BUILDING COMMISSION – Ken Brown

Public Hearing: Unsafe Structure – 9028 Yorktown St, Stockwell, IN

Building Commissioner Brown said the unsafe structure at 9028 Yorktown Street in Stockwell was formally a filling station. The property owner is Joe Wilbur who is present. Previously, the Commissioners requested the roof structure be repaired to remove it from the definition of "unsafe". Last week, trusses were delivered and today there is positive progress as reflected in the pictures handed out to the Commissioners. The truss system has been connected with new top plates and installed over the old roof. The old roof and ceiling is still caving in to the inside which is an issue for anyone entering the building. President Knochel said the change is positive. Commissioner Murtaugh asked Mr. Wilbur what his intentions are for the building use. Mr. Wilbur said he intended to do some work out of the building. Commissioner Murtaugh asked if Mr. Wilbur planned to tear down the old roof. Mr. Wilbur said no, the old roof is 2 x 12 solid boards on center with two steel beams from front to rear. There are two rotten frame members that will be replaced. He also plans to replace the ceiling drywall with sheet metal. Building Commissioner Brown said he is comfortable if the rotted framing members are removed. Commissioner Byers said the project is still incomplete and suggested giving Mr. Wilbur an additional month. 2015 SALARY RECOMMENDATIONS

Auditor Weston stated she proposed the cost estimate of an incremental 1% increase at the last meeting as \$300,000 and \$325,000. A 2% increase would be \$650,000. In the past, stipends have been looked at, studies that have been done, and using different percentages across classifications have been reviewed. She is unaware of a current study. A stipend was used for the current year.

Commissioner Murtaugh asked Human Resources Coordinator Shirley Mennen the cost of the previous salary study and how long the study took. Coordinator Mennen said the study cost around \$2,000 and took about eight weeks to complete. Commissioner Murtaugh stated there would be time for another study before budget hearings.

Commissioner Murtaugh said salaries are ongoing costs which repeat year after year. The County is in a position to look at raises but it's important to be conservative since they are ongoing costs. Although there are reserves, the revenue is not increasing. Commissioner Byers agreed with Commissioner Murtaugh but stated that the cost of living continues to increase and should be offered back to the employees. The stipend paid in 2014 was approximately \$550,000 or 1.5%. His recommendation is to double the 2014 increase and give a 3% increase across the board, noting the Council has final approval. President Knochel agreed with Commissioner Byers' analysis on salary recommendations, saying 2% is offered every year. Currently, the money is there and he doesn't see any reason why 4% couldn't be offered. Auditor Weston asked if the recommendations consider health insurance. Commissioner Byers said the understanding is health insurance has been up and down and the premiums have been maintained for four years.

- Commissioner Byers moved to recommend a 3% salary increase for 2015, second by Commissioner Murtaugh; motion carried.

Commissioners' Assistant Cederquist returned to the meeting. Health Director Rich said Exhibit A could not be found and added that the local Health Maintenance Fund is paying for the software update. A letter from the State Department of Health states the cost as \$9,000.

- Commissioner Byers withdrew his previous motion; President Knochel withdrew the second to the previous motion. Commissioner Murtaugh moved to table the Professional Service Agreement for the Health Department until the next meeting on June 16, 2014, second by Commissioner Byers; motion carried.
