Carroll County Traffic Count Agreement

Director Sallie Fahey presented an agreement with a contractor to do 60 traffic counts in Carroll County this year. Tippecanoe County Area Plan Commission has an agreement with the Indiana Department of Transportation (INDOT) to provide certain traffic counting activities in Carroll County. The contractor, Al Levy, will be compensated \$100 for each usable traffic count up to \$6,000. Although the Area Plan Commission receives \$150 for each usable traffic count, the remaining \$50 is for cost associated with putting traffic counts in proper form to be presented to INDOT. Carroll County has provided the 20 percent match for this project. Those funds are monitored by the Auditor's office.

- Commissioner Murtaugh moved to approve the Carroll County Traffic Count Agreement as presented, second by Commissioner Byers; motion carried.

WIC – Colleen Batt

Approval of Positions

Director Colleen Batt presented two new positions for approval. The positions are for Assistant State Breast Feeding Coordinator and Dietitian / Nutritionist / State Relief for Northern Indiana. Director Batt added that funding is provided for these positions through a federally funded grant. Commissioner Murtaugh asked if the funding for these positions is secure. Director Batt stated that WIC anticipates the continuation of grant funding for these positions. However, employees are aware that the positions are dependent on federal funding. Commissioner Byers asked if Tippecanoe County WIC only provides services to Tippecanoe County. Director Batt stated that Tippecanoe County WIC provides services throughout the state. Funding for these positions in the current grant runs from Oct 1, 2010 through September 30, 2011.

- Commissioner Murtaugh moved to approve the positions of Assistant State Breast Feeding Coordinator and Dietitian / Nutritionist / State Relief for Northern Indiana, second by Commissioner Byers; motion carried.

Training Conference Agreements

Director Colleen Batt presented agreements for three guest speakers and two hotel agreements for an upcoming training conference. WIC received \$125,000 in funding to host the training conference in Tippecanoe County. Attendance is expected to be between 300 to 500 people. Due to the high number of expected attendees, an agreement with two hotels is necessary. Director Batt presented two agreements for approval with the Holiday Inn, City Centre and the University Plaza Hotel. The rates are dependent on how many rooms are used. Attorney Luhman said that the hotel agreements are in proper form except for a typographical error that states “accepted by the State of Indiana”, which should read “accepted by the County of Tippecanoe”. Because of this, if the Commissioners approve the agreements, it needs to be subject to an amendment showing “accepted by the County of Tippecanoe”.

Speaker Agreements are as follows:

Amy Spangler	\$1,100
aha! Process, Inc.	\$3,300
Premier Speakers Bureau	\$7,500

- Commissioner Murtaugh moved to approve the contracts as presented subject to recommended amendments, second by Commissioner Byers; motion carried.

CONTRACT COURTHOUSE WINDOWS

Commissioner Murtaugh presented a contract with Innovative Construction Services, Inc. in the amount of \$922,500 for the Tippecanoe County Courthouse Window Restoration Project. It includes storm windows, scraping and repainting the existing metal soffit and the removal and reinstallation of existing shutter system. Commissioner Byers noted that the original estimate of the project was \$1,500,000. Therefore, this contract will save the County approximately \$580,000.

- Commissioner Murtaugh moved to approve the contract as presented, second by Commissioner Byers; motion carried.

ASSESSMENT OF THE COURTHOUSE MASONRY – Contract with Arsee Engineers Inc.

Commissioner Murtaugh noted that there are several cracks in the exterior limestone of the Courthouse and upon receiving a professional assessment of those cracks, it was realized that filling the cracks with a sealant could possibly damage the limestone further. A proposal with Arsee Engineers Inc. to perform a condition assessment of the exterior masonry of the Courthouse was presented. They will focus on any deterioration of the masonry as it relates to structural concerns. It includes a forensic study of the exterior of the Courthouse and is in the amount of \$19,000.

- Commissioner Murtaugh moved to approve the contract as presented, second by Commissioner Byers; motion carried.

Those items are copier leases, grant contingency funds, and MITS software and hardware cost. Project DDD Capital Outlay Expenditures for the Calendar Year 2011 includes items that are anticipated to be paid from the Cumulative Capital Tax in 2011 and totals \$656,807.
