Michael stated this is a starting point as there are allot of alternatives that can be put in there. This is basically what Channel section they are looking at. The crossings of Creasey Lane and McCarty Lane will need bridge openings of approximately 600 square foot openings to pass the 100 year storm event. Bruce asked if this was visible? Mr. Norton stated anything is visible. Bruce asked if this was to go in during the other construction? Michael answered it would take a petition for re-construction of the Wilson Branch of the Elliott ditch. Michael feels that we are at the point now where a petition is needed from the watershed area. More study is needed. While the land is open is the time to get something started. Cost estimates and plans will have to be put together. Michael can not put a time element on it, the area is hot enough for development and something needs to be done. Discussion of petition.

WAL-MART CONTINUED  
JANUARY 3, 1990 DRAINAGE BOARD MEETING

Mr. Davidson stated that Wal-Mart has no problem at all to work with the rest of the watershed and are willing to pay their fair share of the assessment.

Tom McCully representing Long Tree Limited went over what Long Tree Limited went through when they were developing Burberry Subdivision. The problem is at the South end at Treece drain and Wilson Branch, pipe put in 1978 creates constriction of everything upstream from there. Discussion of Cost in 1978, and the over all problem of the area. At that time the owners agreed to put an assessment based upon the cost, which amounted to approximately \$1,000.00 per acre. Today's presentation does try to address the problem all the way from the north end of Treece down to the Wilson Branch on down to the Elliott ditch. Tom stressed that if we don't look at an over all picture we are not going to get anything accomplished. What has to be done is as property is developed everybody agrees to participate to get the problem corrected. At this time we have an open ditch going into a 24" pipe. Discussion continued.

Tom McCully stated that probably this should be an Urban drain not a rural drain. Convert to Urban drain and reconstruct. Long Tree Limited is willing to cooperate. Again he stressed that everybody is going to have to be in agreement that the problem needs corrected and go from there. The longer this goes the more expense it is going to be. Discussion continued.

Michael stated that in the interim there is a plan that could be done temporarily to get the emergency routing out of the Subdivision. This is going to take cooperation from the people involved.

Bruce asked Mr. Norton if they are going to be asking for road cuts on Creasey, answer yes, they have two entrance, and one on Highway 26.

Mr. Hoffman stated Wal-Mart will have to have some type of document stating they will participate in and pay their fair share of the cost of the improvement, and maintain what else they will be putting in there, if they don't the county will have the right to go in and maintain, then assess them for the cost.

Sue Scholer suggested that Michael call a meeting with all property owners involved in the development.

Michael stated that Burke Engineering brought to his attention that this could be a lengthy project, but in the mean time the board should look at a temporary diversion swale, not a major structure. Mr. Hoffman asked if there was a place for it and Michael replied it can be done, however it will not be easy. Michael stated this would be everybody north of Treece Meadows who wants to develop. Michael wanted more time to think. Mr. Sooby was concerned about property owner saying let the other guy do it.

Mr. Davidson asked Michael if he was satisfied with their drainage analysis, answer - yes.

Mr. Norton stated there are two ways that Wal-Mart can go. He asked if the board could give approval subject to meeting the qualifications to avoid another meeting or bring up all the criteria that they need to submit and have another meeting.

Sue W. Scholer stated that the board would be requiring all the essential things stated and final approval passed would be subject to all things presented to Michael and approved by the attorney and the City of Lafayette. Sue stated possibly the board should make a requirement as Wal-Mart goes through the process of their development some of the other things needed will be based on getting a meeting and something temporary with all people involved who are developing in that area.

Mr. Davidson again stated they would agree in participating in what ever effort is made out in that area. They would like to leave the meeting this morning with some idea of construction cost so they can build their budget. He stated they could have a letter back to Michael tomorrow committing to the things the board is trying to accomplish.

Michael Spencer and Don Sooby will work together to come up with satisfactory proposals. Don stated that lionslyng share of the burden may fall on Wal-Mart to do something temporary, as no body wants to do anything until their development is ready to move. Wal-Mart wants to move ahead with their development and if the interim facilities are necessary for this to get board approval, but not the total cost is going to fall on Wal-Mart. Discussion continued.

Michael asked if a credit could be given back to Wal-Mart at a later date of what they would put in on the interim? Mr. Sooby stated that the interim facility is not going to contribute much toward the long term, it really isn't a down payment on the ultimate facilities.

Mr. Davidson asked how will the development fully affect the Treece Meadows. Michael answered hopefully up to a 100 year storm event by calculations it should reduce the downstream affect, its above the 100 year storm event that is of concern. Currently there is 80 cfs coming off for a 10 year storm. Discussion continued.

Sue W. Scholer asked what needs to be done to get the total process going?

Mr. Hoffman stated if Michael feels there is a need for reconstruction as an Urban drain Michael should report that to the Board and then the process can start for making it an Urban drain for reconstruction. That's on the long term. A Petition is not needed all that is necessary is a letter from Michael Spencer surveyor stating that it needs to be an Urban drain and it can be done as an Urban drain. Statement should state that if it is reconstructed as an Urban drain it will drain the area properly. Michael should present a letter to the Board.

Mr. Hoffman agreed with Mr. Sooby's statement that Wal-Mart is going to have to pay most of the cost of the temporary facility as the other property owners can say they are not ready to develop and we don't see the need for this until we develop. Discussion continued.

Items needed from Wal-Mart are: Letter of Commitment for Maintenance of the drain facilities that they build. In the letter a commitment for participation in the original program and that Wal-Mart pay their fair share of reconstruction and if they do not maintain the drainage on their property the county would have a right to come in and do the maintenance and make assessment for the cost. Mr. Hoffman wanted this to be in a recordable fashion so it will run with the land.

The Wal-Mart was asked to come back Tuesday January 9, 1990 at 9:30 A.M. for re-convened session. Due to not having a quorum of Board Members the January 9 meeting was postponed until Wednesday January 17, 1990 at 9:00 A.M..

## STATE ROAD

## STATE ROAD 38 PROJECT AGREEMENT

## 38 PROJECT AGREEMENT

Agreement with the State on Hwy 38 the detention pond and drainage. The County will receive \$50,000.00 if it is installed prior to the time the State goes to work on the 38 Project, if the County does not have it installed the County does not get the \$50,000.00 and the State puts it in. This is based on when the work starts. Discussion.

Fred stated that he and Michael had reviewed the agreement and it meets the standards. This goes along with the meeting held October 1988 on the Highway 38 Project. Agreement is on file.

Bruce V. Osborn moved to accept the agreement of State Highway 38 and the water problems, seconded by Sue W. Schuler, unanimous approval.

## ORCHARD

## ORCHARD PARK

## PARK

Michael Spencer Surveyor, presented Fee Proposal prices to provide field survey for the Orchard Park Legal Ditch Project. Earlier two different companies had presented prices for doing surveying work for the project. There was quite a bit of difference in the prices submitted so a more defined scope of work was presented to different companies and Michael has received the following submittals.

Todd Frauhiger read the Companies and their figures this is for the entire watershed area. This would include aerial mapping, contour map for the watershed, all existing pipes within the water shed, their reaches and sizes, inverts, the ravine system all the way down to the Wildcat creek.

Ticen Shulte and Associates	\$31,900.00
John E. Fisher	\$22,372.00
MTA	\$21,680.00
Vester's and Associates	\$24,990.00

The services that were included are:

Aerial Control Survey. Vertical and Horizontal survey to provide control for aerial mapping will be provided.

Establish Baselines. Baselines will be established, referenced, and tied to the horizontal mapping control. These base lines will follow, as closely as possible, the flow lines of the defined ravines.

Investigation of Existing Storm Sewer Facilities. Existing storm sewers and culverts within the watershed will be located, identified and surveyed for length and elevation. This information will be provided in the form of survey field notes. Aerial Mapping of the ravine will be provided, scribed on mylar. Contours will be at one foot intervals, scale will be 1"=100' or as other wise specified. Baselines will be superimposed on the mapping.

THE ITEMS READ ARE NEEDED FOR THE ENTIRE WATERSHED

Descriptions of Easements. Descriptions of proposed easements from each land owner involved will be provided. Easements will most likely be described as a horizontal distance beyond a specified elevation on the bank of the ravine.

Todd stated the quicker the surveyors could get started the better they could get a proper survey, each would like to get to it as soon as possible and no later than February as leaves will be starting and they can not get a true picture. One of the figures presented is only good through February. After that date it may increase the aerial photography figure. If it is delayed longer it could be late 1990 before work could be completed.

Time is needed to go through the presentations, Michael will come back at the next meeting with findings.

Meeting recessed until Tuesday January 9, 1990, January 9, 1990 meeting was re-scheduled for Wednesday January 17, 1990.

TIPPECANOE COUNTY DRAINAGE BOARD  
REGULAR MEETING, WEDNESDAY, JANUARY 9, 1991

The Tippecanoe County Drainage Board met Wednesday, January 9, 1991 in the Community meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with Nola Gentry calling the meeting to order for the re-organization of the board, therefore she invited J. Frederick Hoffman drainage attorney to preside

Those present were: Keith E. McMillin, Hubert D. Yount, Board Members; Michael J. Spencer, Surveyor; Ilene Dailey Consultant Drainage Engineer; J. Frederick Hoffman Drainage Board Attorney; Don Sooby, City Engineer; and Maralyn D. Turner Executive Secretary.

Mr. Hoffman asked for nominations from the floor for board chairman. Keith McMillin nominated Nola J. Gentry as chairman, seconded by Hubert Yount, there being no other nominations from the floor Nola J. Gentry was unanimously elected chairman of the board.

Mr. Hoffman turned the meeting over to Ms. Gentry to conduct the remainder of the meeting.

Ms. Gentry asked for nominations from the floor for vice-chairman of the board. Keith McMillin nominated Hubert Yount as vice-chairman, seconded by Nola J. Gentry, there being no further nominations from the floor, Hubert D. Yount was unanimously elected vice-chairman of the board.

Ms. Gentry asked for nominations from the floor for Executive Secretary, Keith McMillin nominated Maralyn D. Turner as executive secretary, seconded by Hubert D. Yount, there being no further nominations from the floor Maralyn D. Turner was unanimously elected executive secretary.

Mr. Hoffman read the following ditches to be made active for the year 1991 J. A. Kuhns, Ray Skinner, Gustav Swanson, and Shawnee Creek. A letter from White County Surveyor was read to collect maintenance assessments on the Emmet Rayman ditch for 1991. Keith E. McMillin moved to make these ditches active for assessment in the year 1991, seconded by Hubert D. Yount, unanimously approved.

(See bottom of page for active and inactive ditches.)

#### ROAD 350 SOUTH

Stewart Kline of Kline and Associates presented final drainage plans for the project Road 350 South. A preliminary plan had previously been presented and a conceptual approval had been granted.

At this time they are developing plans for three separate projects along County Road 350 South as follows: Phase I Part I Cr 350 South from US 231 to CR 100 E. (9th Street) Phase II Part II CR 350S from CR100 E to 250 E (Concord Road) Project II CR 350 S from CR 250 E to approximately 0.3 miles west of US 52. All three projects fall in the Kirkpatrick ditch watershed except for a small section at the western terminus which outlets along US 231 and eventually into Wea Creek. The existing conditions for drainage are poor. Mr. Kline continued presentation which is on file. What they propose to do with the three projects is to use some road side channels and clean up allot of the existing problems. They have broken down three major off-site locations. Presentation continued on the new off-site surface flow channel.

Structure # 1 will be providing storage on the north side of new County Road 350 South and outletting into the Wea Watershed.

Second point of discharge is at the Kirkpatrick ditch itself where a new box culvert will be installed and channel improvements for downstream, at that point they will be opening up the existing tile. The channel will be deepened going with the box culvert sections allowing the existing pipe to be opened into the open flow channel, run down and spill eventually into the extension of Elliott ditch. This will allow them to bring more water more efficiently. This makes for a more economically feasible structure. At this time the bridge would be extremely long and very shallow because it is more of swale by defining the channel and dropping the depth will be able to cross in a much shorter distance.

County Road 100 East they are basically discharging down 100 east the existing path that flows down and back into the Kirkpatrick open ditch and tile system. Detention will be provided at this point to try to minimize any affects there.

The fourth at Station 135+94 line "A" where water will be routed through the proposed Valley Forge Subdivision storm water sewer system which eventually outfalls into the Kirkpatrick. They have coordinated with Dale Kuhns with Valley Forge, they are accepting the off-site water into their storm sewer system.

The fifth is at CR 150 E running down the existing side ditches again providing storage.

The last is a new overland ditch at Station 185+40 line "A" which runs south to the northernmost branch of the Kirkpatrick surface flow. This will provide detention ahead that and bring the channel out to match the existing surface flow which is very shallow and almost a sheet flow condition.

Detention is provided at several location. Presentation continued.

The two major points of detention are east of the Conrail Railroad at that point they will be holding the water before it ever crosses, catching the water that sheet flows to the south to the Kirkpatrick ditching it and doing major detention at the point holding both north and south prior to reaching CR 150.

Mr. Kline stated all in all it is an improvement of a very poor situation up and down the line. By holding at the top of the shed they eliminate problems from all the way down the watershed. Mr. Kline asked if there were any questions.

Hubert Yount asked at Valley Forge going into the storm sewer, what is the capacity realization for the future as it is developed, are you in good condition there so we won't have any problems the back up in Valley Forge? Mr. Kline stated as Valley Forge develops the storm water going into the County system should decrease because they are designing for existing flow conditions. As developers come in there they are going to have to meet drainage ordinance and hold back the 10 year pre-developed, so they are assuming that their peak that we are giving to Mr. Kuhns now is the maximum. Mr. Yount stated then we are still going to be in a safe condition when the developers come in. Mr. Kline stated as the developers come in we will actually have excess capacity.

Michael Spencer, surveyor asked what they were going to do in the mean time before the development takes place over on Valley Forge? If there system is not in place how is yours going to work? Mr. Kline answered if it comes to a point where Valley Forge is not going to be in place prior to our development we will have to go on down to 150 and take it south.

Nola Gentry asked then there is capacity at 150? Mr. Kline stated they would have to rebuild the ditch, but that is the existing path and will be reduced. It would mean greater construction expenses, which they are trying to avoid. One of the big problems in the shed is that there is not enough fall. To get the water down to the Kirkpatrick, they would have to take the larger volume of the water that they were going to route throughout Valley Forge they would have to do considerable ditch work to get it there.

Mr. Hoffman asked how much additional distance would you have? Mr. Kline asked to go around Valley Forge? Yes, at least a half of a mile.

Hubert Yount stated they would have to do some reconstruction on those existing ditches down there. Mr. Kline stated right, they would have extend Project I. Hubert asked if they had enough right of way to do that? Mr. Kline asked down 150? Yes, under the present plans the answer is no. It is assumed that the present plans is that the Valley Forge development occurs prior to our development. Hubert stated if it does not, then we will have to acquire the right of way to do that. Mr. Kline stated we will have to acquire right of way, this is 100 E (South Ninth).

Michael stated comes back west along the south side of 350 South, then south along the east side of Ninth Street. If they plat subdivision they would have to grant that additional right of way which is not platted today, therefore we do not have it. Stewart Kline stated we do not have the right of way to build the ditch if they don't build, then we don't have their storm sewer system in place. Hubert stated then we are ahead of them if we acquire right of way on South Ninth Street prior to that platting. Mr. Kline stated this is right.

Steve Murray Highway Engineer, stated he does not anticipate that being a major problem in that we have met with the developer and supplied him with information. He has been cooperative. The half width right of way dedication for that side of South Ninth Street, 50 or 60 feet based on the thoroughfare plan. He thinks if the worse case develops here where Valley Forge did not have or was not ready to put their storm improvements in at the time we go to construction that the developer would be willing to grant us the extra right of way knowing full well that when he plats he has to give that right of way up. We would use that primarily as a temporary solution to drain the water from this small portion of 350 South, south along South Ninth along the east side of the road down to the Kirkpatrick. Basically that is just a back up solution, and rather than to go into it without a back up we feel we have ourselves covered from both sides.

Hubert asked what does that do to our road construction?

Steve asked as far as the 350 South job? Yes. Steve - Nothing substantial. Hubert - How about on Ninth Street? Steve - It should not affect that either. Hubert, but you are ultimately going to have to widen there? Steve - Eventually, yes they are hoping to. There is going to be a need for it in a very few short years.

Nola J. Gentry asked if there were any questions or comments from those present.

Ed Purdy property owner on Road 231 South. His family farm is on the south end of the drainage system. He is very concerned about removing the existing tile, it is functional and performs adequately for the agricultural commitment that it was initially built for. He realizes that with the development upstream there probably is a need for a better drainage system. He would like for the system not to be opened if anything improving the size of tile. The area that it runs through is real rough ground and he feels if it is opened there will be allot of erosion in that area. The sub base is sand & gravel and he thinks that all of us know it would be difficult to maintain slopes on a ditch with a base of sand and gravel. What is there now is the existing system, the excess water runs over the surface and there appears to be no erosion. He stated since the board (Commissioners) are new, he would like for them to come out to the site and look over the area and see what is being talked about and presented. He thinks to do some of these things at this time the way they are proposing to do they are short sided for the future for the whole system. If the board would come out he would be more than happy to show them the area.

Michael asked Ed if he was talking about the part of the ditch at the Kirkpatrick north of the proposed Road 350 South. Steve stated basically where the tile is going to be taken out and replace it with an open channel. Ed stated he is not familiar with the other thing they are talking about on US 231 where your talking about some other detention area, this is new to him. Steve stated it is the water that is going to be stored in the ditches, the controlled structure will be a cross pipe under 350. Ed pointed out the area he was talking about is a habitat for wildlife. Tearing that out the wildlife is going to be disturbed. Discussion continued.

Fred Hoffman asked how long of a stretch are you talking about? Mr. Kline 800-900 feet. Mr. Hoffman asked how big is the pipe? Michael stated the existing pipe is approximately 27-30 inch. Nola asked if it would hold or would it have to be open for this to work. Michael stated they are not going to be allowed to put the road water into the tile. It drains overland today, after construction release rate is acceptable it could drain the same way today. Mr. Purdy stated what you have is the tile in there now is performing, there is no surface drainage. Mr. Purdy hates for them to jerk that tile out and always have surface drainage there, if the tile is left in and if the

system was regraded and cut back and smoothed out, then maybe you could take care of the run off easier. It is simply not a problem to his farm as it is today. Today there is no problem, if you tear it out it is going to be a continuous flow of water. There is flow in the tile at all times, if you remove it there will surely be continuous flow in the ditch.

Mr. Hoffman asked how deep is the tile from the surface? Mr. Purdy stated he did not know, he feels it is quite deep because the elevation of the banks is probably 25 feet. Discussion continued.

Mr. Purdy stressed again he is requesting the board to see the project before they grant approval to the proposed drainage plans.

Mr. Hoffman asked how deep were they going to have the water in the side ditches where they are going to have storage? Stewart Kline - 4 feet or less in compliance with the ordinance. Discussion continued.

Nola asked if we had a major storm what would be the depth in the side ditches on storage? Steve Murray stated this can't really be answered without computer calculations. Mr. Hoffman asked how long is it going to be before it drains out and will it create a traffic hazard? Answer - In a matter of hours, and no hazard to traffic as it is in the side ditches. Discussion continued.

Jack Coffman property owner of Fairfield Contractors 3310 Concord Road. Property is at NE corner of 350 and Concord Road. He recommended that the board not give approval to the proposed drainage plans submitted until they have a chance to review the affect on their property of this design.

Nola asked if there were any other comments on this project.

Steve Murray stated an over all comment of this project is that it takes up a very large area an improvement that the county highway department has been working on for quite some time, do to the SIA plant being put into Tippecanoe County. It has gone through the normal channels. Basically according to the drainage boards consultant it meets the drainage codes. He realizes that Ed Purdy has some concerns and he certainly has no problem delaying judgement on this for another month if the board would like to come out and become more familiar with the project and what is actually going to happen. He did point out that we have had conceptual approval, as stated the drainage board consultant has reviewed the calculations and documentation with some additional information to be supplied to them they do recommend conditional approval. Back to the out fall to the Kirkpatrick and removing a portion of the tile. The primary reason that was done was what Stu had mentioned to begin with, if we would try to put a bridge in there or a battery culverts, we would have a long very expensive part to maintain bridge structure, so at that time they took a look at putting in concrete box structures to keep the cost down, plus maintenance cost down for the future and looking at it they found out that from the hydraulics by taking that portion of the tile out it would actually cause the rest of the tile up stream to function better. Again we would have no objection to delaying this for a month. Delaying he feels will not affect the development of the project.

Hubert D. Yount moved to table the action on the Road 350 South project until next meeting so the board can go out to the project and give Mr. Coffman of Fairfield Contractors a chance to review the plans, seconded by Keith E. McMillin, unanimous approval.

#### MCCARTY LANE

Nola J. Gentry stated that McCarty Lane was not an agenda item, but that some of the preliminary drainage report is ready for the McCarty Lane. We will listen to the report, but no action will be taken today.

Stewart Kline presented the preliminary drainage plans. Presentation was given in the July 11, 1990 meeting and at that time conceptual approval to McCarty Lane drainage plan and LUR as presented for the over all regional detention plans.

Stewart Kline stated this is an interesting drainage problem with the existing Kepner ditch being overwhelmed.

They will be coming with a four lane urbanized roadway section.

Again he stated the solution is to build a regional detention facility which will be built in three phases that have already been presented. Phase I is to be built by the City. Phase II LUR. Phase III Caterpillar Tractor Inc.

It uses property currently owned by LUR and Caterpillar Tractor to detain the already existing problem. Presentation continued and is on file. Discussion continued.

Phase III will be built as they develop. Caterpillar is retaining the rights to enlarge the Phase I pond to meet their development needs. Hubert asked if this would occur as they developed. Answer - yes.

Nola Gentry asked how wide is Phase I? Mike Peterson stated about 100 feet. Hubert asked how deep? Mike Peterson stated the maximum depth in the whole basin is 8 feet, and a 7 foot chain length fence is around Phase II. Mr. Hoffman stated there would be a fence because of the requirement to the ordinance. Hubert asked how much water would it hold. Mike Peterson stated there is 18 acre feet in Phase I, 16 acres feet Phase II, and 26 acre feet in Phase III. Hubert asked if they are talking about carrying water in that at all times. Mike Peterson stated there will be a flow of water because of the Layden ditch to the north which brings water across from McCarty Lane down through the system. It is not actually a wet bottom pond, it is a ditch that will be used to detain.

Stewart Kline stated the city will have ownership of the entire property Phase I, Phase II, and Phase III properties. LUR will install the maintenance road in the Phase II pond and fence in that section. City will install the fence, the ultimate ownership and maintenance will be the city for the entire project.

Nola J. Gentry asked if there were some down stream problems that this is going to create? Michael Spencer stated this should help down stream property because they are making a regional facility. Currently there are some flooding problems along McCarty Lane. The pipe going into the Wilson branch is not going to change from what it is today as a certain capacity. Nola asked, then this would be a controlled. Michael stated it will be controlled by the existing pipes. Mr. Hoffman asked if this storage was going to help on the storage that is needed on the Wal-Mart project and on the Wilson (below)? Is it going to assist in our need there for the whole Elliott ditch system storage. Michael stated it will help, it is not connected with the Wal-Mart other than they both drain to the Wilson branch. They are not going to take water away from one and the other. The Caterpillar area when it is developed it will come south instead of going east. Technically it is going to help, it is not going to create any additional problems. Mr. Hoffman asked if this storage will help on the storage problem at Elliott ditch that has been talked about at Ivy Tech? Michael stated at this time it won't make a difference.

Hubert asked how big of pipe is it that is coming out of there going to Wilson ditch?  
Answer - 48 inch.

Stewart Kline stated at this time the outfall will be reduced. The pipe that outfalls to the Wilson is capable of discharging 108 cfs. What happens now that there is like road way flooding on surface. Water isn't taken into the tile and spills out over land and kind of floods the properties along Creasey and gets into the Wilson. This is an additional 100 cfs plus the will be integrated into the system and stopped. Won't have that surface flow condition that you have now, everything will be held and the release will be held to the capacity of the existing tile. It will still be the 48 inch pipe with 108 cfs. They will eliminate the run around that happens now where all the surface flow seeps and eventually gets down to the Wilson, that will all be trapped by the LUR development and the roadway. This will bring it into the pond and still hold the water way to the 108 cfs, this should be improved with the downstream.

Michael Spencer stated when Caterpillar develops it will be rerouted and the water will come south instead of going east into Treece.

Mr. Hoffmans asked if this required Core of Engineer approval. Answer - No.

Don Sooby, City Engineer stated this is the project the City has been working quite some time. They are getting close to right of way acquisition and hope to complete getting those by the end of 1991. Hopefully in 1992 get the project program for Federal funds for construction work to begin. They have worked with Caterpillar and LUR in developing this regional detention pond to the benefit of the whole drainage area. On behalf of the city he encourage the drainage board approval at the earliest opportunity on this project.

Stewart Kline stated the project has been reviewed the county drainage consultant. The pond itself and the watershed analysis and there is no problem with the water construction capacity. The consultant is wanting at this point is that this being a fairly large shed and the master model that is being developed by Burke and Associates for the Elliott system. They want to be able to bring this into their master model since it is significant.

Ilene Dailey, drainage consultant stated that would help answer some of the questions in regards of what affect this would have on other basins. Stewart Kline stated it will increase the accuracy of the model we are looking at a 2 hour storm event and they are looking at a 24 hour storm event. That controls for the Elliott as a whole, but does not control for us, so what we have to do to provide for them or work with them in some manner in updating their report as to convert this model to the 24 for the master. He thinks as far as the design for this, there is a consensus that this is where it stands, and this is what is good for the Kepner ditch watershed.

Hubert Yount asked at Navco and Farbee problem does it all go into this watershed? Yes.

Discussion and presentation continued.

Jim Shook representing LUR recommended approval at the right time.

Michael stated this project will be on the agenda of the February, 1991 meeting.

Mr. Hoffman asked if notices had been mailed to property owners? Per Kline notices had been sent stating this would be presented at todays meeting, but no action would be taken, copies of these letters are in the file.

Michael stated that basically the same pipes are being used that are there now, not changing, and there is no assessments.

#### WETLANDS - 1990 USDA

Michael Spencer presented copies of information on Wetlands - 1990 USDA. Discussion of Wetlands. Michael asked Mr. Hoffman how this affects the drainage board in regards to Maintenance and Reconstruction. Mr. Hoffman will check into this and brush burning. He has written legislatures in regards to brush burning, and he will check on Michaels concern in regards to the reconstruction schedules. Mr. Hoffman stated we all should write our legislatures in regards to these two subjects. He will make a report to the board as soon as he has an answer.

There being no further business, Hubert Yount moved to adjourn the meeting at 10:05 A.M.

Maralyn O. Turner, Executive Secretary

#### ACTIVE AND INACTIVE DITCHES

Mr. Hoffman read the following ditches to be made active for the year 1991 J. A. Kuhns, Ray Skinner, Gustav Swanson, Charles E. Daugherty, John Hoffman and Shawnee Creek. A letter from White County Surveyor was read to collect maintenance assessments on the Emmet Rayman ditch for 1991. Keith E. McMillin moved to make these ditches active for assessment in the year 1991, seconded by Hubert D. Yount, unanimously approved.

The following ditches were made Inactive for the year 1991 John Blickenstaff, O. J. Byers and Beutler/Gosma, Keith E. McMillin moved to make these ditches inactive, seconded by Hubert D. Yount, unanimously approved.

**TIPPECANOE COUNTY DRAINAGE BOARD  
REGULAR MEETING  
FEBRUARY 5, 1992**

The Tippecanoe County Drainage Board met Wednesday, February 5, 1992 in the Community Meeting Room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with Keith E. McMillin calling the meeting to order.

Those present were: Keith E. McMillin, Chairman, Nola J. Gentry and Hubert Yount, Tippecanoe County Commissioners, Michael J. Spencer, County Surveyor, Ilene Dailey, Chris Burke Consulting Engineers, J. Frederick Hoffman, Drainage Board Attorney, and Dorothy M. Emerson, Executive Secretary Drainage Board.

The first item on the agenda was to approve to the minutes of the meeting for the last Drainage Board meeting on January 8, 1991. Nola Gentry moved to approve the minutes, seconded by Hubert Yount. Unanimously approved.

**CARROLL COUNTY JOINT DRAIN**

Mike Spencer, County Surveyor stated Keith McMillin and Hubert Yount needed to be appointed to the Carroll County Joint Drain for the Andrew and Mary Thomas Drains.

Nola Gentry motioned to appoint Keith McMillin and Hubert Yount to the Carroll County Joint Drain for the Andrew and Mary Thomas Drains.

Hubert Yount, seconded. Motion carried.

**DRAINAGE BOARD ATTORNEY CONTRACT**

Mike presented the Board with a contract for the Drainage Board Attorney J. Frederick Hoffman, that needed to be executed for 1992.

Hubert Yount moved to approve the contract between Tippecanoe County Drainage Board and J. Frederick Hoffman as Attorney for said group.

Nola J. Gentry, seconded. Motion carried.

**ACTIVE AND INACTIVE DITCHES**

Nola Gentry moved to include the active and inactive ditches into the February minutes and mail the appropriate notices to the surrounding counties. Hubert Yount, seconded. Motion carried.

The following is a list of the active and inactive ditch assessment list for 1992.

DRAINAGE BOARD ASSESSMENT LIST				
DITCH No.	DITCH	TOTAL 4 YEAR ASSESSMENT	1991	1992
1	Amstutz, John	\$5,008.00	Inactive	Inactive

#### DISCUSSION ON TILE BIDS

Mike Spencer presented a tile bid that had been inadvertently returned to the bidder. Fred Hoffman opened the bid.

Mike stated he had received two proposals for Professional Services on the Berlovitz Watershed Study, one from Christopher Burke Engineering and one from Ticen, Schulte and Associates. Mike recommended Christopher Burke Engineering the lowest bidder.

Nola moved to approve the proposal from Christopher Burke Engineering for the Berlovitz Ditch Study. Hubert, seconded. Motion carried.

#### JOHN HOFFMAN DRAIN

Mike stated to the Board that work will be done on the Hoffman Drain at a cost less than \$25,000.00. Since it was under \$25,000.00 Mike requested quotes be done on the project rather than bids since quotes are faster.

Mike read the proposal into the minutes.

#### TO WHOM IT MAY CONCERN:

The Tippecanoe County Drainage Board is interested in taking quotes for maintenance work on the John Hoffman Ditch, beginning at the tile outlet which is located along County Road 900 East just north of State Road 26 East.

Work will consist of dredging approximately 1000 feet of channel down stream of the tile outlet, cleaning out road culvert under 900 East. Then clearing trees over and along the tile for some 4000 feet to the east.

After the clearing all tile holes will be fixed and or wide joints patched, then the waterway over the tile will be graded as directed by the Surveyor. When all work is completed all disturbed areas will be seeded.

There will be a pre-quote site visit held at the site on February 19th, 1992 at 9:00 am.

Written quotes will be on a per foot basis for dredging, clearing and grading of waterway.

Tile repair will be on time and material basis. Seeding will be lump sum.

Quotes will be due on March 4th at 11:00 am in the Tippecanoe County Auditors Office.

For further information please contact the Tippecanoe County Surveyor, Mike Spencer at 423-9228.

Discussion followed.

Hubert Yount moved to accept quotes for the John Hoffman Drain. Nola, seconded. Motion carried.

#### HADLEY LAKE DRAIN

Mike stated that West Lafayette Wetland Delineation Study will be done on February 15. We need to have that before we advertise for the proposals for engineering work.

#### PINE VIEW FARMS

Roger Kottowski, Weitzel Engineering and Tom Stafford, Melody Homes presented their drainage plans for Pine View Farms to the Drainage Board.

Discussion followed.

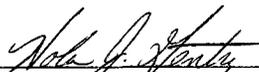

Mike Spencer recommended preliminary approval to the Board.

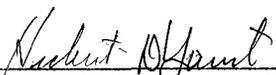

Nola moved to grant preliminary approval contingent on completion of restrictions and receipt of the recorded easements or agreements.

Hubert Yount, seconded. Motion carried.

Being no further business, Hubert Yount moved to adjourn the Drainage Board meeting. The next regular scheduled meeting will March 4 at 8:30 AM and will reconvene at 11:00 AM for quotes on the John Hoffman Drain.

**Tippecanoe County Drainage Board**  
**Minutes TRANSCRIPT**  
**Regular Meeting**  
**January 6, 1993**

The Tippecanoe County Drainage Board met Wednesday, January 6, 1993 in the Community Meeting Room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana, with Nola Gentry calling the meeting to order for the re-organization of the Board. She then turned it over to J. Frederick Hoffman, Drainage Board Attorney to preside.

Those present were: Nola J. Gentry, Hubert Yount, Bill Haan, Tippecanoe County Commissioners, Michael J. Spencer, County Surveyor, Ilene Dailey, Christopher Burke Consulting Engineer, J. Frederick Hoffman, Drainage Board Attorney, Hans Peterson, Paul Elling, Project Engineers SEC Donohue, Greg Griffith, Great Lakes Chemical Corporation, Josh Andrews, West Lafayette Development Director, Opal Kuhl, West Lafayette City Engineer, and Shelli Hoffine Drainage Board Executive Secretary.

J. Frederick Hoffman, Drainage Board Attorney asked for nominations from the floor for the Board President. Commissioner Gentry nominated Commissioner Haan for President, seconded by Commissioner Yount. Unanimously approved.

Mr. Hoffman then turned the meeting over to Commissioner Haan to preside over the remainder of the meeting.

Commissioner Haan asked for nominations from the floor for the Board Vice President. Commissioner Haan nominated Commissioner Gentry for Vice President, seconded by Commissioner Yount. Unanimously approved.

Commissioner Haan asked for nominations from the floor for the Board Executive Secretary. Commissioner Gentry nominated Shelli Hoffine for Executive Secretary, seconded by Commissioner Yount. Unanimously approved.

The first item on the agenda was to approve the minutes of the meeting for the Drainage Board meeting on December 2, 1992. Hubert Yount moved to approve the minutes of December 2, 1992, seconded by Commissioner Gentry. Unanimously approved.

**Hire the Attorney**

Commissioner Gentry moved to appoint J. Frederick Hoffman as Attorney for the Drainage Board, seconded by Commissioner Yount. Motion carried.

**Active and Inactive Ditches for 1993**

Mr. Hoffman suggested putting the active and inactive ditches in the January minutes. Mr. Hoffman also read them aloud to the Board.

**Storm Water Drainage Improvement Plan**

Hans Peterson and Paul Elling from SEC Donohue presented the Stormwater Drainage Improvement Plan for the Cuppy-McClure watershed. Mr. Peterson discussed the project overview and objectives, project design criteria and constraints, hydrologic/hydraulic analysis, alternative improvements and recommendations, permits, and the schedule.

Mr Peterson discussed the alternative improvements.

Alternative #1 Low flow pipe and high flow channel.

The cost of the low flow pipe and high flow channel - \$930,000.00

The pipe in this alternative would be two to three feet deep under the ground from the Celery Bog to U.S. 52 then opens up and flows under US 52 with the existing pipe, then drops down into another pipe and flows on down to Hadley Lake.

Mr. Hoffman asked how big the pipe would be?

Mr. Peterson answered the pipe ranges in size from 36 inches to 42 inches.

Alternative #2 All pipe improvements.

The cost of all pipe improvements - \$1,570,000.00

Pipe size ranges from 54 inches to 60 inches.

This alternative would run completely under the ground from Celery Bog to Hadley Lake that is the main reason for the high cost. Mr. Peterson said this would look the nicest after it is complete.

Alternative #3 All channel improvements.

The cost of all channel improvements - \$755,000.00

This alternative does not have any pipe. It is a standard open channel all the way from Celery Bog down to Hadley Lake. There would have to be a concrete lining treatment at the bottom of the channel.

Mr. Peterson recommended alternative was #1 the low flow pipe and high flow channel.

Mr. Hoffman asked on these changes of easement are they giving and taking from the same landowners or taking from some landowners and giving others?

Mr. Peterson said based on the assessment map that we have, it is generally give and take on the same properties except for one parcel. Parcel #13 looks like we are taking.

Mr. Hoffman assumed there will be a petition for reconstruction to make those changes in easement.

Commissioner Gentry answered there will be a reconstruction hearing.

Discussion followed.

Bening no further business Commissioner Gentry moved to adjourn until February 3, 1993 at 8:30 a.m., seconded by Hubert Yount.

Meeting adjourned.

  
William D. Haan, President

  
Nola Gentry, Vice President

Shelli Hoffine, Executive Secretary

TIPPECANOE COUNTY DRAINAGE BOARD  
REGULAR MEETING  
JANUARY 5, 1994

The Tippecanoe County Drainage Board met Wednesday January 5, 1994 in the Community meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with William D. Haan calling the meeting to order.

Those present were: Tippecanoe County Commissioners William D. Haan, Nola J. Gentry, Hubert D. Yount; Tippecanoe County Surveyor Michael J. Spencer; Drainage Board Attorney J. Frederick Hoffman; Drainage Board Engineering Consultant Jon Stolz and Drainage Board Secretary Shelli Hoffine.

ELECTION OF 1994 OFFICERS

Mr. Hoffman asked nominations for the President of the Tippecanoe County Drainage Board. Commissioner Haan nominated Commissioner Gentry, seconded by Commissioner Yount. Unanimously approved.

Mr. Hoffman turned the meeting over to Commissioner Gentry to preside.

Commissioner Gentry asked nominations for Vice President of the Tippecanoe County Drainage Board. Commissioner Gentry nominated Commissioner Haan, seconded by Commissioner Yount. Unanimously approved.

-APPOINTMENTS-

Commissioner Haan moved to appoint Shelli Hoffine for Executive Secretary of the Tippecanoe County Drainage Board, seconded by Commissioner Yount. Unanimously approved.

Commissioner Haan moved to appoint J. Frederick Hoffman as Attorney for the Tippecanoe County Drainage Board pending an agreement of a contract, seconded by Commissioner Yount. Unanimously approved.

Commissioner Yount moved to extend the existing contract into 1994 for Christopher Burke Engineering, LTD. to provide engineering services to the Tippecanoe County Drainage Board pending review of the contract, seconded by Commissioner Haan. Unanimously approved.

-MEETING DATES FOR 1994-

January 5, 1994	July 6, 1994
February 2, 1994	August 3, 1994
March 9, 1994	September 7, 1994
April 6, 1994	October 5, 1994
May 4, 1994	November 2, 1994
June 1, 1994	December 7, 1994

Commissioner Haan moved to accept the meeting dates for the Tippecanoe County Drainage Board, seconded by Commissioner Yount. Unanimously approved.

Commissioner Yount moved approve the minutes from the last Drainage Board meeting held December 1, 1993. Seconded by Commissioner Haan. Unanimously approved.

Joe Bumbleburg asked the Board to approve a resolution for vacation of a drainage easement located on a part of lot 5 in Capilano By the Lake Subdivision, Phase I. The drainage easement ended up in the middle of lot 5 when it was replatted.

Mr. Spencer stated he has been out to the site, Mr. Cunningham of Vester and Associates checked the easement and it definitely will not cause a problem with the lot or any of the adjoining lots. Mr. Spencer recommended the vacation of the drainage easement in lot 5, Capilano By the Lake Subdivision, Phase I.

The petition and the resolution to vacate a portion of a drainage easement on lot 5, Capilano by the lake subdivision, Phase I is on file in the Tippecanoe County Surveyor's Office.

Commissioner Yount moved to approve the resolution to vacate a portion of an easement on lot number 5, Capilano by the Lake Subdivision, Phase I, seconded by Commissioner Haan. Unanimously approved

#### HAWKS NEST SUBDIVISION, PHASE I

Greg Hall, Intercon Engineering, asked the Board for final approval of Hawks Nest Subdivision, Phase I and the detention ponds for the entire project. Mr. Hall also, requested a variance for exceeding the four foot of depth in Basin A.

Mr. Spencer stated he recommended approval of Phase I and the detention ponds.

Mr. Hall stated there will be eighteen lots in Phase I, one detention basin will be located in this phase.

Commissioner Haan asked if the permits from the IDNR have been processed?

Mr. Stolz stated that the portion that was requiring a permit has been moved from the floodplain and no longer requires a permit.

Commissioner Yount moved to grant the variance to exceed the maximum four foot depth in Basin A, seconded by Commissioner Haan. Unanimously approved.

Commissioner Yount moved to grant final approval of Hawks Nest Subdivision, Phase I and the detention basin for the entire project, seconded by Commissioner Haan. Unanimously approved.

#### TRIPLE J POINTE SUBDIVISION

Bob Grove, representing Smith Enterprises, asked for preliminary approval of Triple J Pointe Subdivision, which involves fifteen acres with 75 lots, located off Old Romney Road and County Road 250 South. The proposal is to detain the water offsite which will hold seventy two acres of offsite runoff, then take the ten year flow through the subdivision to a basin that will hold the 15 acres of developed subdivision, a pipe will carry the runoff from the basin to an existing structure of Ashton Woods Subdivision detention system. The ditch will be used as overflow for runoff that exceeds the 10 year flow.

Commissioner Yount asked if pipe along Old Romney Road would be in the road right-of-way if so, has the County Highway Department approved a permit for the pipe?

Mr. Grove stated yes, we are proposing to put the pipe in the right-of-way and no, we have not obtained a permit from the Highway Department.

Mr. Spencer stated the Highway Department has a set of plans, but he has not heard a report from them.

Commissioner Yount asked about the use of the pond offsite easement?

Mr. Grove stated that G. Mark Smith will be preparing an agreement for the easement.

Mr. Spencer stated John Fisher did a drainage study of the Wea-Ton drainage area, in the report it shows the watershed area delineated certain runoff values for sub-areas within the watershed area. Ashton Woods kept in compliance with the idea for sub-areas to be within the watershed area, at that time, the Board accepted the idea. Ashton Woods created an outlet for the Wea-Ton watershed area and during construction they have created the outlet channel and incorporated their storage area with Old Romney Heights storage area. In the study, there are recommendation about how water moves to the east as development progresses. A pipe was sized under Old Romney Road at the end of the channel to pick up water to the east. Triple J Pointe Subdivision does not comply with this idea as far as construction of proper pipe size under Old Romney Road to convey the water from the east.

Mr. Grove stated Smith Enterprises asked John Fisher for the drainage study, but were not able to obtain a copy. It was decided to make an alternate route from the project's outlet to go along the east side of Old Romney Road in an easement just outside the right-of-way, provide a manhole and a crossing based on a 10 year predeveloped flow from the Wea-Ton area.

Commissioner Gentry suggested getting a meeting set up between the Commissioners, the Surveyor, Smith Enterprises, Mr. Gloyeske, and Mr. Fisher.

Commissioner Yount moved to continue Triple J Pointe Subdivision with Mr. Grove's consent until after the above meeting has been held, seconded by Commissioner Haan. Unanimously approved.

#### HARRISON & MCCUTCHEON HIGH SCHOOLS IMPROVEMENTS

Kyle Miller, Triad and Associates, presented the Board with the plans to improve Harrison High School and McCutcheon High School. Harrison and McCutcheon will be adding approximately one acre of roof to the existing structures over what is now parking lot signifying no increase in the volume of runoff for either plan. Harrison's storm sewer pipes run around the perimeter of the school, some of the pipe are undersized and will be replaced along with all new pipe to go around the perimeter of the constructed area. All roof drainage will run into the storm sewer then to an existing pipe and discharge into the **Cole Ditch/"Burnett Creek"**. Mr. Miller indicated a portion of one existing outfall pipe will be replaced and a permit from the IDNR is required for construction in the floodway area.

Commissioner Gentry asked what the design is of the outfall pipe into the creek?

Mr. Miller stated there will an end section on the pipe and that rip-rap will be placed on both sides of the banks.

Mr. Miller explained that McCutcheon High School storm sewer pipes run the perimeter of the existing structure and outlets into the **Wea Creek**. The

improvements will replace what is now asphalt and the storm sewer pipe around the perimeter of the constructed area.

Commissioner Yount moved to approve Harrison High School's final improvement plan subject to the approval of the permit from the IDNR, seconded by Commissioner Haan. Unanimously approved.

Commissioner Yount moved to approve McCutcheon High School's final drainage improvement plan, seconded by Commissioner Haan. Unanimously approved.

OTHER BUSINESS

Mr. Spencer asked if section six, letter F of the Drainage Ordinance, Submittal and Consideration of Plans, could be clarified to clear up questions pertain to the twenty days submittal deadline being twenty working days or twenty calendar days.

Commissioner Yount suggested changing the twenty days to thirty calendar days and requiring a review memo from the County Engineering Consultant to the petitioner, ten days prior to the hearing date.

Mr. Hoffman stated he will write an amendment to the Drainage Ordinance, letter F in section six, Submittal and Consideration of Plans, to change the twenty days submittal to thirty calendars days and the Surveyor will make a report to the petitioners not less than ten days prior to the hearing date.

**GREAT LAKES CHEMICAL**

Mr. Spencer stated all the landowners along the proposed channel have been informed of the Great Lakes project, the County has a complete set of construction plans, a drainage report, and Army Corp of Engineers permit. The County does not have IDNR or the IDEM, but those have been filed and should be approved soon. Ken Baldwin had some question for insurance reasons on fencing around the sediment basin before the water goes into **Hadley Lake**. The County will contribute \$700,000.00 dollars out of that the County has spent approx \$150,000.00 on Engineering, the Engineer's construction estimate is 1,040,000.00.

Commissioner Gentry asked what the time table is on advertising for reconstruction, and does the project have to be advertised before the bidding or concurrent with the bid process?

Mr. Hoffman stated the advertising has to be done before the bid processing. The County would have to give thirty to forty day notice and then have the hearing, if approved the bidding can go out, all that together would take about three months.

Judy Rhodes asked if there was any legal document showing West Lafayette committing to an agreement of participation in this project?

Commissioner Gentry stated that the County has a signed worksheet by Nola J. Gentry and Mayor Sonya Margerum showing the break down of contribution between the State of Indiana, Tippecanoe County and the City of West Lafayette for Great Lakes Chemical Corporation/**Cuppy McClure** watershed project

Ms. Rhodes asked and received a copy of the worksheet.

Being no further business Commissioner Yount moved to adjourn until February 2, 1994, seconded by Commissioner Haan. Unanimously approved.

TIPPECANOE COUNTY DRAINAGE BOARD  
 REGULAR MEETING  
 FEBRUARY 1, 1995

The Tippecanoe County Drainage Board met Wednesday February 1, 1995 in the Community meeting room of the Tippecanoe County Office Building, 20 North Third Street, Lafayette, Indiana with William D. Haan calling the meeting to order.

Those present were: Tippecanoe County Commissioners William D. Haan, Nola J. Gentry, Gene Jones; Tippecanoe County Surveyor Michael J. Spencer; Drainage Board Attorney pro-tem David Luhman; and Drainage Board Secretary Shelli Muller.

The first item on the agenda was to approve the minutes from the last Drainage Board Meeting held January 4, 1995. Commissioner Gentry moved to approve the minutes, Seconded by Commissioner Jones. Motion carried.

ACTIVE AND INACTIVE DITCH LIST 1995

Mr. Luhman read the active ditch list into the minutes.

97	McLaughlin, John		
101	Hoffman, John	72105.03	55880.51

Mr. Spencer stated the John Hoffman Ditch is on a three year assessment which started in 1991 with a ten dollar an acre assessment. It is now necessary for the Board to schedule a meeting between Clinton, Carroll and Tippecanoe Counties to reduce the assessment.

Commissioner Haan appointed himself and Commissioner Gentry to serve on the Tri County Board.

#### CHRISTOPHER B. BURKE ENGINEERING CONTRACT

Mr. Luhman stated after reviewing the original contract from Christopher B. Burke Engineering a few items were discussed and changes were made. The contract was revised with one exception on page 6 paragraph 24. The suggested revision was if a contractor was doing work based upon the Engineers plans the contractor would indemnify Burke for any damages to Burke because of the contractors negligence. Also suggested was to include Burke as a named insured on the insurance policy. Mr. Luhman explained the main reason for the suggestion was so the County and Christopher B. Burke Engineering would not be held liable.

Commissioner Gentry moved to approve the contract with Christopher B. Burke Engineering, LTD., and authorize the President of the Board to sign the contract, seconded by Commissioner Jones. Motion carried.

#### OTHER BUSINESS

Mr. Spencer presented the Board with the reforestation proposal for the Cuppy-McClure Drain, which will comply with the DNR requirements for a 2 to 1 mitigation on tree removal. The Parks Department for the City of West Lafayette suggested sites for the trees replacement. Mr. Spencer explained he wanted the Board to be aware of the progress and that Mr. Ditzler of J.F. New will submit the plan to Dan Ernst of the Indiana Department of Natural Resources.

Being no further business, Commissioner Gentry moved to adjourn until March 1, 1995, seconded by Commissioner Jones. Meeting adjourned.

DRAINAGE BOARD MINUTES FEBRUARY 1, 1995 REGULAR MEETING

TIPPECANOE COUNTY DRAINAGE BOARD  
REGULAR MEETING  
JANUARY 3, 1996

The Tippecanoe County Drainage Board met Wednesday January 3, 1996 in the Commissioners Meeting Room of the Tippecanoe County Courthouse, Lafayette, Indiana with William D. Haan calling the meeting to order.

Those present were: Tippecanoe County Commissioners William D. Haan, Nola J. Gentry, and Gene Jones; Tippecanoe County Surveyor Michael J. Spencer; Drainage Board Attorney J. Frederick Hoffman; Drainage Board Engineering Consultant Dave Eichelberger, and Drainage Board Secretary Shelli Muller.

ELECTION OF OFFICERS

The first item on the agenda was to elect new officers for 1996.

Mr. Hoffman opened the floor to nominations for President.

Commissioner Haan nominated Commissioner Gentry.

Commissioner Haan moved to close nominations for president, seconded by Commissioner Jones. Motion carried, Commissioner Gentry was elected.

Mr. Hoffman turned the meeting over to the President.

Commissioner Gentry asked for nominations for Vice President.

Commissioner Haan nominated Commissioner Jones for Vice President.

Commissioner Haan moved to close nominations for Vice President, Commissioner Gentry seconded. Motion carried, Commissioner Jones was elected.

APPOINTMENTS TO THE BOARD

The next item on the agenda is to renew the contracts with Hoffman, Luhman & Busch as the law firm.

Commissioner Haan moved to renew the 1995 contract with Hoffman, Luhman and Busch, seconded by Commissioner Jones. Motion carried.

Mr. Spencer presented the Board with two proposals for the contract with Christopher B. Burke Engineering Limited.

- 1) A proposal for professional engineering services on a varied rate depending on specified standard charges.
- 2) a proposal for professional engineering services on a fixed rate of \$50.00 per hour.

Commissioner Gentry asked for a report on the number of engineering review hours in 1995 for all the projects submitted in 1995. The discussion of which contract to be used will be continued at the February meeting.

Commissioner Haan moved to extend the 1995 contract with Christopher B. Burke Engineering Limited for one month into 1996, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to reappoint Shelli Muller as Drainage Board Secretary for 1996, seconded by Commissioner Jones. Motion carried.

1996 ACTIVE/INACTIVE DITCH LIST

Mr. Hoffman asked for the active and inactive ditches to be placed in the minutes.

Commissioner Haan moved to place the 1996 active/inactive ditch list the minutes, seconded by Commissioner Jones. Motion carried.

1996 - ACTIVE/INACTIVE DITCH LIST

ACTIVE

E.W. ANDREW, ANSON-DEPHINE, JULIUS BERLOWITZ, BEUTLER-GOSMA, ANDREW BROWN, TRAIN COE, COUNTY FARM, THOMAS ELLIS, FASSNACHT-CRIST, REBECCA GRIMES, HARRISON MEADOWS, EUGENE JOHNSON, JAMES KELLERMAN, AMANDA KIRKPATRICK, FRANK KIRKPATRICK, JAMES KIRKPATRICK, CALVIN LESLEY, MARY MCKINNEY, F.E. MORIN, KESTER MOTSINGER, J. KELLY O'NEAL, AUDLEY OSHIER, FRANKLIN RESER, SKINNER RAY, JOSEPH STERRETT, GUSTAV SWANSON, JACOB TAYLOR, JESSE DICKENS, DISMAL CREEK, SHAWNEE CREEK, SAMUEL ELLIOTT, JOHN HOFFMAN, BUCK CREEK, DARBY-WETHERHILL, ISSAC GOWEN, SAMUEL MARSH, EMMETT RAYMAN, WILSON-NIXON, SOPHIA BRUMM, H.W. MOORE, MARY THOMAS, ARBEGUST-YOUNG

INACTIVE

JOHN AMSTUZ, JESSE ANDERSON, DEMPSEY BAKER, BAKER VS NEWELL, NELLIE BALL, MICHAEL BINDER, JOHN BLICKENSTAFF, NATHANIEL BOX, ALFRED BURKHALTER, ORIN BYERS, FLOYD COE, GRANT COLE, JESSE CRIPE, CHARLES DAUGHERTY, FANNIE DEVAULT, MARION DUNKIN, MARTIN ERVIN, ELIJAH FUGATE, MARTIN GRAY, FRED HAFNER, E.F. HAYWOOD, THOMAS HAYWOOD, GEORGE INSKEEP, LEWIS JAKES, FLOYD KERSCHNER, JOHN KUHN, JOHN MCCOY, JOHN MCFARLAND, WESLEY MAHIN, ABSOLEM MILLER, ANN MONTGOMERY, PARKER LANE, CALVIN PETER, PETER RETTERETH, ARTHUR RICHERD, ALEXANDER ROSS, JAMES SHEPHERDSON, JOHN SALZMAN, ABE SMITH, MARY SOUTHWORTH, WILLIAM STEWART, ALONZO TAYLOR, JOHN TOOHEY, JOHN VANNATTA, HARRISON WALLACE, SUSSANA WALTERS, WILLIAM WALTERS, WAPLES-MCDILL, LENA WILDER, J&J WILSON, SIMEON YEAGER, FRANKLIN YOE, JENKINS, KIRKPATRICK ONE, MCLAUGHLIN, JOHN HOFFMAN

Commissioner Gentry mentioned the ditches that are in red:

COUNTY FARM, REBECCA GRIMES, FRANKLIN RESER, GUSTAV SWANSON

Mr. Spencer read a letter he received from Betty J. Michael.

"December 29, 1995

Nola J. Gentry, President  
Board of Commissioners

Michael J. Spencer  
County Surveyor

Re: Interest on Drainage Funds

At the Fall County Auditor's Conference held by the State Board of Accounts, a session was held concerning drainage ditches, charges, billings, investments, interest, etc.

The County Board of Accounts supervisors instructed the Auditors and personnel concerning the above issues. We were informed that most Counties put interest earned on Drainage funds into the County General Fund since County general pays for expenses such as tax bills, Surveyor and Drainage Board Budgets.

An alternative in some cases is to credit this interest to the County Drain Fund (unapportioned). When we inquired about the feasibility of apportioning the monthly interest into more than 100 separate drainage funds, the answer was a dead silence of incredibility that this was being done.

We have double-checked this information with District Board of Accounts personnel and have been told that there is nothing in the statutes that mandates interest should go into each Drain fund or even into the County General Drain Fund.

Therefore, as of January 1, 1996, we will be willing to allocate the monthly interest to either the General Drain Fund or to the County General Fund but NOT to each individual Drain account. Please let me know your preference.

Sincerely,

Betty J. Michael"

Mr. Hoffman stated the ditches are trust funds and the landowners in the watershed areas know the ditches are earning interest, it would not be appropriate to discontinue the investment.

Commissioner Haan moved to direct Mr. Hoffman to write a letter stating per the agreement that was made when the ditches were established the interest was to be allocated, but the Board is willing to distribute the interest on a semimonthly bases to coincide with the spring & fall settlements, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to approve the 1996 Drainage Board schedule, seconded by Commissioner Jones. Motion carried.

#### APPROVAL OF MINUTES

Commissioner Haan moved to approve the minutes from the December 6, 1995 Drainage Board meeting, seconded by Commissioner Jones. Motion carried.

#### BRENTWOOD COMMUNITY

Mr. Spencer stated Brentwood Manufacture Home Community is located off US52 West, South of the Elk's Country Club. They asked for preliminary drainage approval, which he recommended as long as the IDNR approved the construction within a floodway. There are approximately 280 lots on 60 acres with a dry bottom retention pond.

Mr. Spencer explained the retention pond does not comply with the Ordinance therefore the developer is asking for a variance. The Ordinance requires a 48 hour discharge time, the plans actual peak discharge is closer to 75 hours.

Commissioner Haan moved to grant preliminary approval to Brentwood Community contingent on the approval of construction in a floodway from IDNR, revised calculations and the request for the variance to the Ordinance, seconded by Commissioner Jones. Motion carried.

#### SOUTHERN MEADOWS

Mr. Spencer recommended granting Southern Meadows Subdivision final approval. The development is located at the corner of South 18th Street and 350 South within the City of Lafayette. Mr. Spencer explained the development needs approval from the County Drainage Board because it drains to the Elliott Ditch. At the Urban review meetings it was determined any development below the railroad tracks draining into Elliott Ditch would be allowed to direct release into the Ditch without onsite detention. The development includes a water amenity onsite, which water will flow into and out, but is not being planned as a detention pond and does not comply with the requirements of the Ordinance. Mr. Spencer had a question as to whether or not the pond would have to comply with the requirements of the Ordinance.

Mr. Hoffman stated the pond would not have to meet the Ordinance requirements as long as it does not affect the drainage.

Mr. Spencer explained the site drains to the pond.

Commissioner Haan stated if the majority of the site drains to the pond it is a retention pond and should meet the requirements of the Ordinance.

Ron Miller, Schneider Engineering, stated the current discharge in a one hour storm duration to Elliott is 2.7 hours. With the installation of a 42 inch pipe draining from the water amenity discharge into the Elliott in a one hour storm will be a little over an hour.

Commissioner Haan moved to grant final approval of Southern Meadows Subdivision with the condition the pond meets the Drainage Board Ordinance requirement for a non-fenced pond, seconded Commissioner Jones. Motion carried.

#### VILLAGE PANTRY #564R

Mr. Spencer introduced Village Pantry #564R, which is located at the corner of Brady and Concord, East of the existing Village Pantry. Weihe Engineering submitted final drainage plans and after the review it was recommended to grant final approval with the variance of a 12 inch pipe to a 10 inch concrete pipe for the outfall of the proposed detention area in order to limit the discharge.

Commissioner Haan moved to grant the variance of the Ordinance from a 12 inch required pipe to a 10 inch proposed pipe, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to grant final approval of Village Pantry #564R, seconded by Commissioner Jones. Motion carried.

#### PETITION TO ESTABLISH O'FERRALL LEGAL DRAIN

Mr. Hoffman excused himself from the meeting 9:45 a.m.

Mr. Spencer asked the Board to acknowledge the petition to establish the O'Ferrall Legal Drain, branch of the Alexander Ross Ditch as a valid petition.

Commissioner Haan moved to acknowledge the petition as a valid petition to establish the O'Ferrall Legal Drain, branch of the Alexander Ross Ditch and the petition represents over 10 percent of the effect landowners, seconded by Commissioner Jones. Motion carried.

Mr. Hoffman returned to the meeting at 9:57 a.m.

#### ALEXANDER ROSS DITCH EASEMENT REDUCTION

Mr. Spencer explained on the Meijer site two branches of the Alexander Ross Ditch were described, one on the Southeast corner of the site and the other along the West side of the site. After the construction of the site it was discovered the pipe described along the West side of the site is not actually on the Meijer site. Meijer is asking the description of the pipe on the West side be corrected and the easement on the Southeast corner be reduced from 75 feet to 25 feet center of the pipe either side.

Mr. Hoffman stated Mr. Spencer will have to define the easement as only being on the Southeast corner of the site and redefine the easement on the West side of the property.

Commissioner Haan moved to reduce the easement of the Alexander Ross Ditch located at the Southeast corner of the Meijer site from 75 feet to 25 feet either side of the center of the pipe, seconded by Commissioner Jones. Motion carried.

Commissioner Haan moved to direct Mr. Spencer to correct the Survey maps to show the actual location of the Alexander Ross Ditch and document that the ditch does not run through the West side of the Meijer property, seconded by Commissioner Jones. Motion carried.

Commissioner Gentry asked Mr. Spencer to do a field check on the erosion of the Alexander Ross Ditch bank behind Meadowbrook Subdivision.

#### SANWIN APARTMENTS

Bob Grove presented the Board with Sanwin Apartments drainage plan and asked for preliminary approval. Located North of US52 West and East of County Road 250 West, the site consist of 3.11 acres and is planned to include a multi-family development with 63 units and a commercial area along the highway. After review from Christopher B. Burke Engineering consultant a revised preliminary plan was submitted addressing the concerns of the memo. The majority of the site, in the

revised plan, drains to the Northeast and Ken Baldwin will provide a 20 foot easement for a 12 inch outlet pipe that runs from the Northeast corner of the site to the existing McClure Ditch.

Commissioner Haan moved to grant preliminary approval of Sanwin Apartments, seconded by Commissioner Jones. Motion carried.

Cuppy-McClure - update

Mr. Spencer stated the notices for the hearing to be held February 7, 1996 on the reconstruction of the Cuppy-McClure Drain were sent January 2, 1996.

Mr. Spencer stated RUST Environmental & Infrastructure has submitted several proposals for construction inspection.

Commissioner Gentry suggested Mr. Spencer get other bids for the construction inspection or consider in-house inspections.

Being no further business Commissioner Haan moved to adjourn until February 7, 1996, seconded by Commissioner Jones. Meeting adjourned.

DRAINAGE BOARD MINUTES      JANUARY 3, 1996 REGULAR MEETING

TIPPECANOE COUNTY DRAINAGE BOARD  
 REGULAR MEETING  
 FEBRUARY 5, 1997

The Tippecanoe County Drainage Board met Wednesday February 5, 1997 in the Tippecanoe Room of the Tippecanoe County Office Building, Lafayette, Indiana with Commissioner Hudson calling the meeting to order.

Those present: Tippecanoe County Commissioners Kathleen Hudson and Gene Jones, Tippecanoe County Surveyor Michael J. Spencer, Tippecanoe County Drainage Board Attorney Cy Gerde, Engineering Consultant David Eichelberger, and Drainage Board Secretary Shelli Muller.

Commissioner Hudson stated Commissioner Chase resigned Monday February 3, 1997 which created a vacancy in the position of Vice President to the Drainage Board. She nominated Commissioner Jones to fill the vacancy, seconded by Commissioner Jones. Motion carried to elect Commissioner Jones as Drainage Board Vice President.

The first item on the agenda was to approve the minutes from the meeting held December 11, 1996. Commissioner Jones moved to approve the minutes, seconded by Commissioner Hudson. Motion carried.

Commissioner Jones moved to approve the minutes of the last meeting held January 8, 1997, seconded by Commissioner Hudson. Motion carried.

Mr. Gerde asked for the active and inactive ditch list to be placed in the minutes and a motion be made to approve the list.

ACTIVE DITCH LIST 1997

Commissioner Jones moved to approve the active and inactive ditches for 1997, seconded by Commissioner Hudson. Motion carried.

#### 1997 CONTRACTS

##### ENGINEERING CONTRACT

Mr. Gerde stated he commends the contract written for Christopher B. Burke Engineering, Limited, but some verbiage was changed to better protect the County's interest.

Mr. Eichelberger stated the changes will be made and the contract ready for signature at the March meeting.

##### ATTORNEY CONTRACT

Mr. Gerde stated the contract for Drainage Board Attorney is ready for approval and the signature of the Drainage Board. The contract is the same format as Mr. Hoffman's contract with a few changes; date, name and hourly rate changed to \$140.00 per hour also, the last paragraph was added to the contract.

Commissioner Hudson read the paragraph that was added:

"All parties hereto agree not to discriminate against any employee or applicant for employment with respect to his hire tenure, terms, conditions or privileges of employment or any matter directly or indirectly related to employment, because of his race, religion, color, sex, disability, handicap, national origin or ancestry. Breach of this convenient may be regarded as a material breach of the contract."

Commissioner Jones moved to approve the contract for Drainage Board Attorney, seconded by Commissioner Hudson. Motion carried. The entire contract is on file in the County Surveyor's Office.

#### **JAMES N. KIRKPATRICK DITCH**

Mr. Spencer asked that the **James N. Kirkpatrick Ditch** proposal discussion be continued until the March meeting allowing time to fill the vacancy of the third Drainage Board member.

Commissioner Hudson moved to continue the discussion of the James N. Kirkpatrick Ditch proposals until the March Drainage Board Meeting, seconded by Commissioner Jones. Motion carried

#### **OBSTRUCTION OF DRAINS**

Mr. Spencer referred to the following "PETITION TO TIPPECANOE COUNTY DRAINAGE BOARD TO REMOVE OBSTRUCTION IN MUTUAL DRAIN OF MUTUAL SURFACE WATERCOURSE" the "DRAINAGE BOARDS POWER EXTENDED TO PRIVATE DRAINS" article in "Indiana Prairie Farmer" and Indiana Code amendment act No. 1277. All of these documents are on file in the County Surveyor's Office. Mr. Spencer wanted the Commissioners to be aware of and have a discussion on this issue. Mr. Spencer felt this law was to protect against man-made obstructions and asked Mr. Gerde to examine the possibility of the law including natural obstructions.

Mr. Gerde gave an example of where this law could be taken into effect. The first being on North 9th Street Road, north of Burnetts Road, the current condition causes water to travel across the road producing a hazardous condition. The reason for the water across the road is due to drainage problems outside the County Road Right-of-Way.

Mr. Steve Murray, Executive Director, Tippecanoe County Highway Department, stated another persistent problem is 200 South, east of the South fork of the Wildcat Creek. Mr. Murray explained no actual source of funding is available to work on obstruction of drains which do not have a maintenance fund. Mr. Murray asked the Drainage Board to consider creating a fund which would help the Surveyor's Office and the Highway Department to determine what action could be taken. Mr. Murray stated when a problem becomes severe enough the County Highway Department will clean out an obstruction that is off county road right-of-way to protect the road way, but the funds used for the clean-up are funds that could be used elsewhere.

Commissioner Jones stated Steve Wettschurack told him that FEMA was going to help out with the situation on North 9th Street.

Mr. Murray pointed out with the older residential subdivision the storm water system were allowed to outlet into privately owned ravines, there is no funding available to help with maintenance on these situations. If the storm water system becomes plugged or breaks down causing the streets to flood the County Highway Department has repaired the problem, using funds that were not intended for that type of repair.

Mr. Gerde's understanding is that in the majority of those situation the County does not have an easement, which cause a legal problem for the County.

Mr. Spencer stated in all cases where the County has worked out side the easement a complaint was filed therefore the landowners are willing to grant entry onto their land.

#### MARCH DRAINAGE BOARD MEETING DATE

Mr. Spencer explained the March 1997 Drainage Board meeting date needs to be changed, if possible. Mr. Gerde is going to be out of town on the scheduled meeting date of March 5, 1997.

Discussion of the next Drainage Board Meeting, after an agreed date and time, Commissioner Hudson stated the next Drainage Board meeting will be Tuesday, March 11, 1997 at 9:00 a.m.

Being no further business Commissioner Hudson moved to adjourn until Tuesday, March 11, 1997 at 9:00 a.m., seconded by Commissioner Jones. Meeting adjourned.

# TIPPECANOE COUNTY DRAINAGE BOARD

February 4, 1998

regular meeting

## **Those present were:**

Tippecanoe County Commissioners Ruth Shedd, and John Knochel, County Surveyor Mike Spencer, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultant Dave Eichelberger and Drainage Board Secretary Shelli Muller.

The Tippecanoe County Drainage Board met Wednesday, February 4, 1998, in the Tippecanoe Room of the Tippecanoe County Office Building, 20 North 3<sup>rd</sup> Street, Lafayette, Indiana with Commissioner Shedd calling the meeting to order.

The first item on the agenda was to approve the minutes from the October 15, 1997 and December 19, 1997 regular Drainage Board meetings. Commissioner Knochel moved to approve the minutes, seconded by Commissioner Shedd. Minutes Approved.

## **MIKE MADRID COMPANY**

Bob Gross, and Craig Rodarmel of R.W. Gross and Associates, presented the Board with final drainage plans of Mike Madrid Company, located west of I-65, in the northeast portion of the intersection of Swisher Road and the Rail Road. Mr. Gross explained at the south end of the site an existing 15 inch culvert under Swisher Road is the outlet. In the post-developed condition the same 15 inch pipe will be used for the outlet of the site with two sub basin. The sub basin at the north and east sides of the site will outlet into a 12 inch pipe under the driveway and then flow into the 15 inch outlet pipe under Swisher Road. The second sub basin will be at the south end of the site and outlet through a 12 inch pipe with a 4.25 inch diameter orifice on the end to restrict the flow before outletting into the 15 inch pipe under Swisher Road. Mr. Gross explained neither of the two basins will be very deep, but they will be spread over a large area.

Mr. Spencer stated he recommends final approval with the condition the applicant receives approval from the County Highway Department for use of the road right-of-way as site detention.

Commissioner Shedd asked where the emergency overflow will go and who owns the property the overflow will go on?

Mr. Gross stated Mike Madrid Company owns the property for the proposed emergency overflow.

Commissioner Knochel moved to grant final approval of the Mike Madrid Company drainage plan with the condition the applicant receives approval from the County Highway Department, seconded by Commissioner Shedd. Motion carried.

## **DRAINAGE BOARD 1998 CONTRACTS**

### **Attorney**

Mr. Spencer presented the Board with a 1998 contract from Hoffman, Luhman and Busch Law Firm for their services to the Tippecanoe County Drainage Board.

Commissioner Knochel moved to approve the 1998 contract with Hoffman, Luhman and Busch Law Firm, seconded by Commissioner Shedd. Motion carried.

**Engineering Consultant**

Mr. Luhman presented the Board with a 1998 contract from Christopher B. Burke Engineering, LTD. for engineering consultant services for the Tippecanoe County Drainage Board.

Mr. Luhman suggested continuing the 1998 contract with Christopher B. Burke Engineering, Ltd. until some language is included, which is in the agreement from January 3, 1995 contract. Christopher B. Burke Engineering, Ltd. could copy the 1995 contract and update it to include the current rates.

Commissioner Knochel moved to continue the 1998 engineering consultant contract with Christopher B. Burke until the March 4, 1998 Drainage Board Meeting, seconded by Commissioner Shedd. Motion carried.

**1998 ACTIVE AND INACTIVE DITCH LIST**

Mr. Luhman read the 1998 active and inactive ditch list.

**ACTIVE DITCH LIST**

- 4. Delphine Anson    8. Julius Berlovitz    10. Michael Binder    14. Buck Creek

- 92. Jenkins    95. Beutler-Gosma    96. Kirkpatrick One    100. S.W. Elliott

Commissioner Knochel moved to approve the 1998 ditch assessment list, seconded by Commissioner Shedd. Motion carried.

**OTHER BUSINESS**

Mr. Spencer brought to the Board's attention a public notice from the Corp. of Engineers regarding the proposed wetland constructed above a county regulated tile drainage system the **John McCoy Ditch** located south of Wea School along County Road 200 East. Mr. Spencer explained there have been some concern from the property owners in the watershed area with what the Corp. has proposed. Mr. Spencer asked the Board if the County should have an informational meeting regarding the wetland?

Commissioner Knochel moved to have an information meeting with all the effected landowner in the area of the proposed wetland, seconded by Commissioner Shedd. Motion carried.

Mr. Spencer asked if the 30 day requirement for a public notice would be in affect with this meeting only being an informational meeting?

Mr. Luhman stated no, not for an informational meeting because it is not being reconstruted, the assessment is not going to change and there is not going to be any legal affect on the landowners.

**MINUTE BOOK**

Mr. Luhman explained that there was a question as to whether or not a ledger size minute book was required to be used, if not, than could the minute book be changed to a letter or legal size. Mr. Luhman stated he could not find any statue where a ledger size book had to be used.

Commissioner Shedd granted approval to change the size of the minute book from ledger to letter, beginning with the 1998 Drainage Board minutes.

Being no further business, Commissioner Knochel moved to adjourn until March 4, 1998, seconded by Commissioner Shedd. Meeting adjourned.

Commissioner Knochel moved to approve the list of Active and Inactive Ditch Assessment for the year 1999, seconded by Commissioner Shedd. Motion carried.

**WATKINS GLEN SUBDIVISION, PHASE 4, PART 3**

Tim Beyer of Vester and Associates, asked the Board for preliminary approval of Watkins Glen Subdivision, Phase 4, Part 3 located off County Road 400 East. The proposed subdivision consists of 9 lot on a 5 acre site. Mr. Beyer asked for a variance from the Drainage Ordinance that requires on-site detention. The majority of the proposed plan drains to an existing pipe and then to an existing detention facility for Watkins Glen South, Part V. The facility has the capacity to handle the additional runoff of Phase 4, Part 2.

Mr. Spencer recommended granting the variance for no on-site detention and preliminary approval of the drainage plan for Watkins Glen, Phase 4, Part 3.

Commissioner Knochel moved to grant preliminary approval of Watkins Glen, Phase 4, Part 3 and to grant the variance allowing no on-site detention, seconded by Commissioner Shedd. Motion carried.

**SEASONS FOUR SUBDIVISION, PHASE III**

Roger Fine, of John E. Fisher and Associates, asked the Board for approval of the outlet pipe for Seasons Four Subdivision, Phase III. The City of Lafayette requires the project to receive approval from the Tippecanoe County Drainage Board because of the outlet pipe into the **Elliott Ditch**. Mr. Fine informed the Board a DNR permit is pending for work in the floodway.

Mr. Spencer recommended approval of the outlet pipe, subject to the project receiving the DNR permit.

Commissioner Knochel moved to approve the outlet pipe into **the Elliott Ditch** for Seasons Four Subdivision, Phase III, subject to the approval of the DNR permit, seconded by Commissioner Shedd. Motion carried.

Being no further business, Commissioner Knochel moved to adjourn until March 3, 1999 at 10:00 a.m., seconded by Commissioner Shedd. Motion carried.

# TIPPECANOE COUNTY DRAINAGE BOARD

February 9, 2000

Regular Meeting

## **Those present were:**

Tippecanoe County Commissioners Kathleen Hudson, John Knochel and Ruth Shedd, County Surveyor Stephen Murray, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultant Dave Eichelberger and Drainage Board Secretary Doris Myers.

The Tippecanoe County Drainage Board met Wednesday, February 9, 2000, in the Tippecanoe Room of the Tippecanoe County Office Building, 20 North 3<sup>rd</sup> Street, Lafayette, Indiana with Commissioner Kathleen Hudson calling the meeting to order.

The first item on the agenda is to approve the minutes from the January 12, 2000, Regular Drainage Board Meeting and minutes from the January 21, 2000, Special Drainage Board Meeting. Commissioner Knochel moved to approve the minutes of January 12, 2000, Regular Drainage Board Meeting and January 21, 2000, Special Drainage Board Meeting, seconded by Commissioner Shedd. Motion carried.

Commissioner Hudson welcomed Stephen Murray, as new County Surveyor, to his first meeting with the Drainage Board.

## **CROSSPOINTE APARTMENTS SUBDIVISION**

Wm. R. Davis with Hawkins Environmental gave presentation for Crosspointe Apartments Subdivision. This site is located east of Creasy Lane, south of Weston Woods Subdivision and east of the **Treعه Meadows Relief Drain**. The applicant proposes to construct apartments and associated parking. The stormwater management plan for this area was the subject of previous studies conducted as part of the Amelia Avenue extension over the **Treعه Meadows Relief Drain**. Two issues from C.B. Burke Engineering report to be discussed. First issue is ponding of waters on project. The parking lot plans were intended to pond 7" of water. Second issue concerning previously discharge channel that has been schematic approved for the drainage of this site. Their intention is to use this channel for draining this site. If not approved as is a modification can be brought before the board.

Commissioner Hudson asked Dave Eichelberger to explain about the wet bottom ponds.

Dave Eichelberger, Drainage Board Engineering Consultant, stated the previous stormwater management plan indicated that portions of this development would drain to proposed wet-bottom ponds prior to discharging to the **Treعه Meadows Relief Drain**. However, it does not appear these ponds are proposed as part of this subject development on their plans. Are these ponds already in place, are they going to be constructed as part of this project or are they going to have some interim outlet to the **Treعه Meadow Relief Drain** between now and then? If are wanting final approval may need to have condition that proposed ponds are constructed or proposed outlet is approved.

Steve Murray asked Wm. R. Davis what was their intent.

Wm R. Davis commented there is another project that has risen to this area. The project is not moving very rapidly. They want to get these projects temporarily constructed as did in schematic approval of wet-bottom channel as part of this project.

Commissioner Hudson asked if these outlets would be the ones carrying water over parking lot. Answer was no.

Commissioner Hudson asked what was going to be done about the water ponding over the parking lot area.

Steve Murray stated 7" water ponding over parking lot is allowable by ordinance. This is backwater from 100-year flood as composed to conventional ponding for storage in the lot.

Steve Murray asked if there was a duration limit.

Dave Eichelberger stated none that he is aware of.

Commissioner Knochel moved to grant final approval to Crossepoint Apartments Subdivision subject to the outlets being constructed as part of this project, seconded by Commissioner Shedd. Motion carried.

#### **WABASH NATIONAL SITE DETENTION**

Wm. R. Davis with Hawkins Environmental gave presentation for Wabash National Site Detention. This is a 340-acre site located north of C.R. 350 South, between Concord Road and U.S. 52. This is a schematic design for Wabash National and is the second time for reviewing this site. We are trying to come up with an overall plan for final development of Wabash National property. They are not placing structures, etc, but are determining the amount of improved surface they can have, what areas need to be stoned, types of drainage, etc. Currently there is a tile branch of **Elliott Ditch** traversing this property. At present a lot of water stands on this property. We are proposing how to move this water in a developed condition. Will be stoning parts of the property after constructing diversion ditches. Will be removing tile in the **Elliott Ditch** Branch and make open drain. The present detention pond is adequate for future use. Wm. R. Davis is asking for approval of schematic design for Wabash National Site Detention.

Dave Eichelberger suggests preliminary approval of the ditch network and final approval of the continued use of the existing detention pond.

Commissioner Knochel moved to grant preliminary approval of the ditch design for the Wabash National Site Detention and final approval for the drainage pond, seconded Commissioner Shedd. Motion carried.

#### **WILLIAMS COMMUNICATIONS – FIBER OPTIC CABLE**

Harold Elliott with Williams Communications gave presentation to install fiber optic cable communication system. This cable will stretch from Atlanta, Cincinnati, Indianapolis and through Chicago. Part of this system will go through a portion of Tippecanoe County. Have received permits for the road crossings. Had been working with Mike Spencer for permits on drainage ditches. They had sent a letter earlier, recommended by Mike Spencer, explaining what they were going to do. Mr. Elliott stated he thinks they should have a permit due to all the bonding, etc. Mr. Elliott's purpose for being here today is to go over project, find out for sure what they do want, and get bond, etc. ready for the next meeting.

Commissioner Hudson asked Mr. Elliott if he received Dave Luhman's letter.

Mr. Elliott's comment was yes. Mr. Elliott stated they have included what Mr. Luhman asked for. Mr. Elliott had a question on drawing for each ditch. Can they use what we use as a typical ditch crossing with it put to the ditch we are crossing? Instead of a complete profile of each ditch.

Dave Luhman asked if it would be similar to what is used on highways. If so, that would be adequate. Mr. Elliott commented yes. Williams Communications will furnish drainage board with a complete list of where line is as built.

Steve Murray stated he would like Mr. Elliott to give as much information possible to the contractor, so they can narrow down their area to start being aware that there may be a legal drain there.

Mr. Elliott commented there would be a crew out to survey each of the legal drains so contractor knows exactly where they start and will be. They are running a minimum of 42" below ground. Some of the survey work is being done now.

Steve Murray asked if they would trench or plow the lines.

Mr. Elliott stated the plan was to plow. When you go across ditches we know you can't plow. So we will be trenching these lines.

Steve Murray stated they would want the cable trenched not plowed. When you trench you can see turned up broken tiles. When you plow there is no visible evidence of broken tiles. May be 3 to 5 years before drain collapses and backs up. A lot of counties have gone too only allowing trenching now days as opposed to plowing.

Commissioner Knochel stated his concern was when turning up some private tiles who will repair. They want someone who is knowledgeable to do the field tile repair.

Mr. Elliott commented he had talked with Mike and would like for the drainage board to hire someone in our county to act as an inspector to find the legal drains and bill Williams Communications for that service.

Steve Murray commented his concern is finding an inspector. It doesn't matter if the drainage board hires or if Williams Communications hires. Stephen thinks it would be better if drainage board hired the inspector.

Mr. Elliott asked about a pay scale agreement. This can all be worked out when I come back for the next meeting.

Steve Murray asked what is your construction schedule.

Mr. Elliott stated this year, this spring. It depends on all the permits coming in and all the easements that are being required one way or the other.

Steve Murray felt comfortable with this if they are willing to work under the drainage board conditions.

Mr. Elliott suggested the \$5,000 bond might not be large enough. There is more potential damage than \$5,000.

Dave Luhman recommends \$25,000.00 bond. Wait on final draft at the March 1, 2000 meeting for details.

Mr. Elliott will return for the March 1, 2000, meeting with final draft and details.

## **2000 ACTIVE AND INACTIVE DITCH ASSESSMENTS**

**OTHER BUSINESS**

**PETITION FOR ENCROACHMENT ON UTILITY & DRAINAGE EASEMENT LOT 63, RED OAKS SUBDIVISION**

Steve Murray gave presentation of this petition for encroachment on utility & drainage easement Lot 63, Red Oaks Subdivision. The petition for encroachment reads as follows: The undersigned, John L. Maloney, who owns 609 Bur Oak Court, does hereby request permission of the Tippecanoe County Commissioners and the Tippecanoe County Drainage Board to encroach 25 feet into the utility and drainage easement at the rear side of their home on Lot 63, Red Oaks Subdivision, Wea Township, Tippecanoe County, Indiana, as shown on the diagram hereto attached and made a part of this petition. Diagram will be on file in surveyor's office. Stephen commented the real concern is the 25 feet encroachment will be too far down the bank and into the water level. This could be an obstruction if maintenance needs to be done to the bank for erosion purposes or pipe out fall. A 10-foot encroachment will bring to the top of bank. Stephen stated he would not recommend any more encroachment then to the top of the bank.

Commissioner Hudson asked if 10 foot would encroach into the utility and drainage easement.

Steve Murray commented without an actual survey tying the house to the lot lines we wouldn't know for sure. It would appear the 10-foot at the top of bank is roughly the easement line that they want to encroach into. If we do not grant requirement for encroachment they can not go any further than the top of bank.

Commissioner Hudson asked if Bill Augustin of Gunstra Builders was aware of this being on the agenda.

Steve Murray commented he had talked to Bill Augustin this week and thought he was aware of the agenda.

Commissioner Knochel asked if they wanted to build a deck and if it was already built.

Steve Murray answer was didn't believe so. Chris from surveyor's office had been out in the last month and took pictures. No deck was in the pictures.

Dave Luhman asked if they wanted to resubmit this petition for an amendment asking for a lower amount of encroachment. If the Drainage Board denies this petition they can resubmit another petition.

Commissioner Knochel moved to deny request for 25 foot encroachment on utility and drainage easement for Lot 63, Red Oaks Subdivision, Wea Township, Tippecanoe County, seconded by Commissioner Shedd. Motion carried.

**CHICAGO TITLE INSURANCE COMPANY**

Dave Luhman gave presentation regarding request of letter from Drainage Board to Chicago Title Insurance Company. The property is located at 3815 SR 38 E known as the **Kyger Bakery**. There has already been a dry closing on the sale. There are 2 buildings that come within the 75-foot easement. The Chicago Title Insurance Company in order to issue their title insurance need letter from Drainage Board acknowledging that buildings on this property were constructed prior to the requirement of the 1965 Drainage Act and are thus legally located structures and do not constitute illegal encroachments. Have tax records from Fairfield Township Assessors Office that show these structures were built in 1948. Dave Luhman presented Commissioner Hudson with letter on Drainage Board stationery for signature stating these structures were built prior to the requirements of the 1965 Drainage Act and are thus legally located structures and do not constitute illegal encroachments. Dave Luhman has reviewed this with Mr. Bumbleburg, who represents Kyger, and has his approval.

Commissioner Knochel moved president of Drainage Board to sign this letter stating the building were built before 1965 and do not constitute illegal encroachments, seconded by Commissioner Shedd. Motion carried.

Being no further business Commissioner Knochel moved to adjourn meeting, seconded by Commissioner Shedd. Meeting adjourned.

**Tippecanoe County Drainage Board**  
**Minutes**  
**December 10, 2002**  
**Regular Meeting**

**Those present were:**

Tippecanoe County Drainage Board KD Benson President, Ruth Shedd Vice President, and John Knochel member, County Surveyor Steve Murray, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultants Dave Eichelberger from Christopher B. Burke Engineering Limited, and Drainage Board Executive Secretary Brenda Garrison.

**Approval of November 6, 2002 Minutes**

Ruth Shedd made the motion to approve the November 6, 2002 minutes as written. There being no objections, John Knochel seconded the motion and the motion carried.

**Benjamin Crossing Planned Development**

Mr. Pat Sheehan representative of the Schneider Corporation appeared before the Board to present Benjamin Crossing Planned Development Section One for final approval with conditions. The site was located at the northeast corner of County Road 250 East (Concord Road) and County Road 450 South in Wea Township approximately two miles south of the City of Lafayette and made up of farm fields and a small amount of wooded acreage. Pat reminded the Board that conceptual approval was obtained for the overall Development at the October Drainage Board meeting. The 160-acre site would be developed in five (5) phases. Section One (Phase One) included the construction of 205 lots and all of the proposed ponds. Onsite drainage consisted of approximately 160-acres.

The plans showed offsite drainage in Basin W (located south of the site) drained north to a culvert under County Road 450 South unto the site, through Basin C and ultimately to the Kirkpatrick Legal Drain. In addition to Basin W, a larger Basin to the east also collected to the Kirkpatrick Legal Drain and drained through the northeast corner of the site. Approximately 260-acres of overall offsite drainage drained through the site. In response to KD's inquiry, Steve informed the Board a Basin was basically the same as a sub-watershed. Pat then explained that use of Basins was an easier way to track drainage through a site.

In the proposed conditions, Section One would consist of three (3) ponds. These ponds would collect and detain the site's stormwater, then discharge to two locations. The northeast location would contain a temporary 6-inch outlet to restrict the flow to the regulated drain tile until future phases of the Kirkpatrick Ditch Regional Detention System were completed. It would be designated as a Regional Detention Facility. The pond depth would be 10 foot from the water surface. Currently within a ten-year existing condition there are approximately 40cfs, the temporary outlet would limit that to 2cfs, a substantial reduced peak discharge. The flows, collected in a small pond at the northwest portion of the site, would utilize an orifice plate to reduce the outflow to a 30-inch RCP shown extended 1,096 feet to the Concord Road Bridge. Once the final section is developed a new outlet would be installed and the temporary tile would be removed. As part of the project, an easement with the landowner to the north had been acquired for the possibility of an overland drainage system. Pat and Bill Davis had met with Mr. Standifur to review the drainage portion of the plans.

Pat requested preliminary approval for the whole site layout and final approval for Section 1 with conditions as noted in the December 5<sup>th</sup>, 2002 Burke memo. Steve stated his concern was detention ponds outletting into County Regulated Drains or private tiles. Historically this had not been done. Consideration was given in the planning of this development of the Kirkpatrick Upstream Concord Reconstruction. He recommended approval for the release on a temporary basis for Section One. He stated he did have concerns for conceptual approval for the subsequent sections/ phases and did not feel it would be prudent to approve them at this time. He asked if an easement had been obtained for the outlet of the northwest pond. Pat responded that an easement was obtained. Number six on the Dec. 5<sup>th</sup> Burke memo, should be corrected to read ... **is required** to clarify instead of applicant **should** clarify.

At that time the Surveyor recommended final approval with conditions and change thereof to Benjamin Crossing Planned Development Section 1. Ruth Shedd moved for final approval for Section One of Benjamin's Crossing Planned Development with conditions and correction to number 6 on the December 5<sup>th</sup> Burke memo. John Knochel seconded the motion and the motion carried.

**Steve Murray**

*Maintenance Bond*

Steve presented a Maintenance Bond from A&K Construction Inc. #5855821 in the amount of \$4950.00 that covered Drainage Improvement, Swales and Erosion Control outside the Public Right of Way for Saddlebrook Subdivision Part 3 Phase 3. At that time he recommended acceptance of the Bond. Ruth Shedd moved to accept the Maintenance Bond for Saddlebrook Subdivision Part 3 Phase 3 from A&K Construction. John Knochel seconded the motion and the motion carried.

*Petition to Remove Obstruction /Baxter*

Steve requested continuance until the next meeting of the petition; more work was needed before presenting his findings to the Board. KD directed the secretary to put it on the next meeting's Agenda.

*Release of Easement*

A drainage request had been received from Vester & Associates for River Bluffs Subdivision Part 2 and Replat of Lot 13 Part 1, River Bluffs Subdivision Part 4 and replat of Lot 16-18 Part 1. Discussion was held with the Attorney concerning the request and as they were no representatives in attendance, the Board chose to table it until the next meeting. Ruth Shedd moved to table the Request and John Knochel seconded the motion.

*Memo to Board*

Steve read to the Board Indiana Code #36-9-27-42 that covered a one time twenty five percent increase to regulated drains in need. The code applied to drains on assessment and that had been through the hearing process. The one time increased rate may be raised the noted percentage. He then presented to the Board a list of drains that qualify. Discussion was held concerning the list and Steve asked the Board to review and be prepared to make a decision at the January meeting. He stated he would be happy to sit down with them and review each one on the list before then. He stated many drains were in the red and needed to be dealt with accordingly. Steve then conferred with the Attorney concerning the Waiver of Rights by a County where joints drains are involved. Dave confirmed on those drains which a County had waived their rights, then a joint drainage meeting for a one time increase would not be necessary. He hoped to have a list of those drains in need of Reconstruction, in need of Assessment Increase and those in need of Reclassification to Urban Drains. Typically Urban Drains have a per acre assessment for farmland and a per lot assessment for residential. The Berlovitz Drain was an example of such a drain that would fall under the requirements for an Urban Drain status. Bill Easterbrook had presented the Surveyor with a bill for tile maintenance on the Ray Skinner Drain and Steve asked the policy of the Board for payment of repairs on drains. Ruth Shedd stated the Board should only pay for maintenance on that part of the drain which is under assessment.

**OTHER BUSINESS**

Mr. Malsbury from Lauramie Township approached the Board to discuss the condition of the Elijah Fugate Drain #30 and gave his support to Steve for the increase of assessment if proposed and encouraged the Board to look at the Drainage in Lauramie Township as a whole. Steve then reviewed for the Board the location and condition of the Elijah Fugate tile as well. There was approximately 3000 feet of tile broken down. A petition for Reconstruction had been presented to the Surveyor's office. The watershed acres involved were 822.

2003 Meeting dates and time

The Board and Surveyor, decided upon the first Wednesday of each month for 2003, as being the Drainage Board's monthly meeting day and 10 a.m. as the time. The January meeting would be held on the 8<sup>th</sup> due to the New Year holiday.

Ruth Shedd then moved to adjourn the meeting and John Knochel seconded the motion. There being no objections, the meeting stood adjourned.

John Knochel, Member

**Tippecanoe County Drainage Board**  
**Minutes**  
**April 23, 2003**  
**Moses Baker Regulated Drain**  
**Special Hearing**

**Those present were:**

Tippecanoe County Drainage Board President Ruth Shedd, John Knochel Vice President, and KD Benson member, County Surveyor Steve Murray, Drainage Board Attorney Dave Luhman, GIS Technician Shelli Muller and Drainage Board Executive Secretary Brenda Garrison.

Ruth Shedd called the Special Hearing to order and referred to the Surveyor Steve Murray.

The Surveyor thanked those in attendance and began his presentation by stating the hearing was called in response to a landowners petition submitted to his office on February 18, 1998 requesting a maintenance fund be established for the Moses Baker Regulated Drain located in Lauramie Township, Tippecanoe County and northwest of the Town of Stockwell. The Drainage Board referred the petition to the Surveyor for follow-up. The petition was signed by approximately fifty-five percent (55%) of the owners of the acreage located within the watershed. He stated the statute required ten percent (10%). A maintenance report had been completed and filed, along with the assessment list of those landowners within the watershed. The estimated cost for maintenance and repair was spread among those landowners within the watershed.

The Moses Baker Drain was originally established in Tippecanoe County Circuit Court, Case Number 2878 in 1883, rebuilt and extended to and through the E.M. Platt Ditch in County Commissioner's Court 1938, Commissioners Record 38 Page 471 et seq. Specifically in Sections five (5) through ten (10), fifteen (15) through eighteen (18), twenty-one (21) and twenty-two (22), T21N, R3W and Sections twelve (12) and thirteen (13), T21N, R4W.

Hearings were held on November 3, 1971 and January 3, 1973 to establish a maintenance fund. The conclusion of the first hearing was landowners would pool their own money and improve the ditch after which they would refer back to Board for review again. On January 3, 1973 a second meeting was held. Due to a balance in the private fund of approximately \$2000.00, the Board informed the landowners once the monies were depleted, a hearing would be held to establish county maintenance and assessment. At that time the assessment proposed was \$1.00 per acre. He then stated for whatever reason, it had fell through the cracks. Thus the reason for today's hearing.

Two different proposals were prepared for the hearing. The proposed rates were \$3.00 per acre over an eight-year period, or \$6.00 per acre over a four-year period. The statute allowed for an eight-year accumulative total before the fund would go inactive. To date most of the landowners preferred the eight-year proposed rate of \$3.00 per acre that generated approximately \$75,000.00 for the fund. The Surveyor's estimate of approximately \$75,200.00 would take care of the cleaning and brushing, repair some private tile, outfalls and bank erosion work. He felt the ditch was in fair condition, but would require some maintenance work in isolated spots.

The total watershed acres were 4685 acres that included two sub-watersheds. The Ray Skinner Drain and the Gustav Swanson Drain were the sub-watersheds within the overall watershed of Moses Baker Ditch. During the hearings of the seventies, the general consensus was to keep the two watershed assessments separate from the overall watershed assessment. After discussion with owners within the overall watershed, it was determined to keep the sub-watershed assessments separate and only include the acreage outside the sub-watersheds for this assessment. Therefore the total acreage for the Moses Baker Ditch Assessment excluding the sub-watershed assessments was 3130.058 acres.

Three laterals were included in the maintenance report and the estimate by the Surveyor. The Headwall Tile Branch contained approximately 3484 feet of tile and was located in Section 15 and 16, Township 21N and Range 3W. The Osborn Tile Branch contained 2400 feet of tile and was located in Section 13, Township 21N and Range 4W. The South Branch contained approximately 3800 feet of tile and was located in Sections 21 and 22, Township 21N and Range 3W. The ditch ultimately ran into a branch of Wea Creek.

A slide show was prepared to better inform the Board and attendees of the Ditch's condition at present. The pictures presented represented a normal flow of water. Several of the slides showed areas of grass bars, settlement deposits and erosion of the outer banks. The flow of the channel had made its way around grass bars and sediment deposits, causing erosion of the outer banks. Slides showed the outlet of the Swanson Drain partially obstructed and the Skinner Ditch outlet to be partially submerged. There were some older bridges that could be taken out, to increase the function of the ditch, if the landowners were favorable. Due to sever bank erosion approximately 1000 feet upstream of 500E, landowners had dumped stone and debris in the ditch to help stabilize it. At the completion of the presentation the Surveyor invited comments from the Board and the attendees. Commissioner Benson asked if INDOT would be involved with the maintenance of the culvert at State Road 28. Steve stated not necessarily as the maintenance actually needed done was on the tile not the culvert under the State Road. Commissioner Benson stated the culverts appeared to be oversized due to the water table at that time. The Surveyor asked Mr. Osborn if he had ever seen the ditch to be half to three quarters full. Mr. Osborn responded he felt the culverts were adequate for a normal rainfall and had at times ran full. Ruth Shedd then opened the hearing up for comments from the attendees.

John Mandeville representing the Margaret Sears Trust approached the Board and asked how far back from the eroded ditch banks would the County repair? The Surveyor explained private outlet pipes would be repaired and riprap would be used to assist in stabilizing the banks. The bank's medium to worse spots would be repaired. A phase-in program would be utilized that would assist in decreased damage to the banks. Rock chutes would be installed just below the top of the banks back twenty-fifty feet. The purpose of the assessment was to take the burden off of one or two property owners and spread the cost over all the benefited landowners. Mr. Mandeville asked for assurance the assessments on the two sub-watersheds would remain separate and the landowners would not be assessed within this assessment. The Surveyor assured Mr. Mandeville the assessments to be filed with the Auditor would not include the landowners within the sub-watersheds. He stated as representative for the Margaret Sears Trust, the \$3.00 per acre for eight years was the preferred option.

Mr. Tom Osborne informed the Board he had reviewed the ditch with the previous Surveyor and carried the petition to the landowners himself. In the past landowners got together and pooled their monies to maintain the drains, however those times were gone and the drain was in need of maintenance. He stated most of those landowners he had spoke with were in favor of the eight-year option of \$3.00 per acre. Commissioner Shedd asked if a fund was in existence and the Surveyor replied there was not a fund at present. Mr. Osborne expressed concern for the large headwalls in poor condition and Steve assured him they would be repaired as previously stated in his report.

Mrs. Skinner representing the John Skinner Trust stated she preferred the eight-year \$3.00 per acre option also. At that time Commissioner Shedd asked for any other comments.

The Surveyor stated his office received no objections before this hearing. He stated by letter or verbally forty four percent (44%) of the acreage within the watershed had been confirmed to be in favor of said assessment. He reiterated the Board had, in 1973, concluded once the private funds were depleted, the landowners were to approach the Board again for an established maintenance fund. Due to the increased costs of construction, the \$1.00 per acre recommended in the past hearings would not be sufficient. He felt there was well over fifty percent (50%) in favor of establishing a maintenance fund. He strongly recommended the Board to adopt the \$3.00 per acre for eight years, which would allow accumulation of funds. The maintenance would be phased over a period of four to six years. He stated there were no returned notices by landowners within the watershed. At that time the Surveyor turned the hearing over to the Board's attorney.

Mr. Luhman stated he felt that due to the delay in taxes this year, the assessment could possibly start in May of 2003. The Board agreed. He then read the Findings and Order of the Tippecanoe County Drainage Board.

## **BEFORE THE TIPPECANOE COUNTY DRAINAGE BOARD**

### **IN THE MATTER OF THE MOSES BAKER:**

#### **FINDINGS AND ORDER (ANNUAL MAINTENANCE)**

This matter came to be heard upon the maintenance report and schedule of assessments prepared by the Tippecanoe County Surveyor and filed on March 21, 2003.

Certificates of mailing of notice of the time and place of the hearing, to all affected landowners, were filed. Notices of publication of the time and place of the hearing, in the Journal & Courier and the Lafayette Leader, were filed.

Remonstrances were not filed.

Evidence was presented by the Tippecanoe County Surveyor and many of those landowners affected were present. A list of those present is filed herewith.

After consideration of all the evidence, the Board does now FIND THAT:

- (1) The maintenance report of the Tippecanoe County Surveyor and schedule of assessments were filed in the office of the Surveyor on March 21, 2003.
- (2) Notice of filing of the maintenance report and the schedule of assessments and their availability for inspection and the time and place of this hearing was mailed to all those landowners affected more than thirty (30) and less than forty (40) days before the date of this hearing.
- (3) Notice of the time and place of this hearing was given by publication in the Journal & Courier and the Lafayette Leader, newspapers of general circulation in Tippecanoe County, Indiana more than ten (10) days prior to this hearing.
- (4) The legal drain consists of approximately 25,300 feet of open ditch and approximately 9684 feet of tile branches.
- (5) The present condition of the ditch and tile branches are in need of repair as described in (6).
- (6) The ditch needs the following maintenance at present: The open ditch requires general brushing, cleaning and excavation of the channel, bank repair and stabilization, and tile outlet repair. The tile branches need spot repairs and replacements.
- (7) There is now \$0.00 owed to the General Drain Fund for past maintenance on this ditch.
- (8) The ditch and tile branches covered by this Findings and Order drain 3130.058 acres. The overall Moses Baker watershed contains 4685.346 acres, and 3130.058 acres remain after deducting the G. Swanson and the R. Skinner drains, which are currently under assessment.
- (9) Estimated total cost of maintenance is \$75,200.00. The annual cost of maintenance is \$9,400.00.
- (10) Estimated annual benefits to the land drained exceed the repair and maintenance costs.
- (11) A fund for annual maintenance should be established.
- (12) In order to provide the necessary maintenance fund, the annual assessment per acre benefited should be: \$3.00 per acre for eight years.
- (13) The assessment list filed herewith should not be amended.
- (14) The assessment list filed herewith is fair and equitable and should be adopted.
- (15) The assessment should be collected with the 2003 taxes.

**FINDINGS AND ORDER (ANNUAL MAINTENANCE) CONT:**

**NOW, THEREFORE, IT IS ORDERED THAT:**

- (1) A maintenance fund be established for the Moses Baker ditch at the annual rate of \$3.00 per acre.
- (2) The Schedule of Assessments filed herewith are adopted and made a part thereof.
- (3) The first annual assessment shall be collected with the 2003 taxes.

**DATED** at Lafayette, Indiana this 23<sup>rd</sup> day of April 2003.

**COUNTY DRAINAGE BOARD:**

\_\_\_\_\_  
Ruth Shedd, President

\_\_\_\_\_  
John Knochel, Vice President

\_\_\_\_\_  
KD Benson, Member

**ATTEST:**

\_\_\_\_\_  
Brenda Garrison  
Tippecanoe County Drainage Board

At that time, Dave requested a motion to adopt the Findings and Order Statement as read with amendments. Commissioner Benson made the motion to adopt the Findings and Order Statement as read with the amendments and Commissioner Knochel seconded the motion. The Findings and Order Statement by the Board was adopted.

The next order of business was to authorize the secretary to the Board to certify to the Auditor the annual assessments; subject to the condition no appeals were filed within the twenty-day waiting period following public notification. Commissioner Knochel made the motion as stated. Commissioner Benson seconded the motion and the motion carried. The Moses Baker Drain Assessment of \$3.00 per acre for eight years was adopted.

Commissioner Knochel moved to adjourn the meeting and the meeting was adjourned.

Tippecanoe County Drainage Board

**Tippecanoe County Drainage Board**  
**Minutes**  
**July 2, 2003**  
**Regular Meeting**

**Those present were:**

Tippecanoe County Drainage Board President Ruth Shedd, John Knochel Vice President, and KD Benson member, County Surveyor Steve Murray, Drainage Board Attorney Dave Luhman, Drainage Board Engineering Consultant Dave Eichelberger from Christopher B. Burke Engineering Limited, and Drainage Board Executive Secretary Brenda Garrison. The Surveyor's Office Project Manager Zachariah Beasley was also in attendance.

**Approval of June 4<sup>th</sup>, 2003 Minutes**

John Knochel moved to approve the June 4<sup>th</sup> 2003 minutes as written. KD Benson seconded the motion on condition the signature blocks were changed to reflect the 2003 officers.

**Winding Creek Section 2**

Mr. Paul Coates from C&S Engineering representing Winding Creek Development LLC approached the Board to present Winding Creek Subdivision Section 2 for final approval. The project would provide an additional 55 single-family residential lots on 36 acres. The site was located at the southeast corner of the overall Winding Creek Development that extended along the north side of County Road 500 North between County Roads 50 West and 75 East in Tippecanoe Township. The overall drainage plan was previously granted preliminary approval at the December 18, 1998 Drainage Board meeting. Runoff from the North half of Section 2 would discharge to an existing 24-inch diameter storm sewer that extended westward from the rear yard of Lot 158 and would discharge directly to a tributary of Burnett's Creek. Runoff from the South half of Section 2 would discharge to the Burnett's Creek tributary. Runoff from a portion of the developed lots along the east property line would drain uncontrolled to the north and east.

The Board recognized Mr. Tim Wells County Highway Engineer. Tim noted while the report had taken in account the 27 acres of offsite drainage, he was concerned how the drainage crossed 500 North. He stated there had been some drainage problems on the south side. Mr. Murray clarified the inquiry to Mr. Coates as the following: "If you've accommodated the 27 acres and the 100 year flow from it, how have you routed it through your system?" Mr. Coates responded as follows: "Storm drainage calculations were included in the plan. A pipe was not designed obviously for the 100-year flow itself. Typically a culvert pipe is designed for a fifty-year storm. However we have allowed for the collection of the runoff. A pipe was not located at that location, but we have taken a pipe up to the right of way line and actually a little further south that would allow for a pipe to be put in and handle any water from the south side." The Surveyor stated, the question was how would they pass the 100-year flow? A series of swales over the pipe and, or through the property to accommodate the flow was required for the 100-year flow- if it not completely passed through a pipe. The sight to the south once developed would be required to detain as everyone else and this should lessen the flow. The Surveyor also stated the County Highway would like to install a culvert at that location at some point. In particular the County Highway was concerned once a culvert was installed at that location, that there would be a positive fall from the new downstream invert so that it would pass through Winding Creek. He stated the construction plan review addressed these issues as well as others and would be resolved before actual construction began. He wanted to insure the situation was understood and the requirements would be met. Mr. Wells stated that Highway would work with Mr. Coates to insure no constriction would happen.

At that time the Surveyor stated conditions 4,6,7 on the June 27<sup>th</sup>, 2003 Burke memo still needed to be met. In addition "Condition Eight (8) " should read as follows; "The applicant must address the excess of seven inches of ponding in the street at lots 159 and 160. " He then stated the County Highway would direct the applicant concerning this issue. Tim Wells stated he would insure the ordinance would be complied with and his office would review the design. The Surveyor then stated an additional "condition Nine (9)" as follows; " Drainage Easements would be required from the storm sewer outlets to the detention pond, and to include a drainage easement around the detention pond."

At that time the Surveyor recommended final approval with the conditions 4,6,7 listed on the June 27<sup>th</sup>, 2003 Burke memo and also to include conditions eight (8) and nine (9) as stated. John Knochel moved to grant the final approval of Winding Creek Section 2 with the conditions listed on the June 7<sup>th</sup>, 2003 Burke memo along with additional conditions number eight (8) and number nine (9) presented by the Surveyor. KD Benson seconded the motion and the motion carried.

## **PETITON TO VACATE A PLATTED EASEMENT**

Mr. Matt McQueen of the Ball Law Firm representing landowner Ronald Baker addressed the Board concerning a petition to vacate a platted easement in Willowood Subdivision. The easement pertained to drainage, utilities and access. It involved Lot Twenty-Seven (27) in Willowood East Subdivision Part IV Phase One (1), and also twenty-five feet (25') of Lot Twenty-Eight (28) in Willowood East Subdivision Part IV, Phase Two (2). Platted in part of the Northwest Quarter of Section Twelve (12) Township Twenty-Three (23) North and Range Four (4) West. Mr. McQueen stated a hearing date was set for July 21, 2003 at the Commissioner's meeting. The Commissioners had previously directed Mr. McQueen to appear before the Drainage Board for review.

The Surveyor presented a map and digital photos of the area today for the Board to review. While the Crist - Fassnacht regulated drain ran through the plat of the Subdivision, the Surveyor felt it had no bearing on today's request. Mr. Murray stated his office did not have any objections for the drainage part of the easement being vacated. He reiterated this would pertain to the fifty-foot (50') easement in question and did not include any regulated drain easement that may extend over the area.

Mr. John Knochel moved to grant approval of the easement vacation in Willowood Subdivision as presented. KD Benson seconded the motion and the motion carried.

## **OTHER BUSINESS**

### ***Ray Skinner Ditch- Lauramie Township***

Mr. Tom Osborn of Lauramie Township approached the Board to discuss the drainage problems in Stockwell. Since the new Sanitary Sewer system would not be in place until sometime in late 2004 or early 2005, he wanted to inform the Board of an immediate need. There were five or six houses blocked off on a tile branch of the Ray Skinner drain. However that branch was not part of the legal drain maintenance at this time. Known blockage existed for lots 1,2,3, and 16. Tom stated more lots might be affected. Mr. Osborn requested funds for jetting open the tile.

The maintenance fund of the Ray Skinner Ditch covered only the portion that crossed 900S and up near the School property at the northwest corner of Stockwell. The Surveyor noted at one time it appeared to be part of the court drain system. When the assessment was set up in 1970's the specific description was 500 feet of open ditch and 3700 feet of tile in the main ditch. This did not cover the tile in question.

Mr. Ron Knowles from the County Health Department approached the Board at that time. Mr. Knowles reiterated the immediate need for financial assistance. Mr. Knowles stated the tile was a combination of storm and sewer. Currently septic tanks had direct discharge into the tile. Other than jetting out the tile, the only alternative would be to put the homes under a pump and haul order. (Pumping their tanks frequently) He stated the tanks were lock joint tanks approximately 250 gallon apiece. That alternative would be financially disruptive to the homeowner. Presently, the tile was blocked and not draining properly. Consequently homeowners were unable to use their facilities. With the present condition of the tile, soon they would not be able to live in their homes due to sewer backup. Mr. Knowles stated the new sanitation system should be operating in early 2005 at the latest.

In addition Mr. Osborn reviewed the need to include the tile branch, which outlets into the Ray Skinner Ditch, with the assessment of the Ray Skinner Ditch for proper maintenance of drainage of that area. While most of the landowners in Stockwell were presently being assessed on the Ray Skinner ditch, some of the landowners are paying into a maintenance fund on the Moses Baker Ditch located at the south side of town.

KD Benson inquired as to the outlet for the tile in question and if it was posted as contaminated, the Surveyor informed her it outlets to Moses Baker Ditch and the ditch is posted with warning signs. Ruth Shedd then asked if the branch tile had always routed to the Skinner ditch. The Surveyor confirmed it had. Through the years, the County Highway had worked on that part of the tile, which was in the right of way. The Surveyor had spoke with Mr. Bill Easterbrook, Lauramie Township Trustee, concerning maintenance work that had been done on the tile branch and it was determined to not be part of the assessed portion of the drain. Therefore reimbursement was not available.

The Surveyor asked Mr. Osborn if the catch basin was full of sediment or water. Mr. Osborn replied it was full of water. KD stated since the funds were unavailable from the Drain Maintenance accounts, the commissioners would review other funds for the immediate need. The Surveyor stated he appreciated the time and money Mr. Osborn had spent on this problem and

was willing to help in any way, however his office was limited to the restraints of Indiana Code. Mr. Knochel stated possibly monies could be used from the Highway department or another source. Mr. Osborn stated while it was a tough situation, something had to be done as soon as possible for these homeowners. KD stated landowners could be without their homes if this situation was not taken care of. In response to the Surveyor's inquiry, Mr. Osborn stated, while tree roots were blocking some of the tile, the tile itself was not in bad shape. The Surveyor stated Mr. Osborn would be provided with a map of the tile route upon the closing of the meeting.

Mr. Osborn stated he would be willing to carry a petition to include the branch of the Ray Skinner ditch in question around to the affected landowners if that would help the situation. He felt it would assist in funding for future maintenance of the branch after the sanitation system was in place. The Surveyor stated the Board would entertain any petition that was presented. He stated due to the tax for the new installation of the system, he felt they would be hard pressed for an additional tax on drain tile maintenance. Mr. Osborn stated he felt they would be willing to pay the tax due to the many problems they have encountered to date. Mr. Osborn also stated he was concerned that in the future more problems could arise and there again the monies would not be available for required maintenance. Responding to Ruth's inquiry, the Surveyor stated all but one section, which cut across the corner of a couple lots, ran along the road. He suggested it might be possible for the County Highway to hire someone to look at the area. Ruth stated a Commissioner's meeting was scheduled for the upcoming 21<sup>st</sup> of July, at which time a review of possible funding sources would take place. KD asked Mr. Osborn about the amount of cost involved and he estimated approximately \$1000.00. The Surveyor stated he would also confer with the County Attorney. He asked for clarification of the type of sewer system to be installed and if it would be affected by ground water. Mr. Knowles answered, "It would be a vacuum type system and due to the shallow installation, would not be affected by ground water." Ruth then stated the Board would keep Mr. Osborn, Mr. Knowles from the Health Department and the Surveyor informed of the situation.

#### ***Restrictive Covenants / Homeowners Associations***

The Surveyor informed the board of an issue that kept occurring. While the Board requires covenants to be set up by a Homeowners Association for collection of fees (relating to maintenance of their detention ponds, storm sewer facilities outside the road's right of way, etc.) it appeared that well over fifty percent (50%) of the time it was not implemented. Once lots were sold, without one hundred percent (100%) of the lot owners in agreement, a Homeowners Association was near impossible to set up. He would discuss this with the County Attorney and explore avenues to insure the Associations were being formed.

As there was no public comment, John Knochel moved for adjournment. KD Benson seconded the motion and the meeting was adjourned.

KD Benson, Member

**Tippecanoe County Drainage Board**  
**February 1, 2017**  
**Regular Meeting Minutes**

**Those present were:**

Tippecanoe County Drainage Board Vice President David S. Byers, member Tracy Brown, County Surveyor Zachariah Beasley, Drainage Board Attorney Doug Masson, Drainage Board Secretary Brenda Garrison and Drainage Board Engineering Consultant Dave Eichelberger from Christopher B. Burke Engineering LLC. Evan Warner-G.I.S. Technician and James Butcher-Project Manager, both with the Surveyor Office, were also in attendance. President Thomas P. Murtaugh was absent.

**Approval of Minutes**

Tracy Brown made a motion to approve the January 4, 2017 regular Drainage Board Minutes as written. David Byers seconded the motion. Motion carried.

**Franklin Yoe #90 Regulated Drain/ G. Swanson #76 Regulated Drain Maintenance Bid(s) Opening**

David Byers referred to the Attorney for the reading of the submitted bids regarding the Franklin Yoe #90 Regulated Drain and the G. Swanson #76 Regulated Drain Maintenance Projects. Attorney Masson read the following:  
Regarding the Gustav Swanson Regulated Drain #76 Maintenance Project the bids were as follows:  
Tony Garriott submitted a bid in the amount of \$49,595.80; ADI submitted a bid in the amount of \$14,594.00; Huey Excavating submitted a bid in the amount of \$24,672.00

Attorney Masson recommended the bids be taken under advisement. Tracy Brown made a motion to take the submitted bids under advisement. Once bids were reviewed for compliance by the Surveyor's office Project Manager, the Gustav Swanson #76 Maintenance Project bid could be awarded at the end of the meeting. David Byers seconded the motion. Motion carried.

Attorney Masson read the Franklin Yoe Regulated Drain #90 Maintenance Project bids as follows:  
ADI submitted a bid in the amount of \$18,563.00; Tony Garriott submitted a bid in the amount of \$33,234.56 Attorney Masson recommended the bids be taken under advisement. Tracy Brown made a motion to take the submitted bids under advisement. Once the bids were reviewed for compliance by the Surveyor's office Project Manager, the Franklin Yoe #90 Maintenance Project bid could be awarded at the end of the meeting. David Byers seconded the motion. Motion carried.

**Drainage Board 2017 Professional Engineering Assistance Contract**

David Byers referred to the Surveyor regarding presentation of the 2017 Drainage Board Professional Engineering Assistance Contract. Surveyor Beasley noted he as well as Attorney Masson had reviewed the contract. He stated contract's rates had not changed from the past 3-4 years and he saw no additional changes. He recommended approval by the Board. Responding to Tracy Brown's inquiry, the Surveyor stated this was indeed at a cost savings to the county. He had previously in years past reviewed this issue. The cost for the services was approximately \$75,000 annually versus a minimum of \$130,000 cost for the exact work by an office staff member. Tracy Brown made a motion to approve the Drainage Board Engineering Assistance Contract as presented by the Surveyor. David Byers seconded the motion. Motion carried.

**Lafayette YMCA**

David Buck from BFS appeared before the Board to present the Lafayette YMCA for drainage approval. The site was located within the City of Lafayette at the existing Point East Mobile Home Park. The Board would review this project today for drainage purposes only. Mr. Buck stated a Petition to reduce the drainage easement on the S.W. Elliott Branch #13 was submitted for approval as well. The reduction in the drain maintenance easement would leave a 30 foot easement for maintenance of said branch. He noted they had received the January 12, 2017 Burke memo and was in agreement with the conditions as noted. He requested approval at that time for both the Petition and the project's drainage.

The Surveyor stated the Board's actions today were to approve the aforementioned Petition and the project's drainage only. He noted the project site drained to Branch #13 of the S.W. Elliott drain and continued southwest along Creasy Lane and eventually to the F-Lake Detention Basin. He recommended approval to the Board for the Petition to Reduce the Easement on the S.W. Elliott Branch #13 Drain as well as approval per the January 12, 2017 Burke memo recommendation. Tracy

presented. David Byers seconded the motion. Motion carried. Tracy Brown then made a motion to approve the Lafayette YMCA per the January 12, 2017 Burke memo recommendations. David Byers seconded the motion. Motion carried.

#### **Belle Tire (Lot 4A 26 Crossing Subdivision)**

Kyle Betz of Fisher and Associates appeared before the Board to request approval for the Belle Tire project. The site was located within the City of Lafayette and more specifically on Lot 4A in 26 Crossings Subdivision approximately ¼ mile from the interchange of I-65 and SR26. The site consisted of approximately 0.94 acres. This site was adjacent to the Alexander Ross Detention Basin. The site would drain entirely to the F-Lake detention facility. He stated they agreed with the January 25, 2017 Burke memo and requested approval for the project. The Surveyor stated the project had been reviewed and noted calculations were missing from their submittal. David Eichelberger stated calculations for the detention storage were not provided to date and that would need to be provided as soon as possible. The Surveyor agreed with the Consultant and reiterated those calculations should be provided and his recommendations were contingent on this. Mr. Betz agreed to review the report and provide those calculations to the Consultants as soon as possible. Tracy Brown made a motion to grant conditional approval as stated in the January 25, 2017 Burke memo. David Byers seconded the motion. Motion carried.

#### **USGS Geological Stream Gages WREC Contract Support**

Stan Lambert from Wabash River Enhancement Corp. (WREC) appeared before the Board to request financial and administrative support of the stream gages contract with the USGS Geological Services. He stated he was requesting to share the cost of the USGS Stream Gage Contract with the Tippecanoe County Partnership for Water Quality (TCPWQ). The streams were: Little Wea at Co. Rd. 800S, S.W. Elliott Ditch at old Romney Road and Little Pine Creek at Co. Rd. 850E with the contract covering the period of Jan. 23, 2017 through Sept. 30, 2017. He noted the data collected would be available on the USGS stream monitoring site on an hourly basis. This information was used as part of Water Quality monitoring by WREC and Purdue University. He noted Sara Peel from his office presented this to the TCPWQ and was given approval by their Board to go forward with support. The Surveyor stated he would review the TCPWQ Board minutes as the MS4 Coordinator to confirm the TCPWQ's intention was to contribute up to \$10,000.00 toward the overall cost of the contract. Tracy Brown made a motion to approve the contract amended \$10,000.00 amount as submitted with the condition the Surveyor as MS4 Coordinator confirms the TCPWQ support. David Byers seconded the motion. Motion carried.

#### **Franklin Yoe#90 Regulated Drain/ G. Swanson #76 Regulated Drain Maintenance Bid(s) Award**

Tracy Brown referred to Attorney Masson for the results of the submitted bids on the F. Yoe #90 and G. Swanson #76 Drain Maintenance Projects. Attorney Masson stated the bids were in order and the recommendation was to accept the low bid on each project. Tracy Brown made a motion to grant approval of the bid from ADI regarding the Gustav Swanson #76 and the F. Yoe Regulated Drain #90 Maintenance Projects as the low bidder on each project. David Byers seconded the motion. Motion carried.

#### **2017 Classification Report/2017 Drain Assessment Activity Report**

The Surveyor presented an active and inactive drain assessment list regarding county regulated drains with maintenance funds for approval by the Board. He reviewed the annual process for the Board. Tracy Brown made a motion to approve the Active Inactive Drain list as submitted by the Surveyor. David Byers seconded the motion. Tracy Brown made a motion to approve the 2017 Classification Report provided by the Surveyor. David Byers seconded the motion. Motion carried.

#### **Zach Beasley/Other Business**

##### **Appointment of Drainage Board member to Tri-County Board**

The Surveyor stated he was contacted by Benton County Surveyor David Fisher regarding the Sophia Brumm Joint Drain. The landowners have requested a joint meeting to discuss reconstruction of several lineal feet of the tile within the S. Brumm Drain watershed. The proposed time was February 21, 2017 at 10:00 a.m. at the Benton County Courthouse. An appointment from this Board was requested. David Byers noted there was a Commissioner Meeting at the same date and time. Tracy Brown made a motion to appoint Commissioner David Byers to the Sophia Brumm Tri-County Drainage Board as requested pending a new date and time is set due to conflict. David Byers seconded the motion. Motion carried.

##### **Outstanding Reconstruction Assessments**

The Surveyor informed the Board the five year reconstruction payment cycle was coming to a close on a few of the drain reconstruction projects. With that said there were a few landowners who had not paid any payments during this five year period. His understanding was these properties which had outstanding debt for the reconstruction of a drain should be included in the tax sale. He read Indiana Code 36-9-27-86 i.e. regarding the sale of the property due to outstanding drain

reconstruction assessments and referred to Attorney Masson for his direction. He stated he was seeking a recommendation from the Board to proceed as the code dictates in these situations. He noted financially, the deficit could adversely affect the General Drain Improvement Fund and future drain maintenance and reconstruction projects.

Attorney Masson clarified that only the land affected by the delinquency could be sold, that this was not a personal judgement but a liability which stayed with the land only. He would speak with the Auditor and Treasurer to clarify the issue and start utilizing the process in this county from which the code dictates. A lien on the property not the land would be sold. Attorney Masson would follow up on this issue and those landowners who may be affected by this code. He requested authorization to contact landowners who were affected by this regulation. He stated he would work with both the Treasurer and Auditor to set the process which this County can utilize to automatically go forward with the property lien sale when warranted. There was no public comment.

Tracy Brown made a motion to give authorization to the Attorney to begin the process by sending out delinquent reconstruction assessment letters to those landowners who were delinquent as well as listing them on the tax sale when appropriate. David Byers seconded the motion. Motion carried.

Tracy Brown made a motion to adjourn. The meeting was adjourned.

Below is the Surveyor's 2017 Classification Report less Exhibit A:

### **Classification of Drains**

**Per IC 36-9-27-34**

**February 2017**

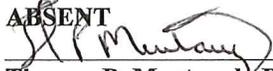

- 1.) Drains in need of Reconstruction
  - a. Elliott, S.W. (#100)
  - b. J.B. Anderson (#02) (Clarks Hill Portion)
  - c. Edwards (Not Maintained)
  - d. McBeth (Not Maintained)
  - e. F.E. Morin (#57)
  - f. Marion Dunkin (#25)
  - g. Huffman-Weimert (Not Maintained)
- 2.) Hearing and Rates Established in 2011, '12, '13, '14, '15 and 2016
  - a. Michael Binder (#10)
  - b. John Blickenstaff (#11)
  - c. Train Coe (#18)
  - d. Fred Haffner (#34)
  - e. E.F. Haywood (#35)
  - f. Mary Southworth (#73)
  - g. Franklin Yoe (#90)
  - h. Jess Dickens (#91)
  - i. Romney Stock Farm (#109)
  - j. John Hengst (#117)
  - k. Calvin Lesley (#48)
  - l. Audrey Oshier (#60)
  - m. Combs Ditch (#118)
  - n. Leader Newton (#115)
  - o. Thomas Ellis (#27)
  - p. John McFarland (#51)
  - q. Hester Mottsinger (#58)
  - r. J. Kelly O'Neal (#59)
  - s. Franklin Resor (#65)
  - t. Harrison Wallace (#82)
  - u. Eldora K. Lois (#119)
  - v. Frank Kirkpatrick (#45)
  - w. Elijah Fugate (#30)
  - x. Mary McKinney (#52)
  - y. Harrison Meadows (#37)
  - z. Shepherds Point (#121)

- aa. James Kellerman (#42)
  - bb. Alonzo Taylor (#77)
  - cc. Clymer Norris (#122)
  - dd. Crist Fassnacht (#29)
  - ee. Peter Rettereth (#66)
  - ff. Ann Montgomery (#56)
  - gg. Gustav Swanson (#76)
  - hh. Nathaniel W. Box (#12)
  - ii. Lydia Hopper (#124)
  - jj. Amanda Kirkpatrick (#44)
  - kk. John McLaughlin (#97)
  - ll. Martin Erwin (#28)
  - mm. Waples McDill (#85)
- 3.) Urban Drains  
(I.C. 36-9-27-68 Urban Drains are classified as in need of Reconstruction)
- a. S.W. Elliott (#100)
  - b. Julius Berlowitz (#8) (Include Filbaum)
  - c. Alexander Ross (#48)
  - d. Cuppy McClure
- 4.) Drains in need of Periodic Maintenance  
*Please see attached sheet-Exhibit A*
- 5.) Insufficient Maintenance Funds
- a. E.W. Andrews (#03)
  - b. Floyd Kerschner (#43)
  - c. F.E. Morin (#57)
  - d. John Saltzman (#70)
  - e. Ray Skinner (#71)
  - f. Abe Smith (#72)
  - g. Joseph Sterrett (#74)
  - h. William Stewart (#75)
  - i. John Toohey (#79)
  - j. John Vannatta (#81)
  - k. Suzanna Walters (#83)
  - l. J.B. Anderson (#02)
  - m. Dismal Creek (#93)
  - n. Moses Baker (#114)
  - o. Grant Cole (#19)
  - p. Shawnee Creek (#94)
  - q. Kirkpatrick One (#96)
- 6.) Proposed Drains for hearing in the near future / Request these drains be referred to Surveyor for preparation of Maintenance Report)
- a. Andrew Brown (#13)
  - b. F.E. Morin (#57)
  - c. Parker Lane (#61)
  - d. John Vannatta (#81)
  - e. Dismal Creek (#93)
  - f. Beutler Gosma (#95)
  - g. Jacob Taylor (#78)
  - h. E.W. Andrews (#03)
  - i. Suzanna Walters (#83)
  - j. Jesse B. Anderson (#02)
  - k. Floyd Kerschner (#43)
  - l. Joe Sterrett (#74)
  - m. Moses Baker (#114)
  - n. Grant Cole (#19)
  - o. Shawnee Creek (#94)
  - p. Kirkpatrick One (#96)
  - q. John Saltzman (#70)

- r. Ray Skinner (#71)
  - s. Abe Smith (#72)
  - t. William Stewart (#75)
  - u. John Toohey (#79)
- 7.) Drain Assessments recommended to be raised 25% starting May 2015  
No Maintained Regulated Drains Applicable in 2017
  - 8.) Petition for New Regulated Drain referred to Surveyor
    - a. Huffman Weimert Drain (Town of Buck Creek)
  - 9.) Existing Drains referred to Surveyor for Report
    - a. Julius Berlovitz(#08) (Remaining Phases)
    - b. F.E. Morin (#57)
    - c. Huffman Weimert (Not Maintained)
    - d. Marion Dunkin (#25)
  - 10.) Drain that should be vacated
    - a. That portion of the Felbaum Branch (Part of Julius Berlovitz #08 Regulated Drain) East of County Road 550East

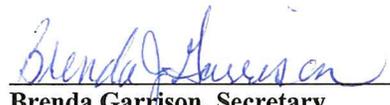

*Please see Classification of Drains- Exhibit Aon file in the Tippecanoe County Surveyor office and Office of the Tippecanoe County Auditor*
