ASSESSING UPDATE – Samantha Steele

Barry Wood from the Department of Local Government Finance (DLGF) gave a brief presentation regarding the requirements and guidelines for the General Reassessment. Mr. Wood reported approximately eight counties are performing the work in-house for the General Reassessment mostly by assessing officials with several years of experience. All General Reassessment contracts need authorization from the DLGF where a staff attorney reviews all contracts for compliance. Each county's contract may vary depending on the size, but DLGF ensures and enforces the criteria is met. Mr. Wood confirmed it is at the County Assessor's discretion as to which parcels are assessed and which method is used. Vendors must be certified by DLGF, have a Level II Certified Assessor on staff, and enough staff to perform the duties. Assessor Steele stated a vendor charging by the parcel will allow her office to do a portion of the work. Mr. Wood discussed an active legislative bill which may delay the General Assessment by one year. Senate Bill 561, if passed, will spread the General Reassessment over four years allowing more time for assessing officials to complete the work. Councilmember Kemper shared his

concern regarding the General Reassessment and the amount it will cost the taxpayers. He suggested if parcels were inspected in the last few years the information should be used in the General Reassessment. Councilmember Vernon stated if Senate Bill 561 is passed and there is a delay in the General Reassessment, Tippecanoe County should work diligently to preserve funds for the job in 2010 and suggested a work-plan be established by the County Assessor.

Attorney Luhman confirmed the deadline to sign a General Reassessment contract is April 16, 2009 and the County Assessor is required to have the amount of contract appropriated before entering into any agreement. Mr. Luhman explained Tippecanoe County has a levy to raise funds for reassessment. The DLGF reviews the levy and the reassessment budget as projected by the County Assessor. If sufficient funds aren't available the DLGF may require an additional levy.

President Underwood and Commissioner Knochel thanked Mr. Wood and Assessor Steele for the presentation.

APPOINTMENTS

- Councilmember Gutwein moved to approve the Council Appointments for 2009, second by Council Michael; motion carried.

NEW BUSINESS

Greg Guerrattaz, Financial Solutions Group, presented the council with documents to prepare for the public hearing February 11, 2009. He reported the county is proposing the Economic Development Income Tax (EDIT) funds will be used for repayment of bonds for the Juvenile Center without using property taxes. The bond issue for the project has decreased from \$19.5 million to \$18.5. He provided a sustainability analysis showing historical and projected data for a large number of county funds. Projections were provided from 2010 through 2013. He explained he has reviewed the financial projections and is comfortable with the proposed plan and the financial projections.

Councilmember Winger asked if any legislative action is projected that will affect ongoing support of operations; he is struggling with the ongoing operations of the Juvenile Center.

Councilmember Basham asked Mr. Guerrattaz to speak on how a major job loss would affect the center. Mr. Guerrattaz reported if 800 jobs were lost the overall adjusted gross income would be affected by 1-2%; worst case scenario the adjusted gross income was figured at a loss of 15%. He described the different options for the county should the need arise for additional revenue.

Attorney Luhman stated tomorrow's meeting was planned for a public hearing as well as a final determination for the council on the progress of the Juvenile Center. The council will then have the option to either rescind any prior motions or confirm to proceed with the project.

PUBLIC COMMENT

Paul Wright, West Point – said he has attended commissioner meetings and presented letters with questions to which he has had vague or no answers at all. Mr. Wright presented information he titled Exhibit A - questions for the council and Exhibit B - a survey from taxpayers with their opinion of the Juvenile Center. He said every increase the council approves are tax dollars out of someone's pocket. Mr. Wright's concern is elected officials are responsible for spending tax dollars and if misused there are no repercussions. Councilmember Basham said he appreciates Mr. Wright's comments. He understands

Mr. Wright's point, but added Department Heads and Elected Officials are taxpayers and they understand the need to be frugal.

Michelle Blaas, Lafayette – said the economy is not good and increasing other taxes to build the Juvenile Center is not fair. She said the General Fund will suffer in the long run with yearly wage and benefit increases; operational expenses for the center will be depleted.

Greg Guerrataz explained in his presentation he did not suggest, allege or state the Wheel Tax, LOIT, or Food Beverage Tax needed to be enacted to complete the project. He said these items are in the "tool box" if the county needed other revenue options. He confirmed juvenile operation expenses will come from user fees, out-of-county fees, and current expenses paid from the General Fund.

COMMISSIONER'S FYI

Commissioner Byers provided information regarding grant funds received in this community; over \$9.5 million was received in 2007.

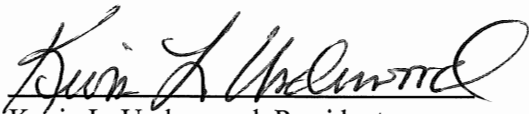

The Wabash River Enhancement Planning session will take place this evening at 7:00 p.m. at Ivy Tech/Ivy Hall.

The City of Lafayette has asked approached the county to discuss hiring a lobbyist to assist in facilitating stimulus funds.

In regards to General Reassessment, he reported Elkhart County will spend \$1 million on General Reassessment; Commissioner Byers added they have considerably more parcels than our county.

- Councilmember Kemper moved to adjourn.
