PUBLIC COMMENT

Jerry Smaltz - 234 Wood Dale – Mr. Smaltz spoke on behalf of the residents in the Woodfield Estates Subdivision. Recently the subdivision was repaved and the residents are unhappy with the quality of work. He reported the road has not been maintained adequately in 30 years and the material used is not conducive to community activity. Mr. Smaltz is requesting along with the other residents, that the situation be made right to satisfy the homeowners. Mr. Smaltz presented petitions from property owners regarding the condition of the roads.

Jim Murray – 237 Wood Dale – Mr. Murray reported the concrete settled in front of his property after repairs were done by county contractors. He is displeased with the replacement pavement and agrees the county should repair the damage.

Highway Director Opal Kuhl suggested the type of paving used was chosen for the amount of concrete cracks and joints that were breaking off. Micro-surfacing is a type of pavement preservation used in recent years to prevent full replacement of streets. This product is Federal Highway and INDOT approved product that seals all cracks and entire surface to prevent future cracking. Director Kuhl reported two coats were used in this addition to further smooth the surface. She will revisit the addition for further evaluation within the week.

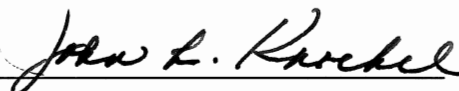

Tom Robertson – 228 Wood Dale - Mr. Robertson noted all homes in the area have concrete driveways and the black surface on the streets is not very aesthetically pleasing.

- Commissioner Knochel moved to adjourn.
