

TIPPECANOE COUNTY
HEALTH DEPARTMENT

METH REMEDIATION QUALIFIED INSPECTORS

This list is not a complete list of inspectors. These are inspectors we have worked with frequently over the years.

Bio Recovery Specialists
PO Box 307
Rossville, IN 46065
765.426.9659

Crisis Cleaning, INC.
6683 E. State Road 54
Bloomfield, IN 47424

877.260.4828

p.H. Hazmat Solutions, LLC

765.412.0150

If you own a property, vehicle, watercraft, RV, or travel trailer where a clandestine meth lab has been located, you may be required to have some testing completed to determine the contamination levels.

The initial notification of the meth lab is provided to the county health department by law enforcement in the county where the lab was located.

Title 318 of the Indiana Administrative Code governs the required clean-up of these properties, vehicles, watercraft, RVs, and travel trailers. You can also get information from the Indiana Department of Environmental Management (IDEM) by email at druglabcleanup@idem.in.gov

IDEM has a list of qualified inspectors on their website for you to choose from that can provide testing and/or clean-up services for your property.
