## MEMORANDUM

**TO:** Area Plan Commission  
**FROM:** Area Plan Commission Staff  
**SUBJECT:** McCarty Lane Extension: Amendment to the Thoroughfare Plan, Volume 4 of the Comprehensive Plan for Tippecanoe County  
**DATE:** January 14, 2000

---

In September of 1999, the Tippecanoe County Board of Commissioners, by resolution, requested the Area Plan Commission to study and make a recommendation concerning the addition of the McCarty Lane Extension to the Adopted Thoroughfare Plan.

“The Tippecanoe County Board of Commissioners as a member of the Administrative Committee of the Greater Lafayette Area Transportation and Development Study hereby requests the Area Plan Commission of Tippecanoe County to consider, hold hearings, and make recommendations to amend the Adopted Thoroughfare Plan, a part of the Comprehensive Plan for Tippecanoe County, to show a new road extension, McCarty Lane (County Road 100 South), from County Road 500 East eastward to connect with State Route 26 in the vicinity of County Road 675 East, as recommended in the adopted transportation plan for 2015.”

Staff and the transportation advisory committees of the Plan Commission reviewed the documentation for this proposed arterial extension. Both the Technical Transportation Committee and the Administrative Committee unanimously recommended the approval of this addition to the Thoroughfare Plan.

The adopted 2015 Transportation Plan has already documented the need for the McCarty Lane Extension, and the county’s consultant has determined its most appropriate alignment in their report to the Board of Commissioners.

In a further examination of the Thoroughfare Plan network and projected traffic volumes, it was found appropriate to also update other areas of the Thoroughfare Plan east of Lafayette.

Current traffic volumes, projections, and improvements to the arterial network necessitate other adjustments to the Plan in the vicinity. Those include changing to primary arterial status State Road 26 E to the McCarty Lane Extension;

McCarty Lane west of 500 E; CR 500/475 E; and adjusting the location of CR 350 S from SR 38 to US 52.

Proposed "Before" and "After" graphics are attached.

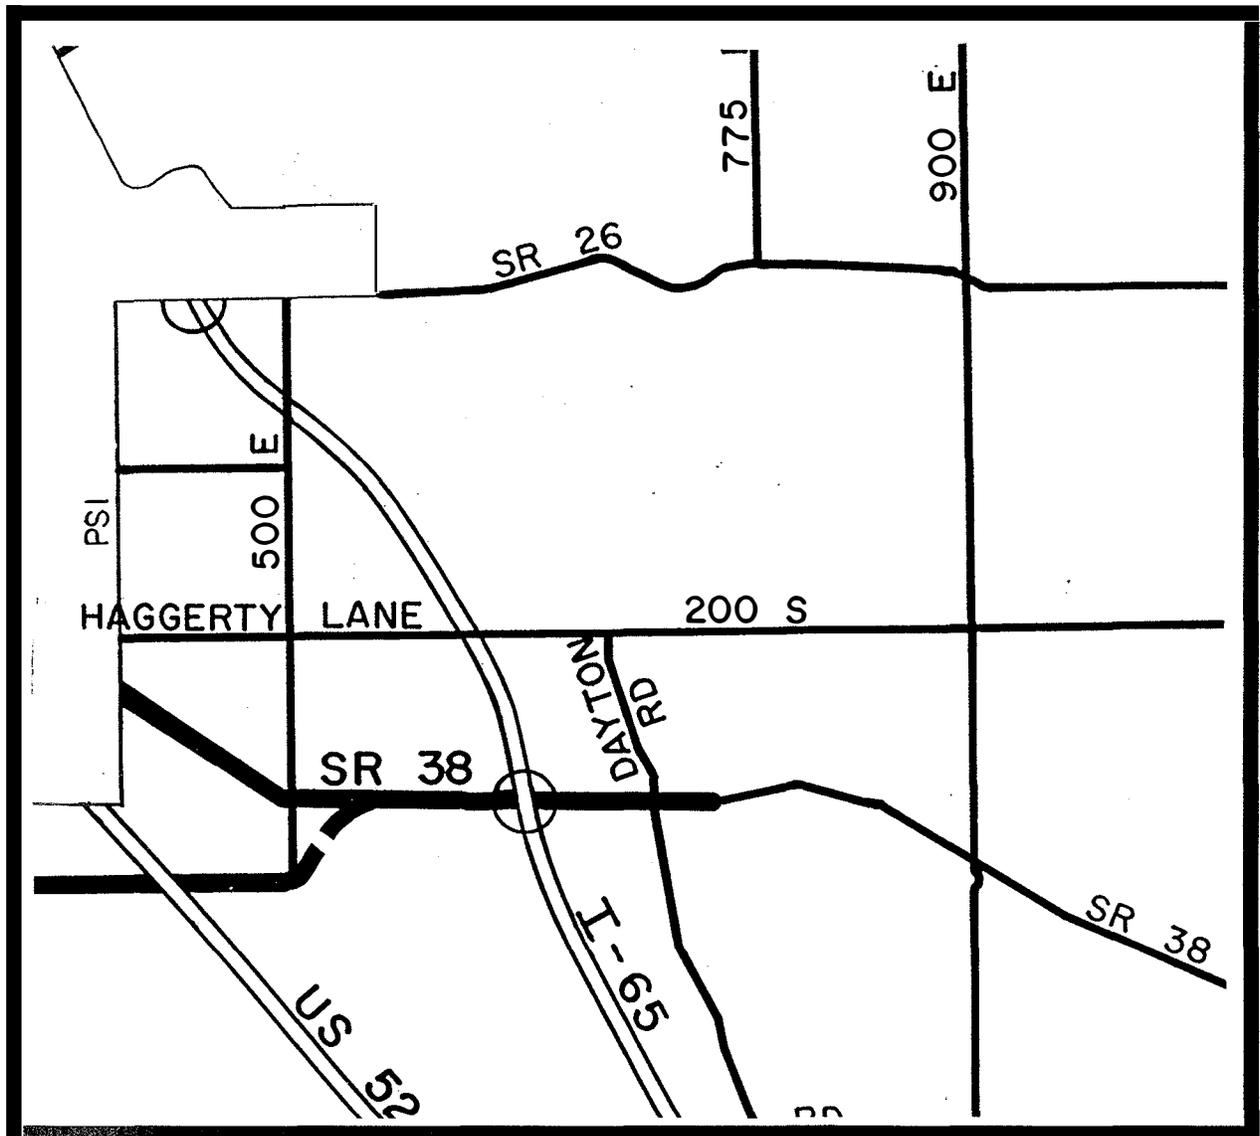

All of these adjustments have also been recommended by the Area Plan Commission transportation advisory committees.
