### ***DEPARTMENT OF CHILD SERVICES UPDATE – Angela Smith Grossman***

Director Grossman noted outstanding bills are approximately two months behind in the amount of \$1.9 million. Relative placements have increased recently from 11% to 18% in one month. She noted the tax draw is expected in late July. One million will go directly to pay off the loan obtained earlier in the year and DCS bills will be paid to date. She expects the cash balance will be zero for the December tax draw with an additional loan requested again in August.

### ***YOUTH SERVICES UPDATE – Rebecca Humphrey***

Site visits are scheduled with Mike McMillen in the next few weeks. Director Humphrey will provide a written report as to the possibility of the sites and estimated cost at the next commissioner meeting. According to a report from Mr. McMillen, the modular home at the fairgrounds is a good fit for the women's residential facility. The estimated cost is \$29,000 and Director Humphrey suggested utilizing funds from the Juvenile Facility account through EDIT funding.

Director Humphrey stated Superior Court 3 and the Coalition for a Safe and Drug Free Tippecanoe have applied for alternative funding through Substance Abuse and Mental Health Services Administration (SAMHSA) for \$1.3 million. These funds will be used to expand services in mental health and substance abuse for youthful offenders. Also, an application for funding has been sent to the Indiana Juvenile Justice Task Force for re-entry funds for youth returning from correctional facilities.

An outcome study was completed by Director Humphrey for the Cary Home aftercare program. She added the executive director and the advisory board have reviewed the study and will be making changes accordingly. Tammy Patrick, former JAMS Coordinator, will serve as the new Juvenile Alternatives Director as of July 2, 2007.

### ***LOCAL OPTION INCOME TAX (LOIT)***

Greg Guerrattaz spoke regarding the Local Option Income Tax. He prepared a draft study for the purposes of demonstrating the impact of LOIT options to Tippecanoe County. He stressed that these estimates pertain to Tippecanoe County only and that they are contingent on several unanswered questions of the DLGF.

Greg Guerrattaz noted Non –Homesteads are 60% of assessed valuation. He added legislature has given the option of a "shift" from property taxes to income taxes under House Bill 1478. He reviewed items that affect the Tippecanoe County tax rates.

*The draft study is available in its entirety in the office of the Tippecanoe County Auditor.*

The focus of the presentation was on the following three options:

#### **Local Income Taxes for Property Tax Relief**

Provides that a county may impose a CAGIT or COIT tax rate of not more than 1% for: (1) property tax replacement credits; (2) an increase in the homestead credit percentage; or (3) property tax replacement credits for qualified residential property.

Mr. Guerrattaz presented charts showing the impact to the average homeowner, average taxpayer, and average qualifying residential property which could include homeowners and rental units.

#### **Local Income Taxes to Freeze Property Tax Levy**

Authorizes a county to adopt an additional county adjusted gross income tax (CAGIT) rate or an additional county option income tax (COIT) rate. Provides that the tax rate shall be set by the Department of Local Government Finance (DLGF) at an amount sufficient to raise tax revenue to replace the estimated increase in the following year of certain property tax levies in the county. Specifies that the tax rate may not exceed 1%. Provides that in the first year the tax rate is imposed, the tax rate shall be set for

each of the following two years. Provides that the tax rate set for the first year must be increased a specified amount above the amount needed to replace the tax levy growth, and that the excess tax revenue raised in the first year must be deposited in the county stabilization fund. Establishes a county stabilization fund in each county that imposes the additional tax rate. Provides that if the certified distributions exceed the estimated replacement amount used to determine the tax rate, the excess shall be deposited in the county stabilization fund. Specifies when money shall be distributed from the county stabilization fund. Provides that the tax rate may not be reduced or rescinded, but that the tax rate may be increased each year to replace the property tax levy growth that would otherwise occur in the following year.

Based on the county's business plan for growth in the maximum levy an estimated 3.7% in the first year, the second year 4.10% and in the third year 4.40% estimates were prepared for the needed income if the levies were frozen.

### **Local Income Taxes for Public Safety**

Authorizes a county to impose an additional CAGIT or COIT tax rate for public safety. Specifies the conditions under which a county may impose the additional tax rate for public safety and specifies the maximum additional tax rate. Requires this tax revenue to be distributed to the county and municipalities in the county and to be used for public safety purposes.

Mr. Guerrattaz estimated how much each municipality in Tippecanoe County would receive as the result of a .1% and .25% increase in income for public safety.

The consensus of the council was to continue investigating the impact of these options throughout the coming year and to not make an immediate decision by the August 1<sup>st</sup> deadline.

### **CEDIT Homestead Credit**

Auditor Weston spoke regarding the CEDIT Homestead Issue. She recapped events from February 2006 where an additional Homestead Credit was discussed to offset the affect of inventory deduction. It was also discussed the Homestead Credit be funded with an additional local option income tax of .1%.

The current proposal includes a decreased rate and/or distribution of credits based on tax dollars needed to offset loss of inventory taxes on an allocated basis as well as distribute remaining dollars based on uniform basis. In order to adopt any of the proposed changes, a public hearing is needed, which requires advertising 10 days in advance and an advertisement of the proposed ordinance.

Councilmember Gutwein suggested other options are available as well, such as rescinding the tax.

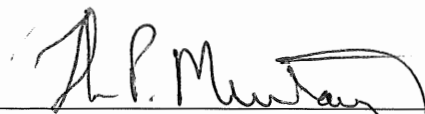

Councilmember Murtaugh expressed his interest in waiting another year for additional data since the decision to impose the tax has had only one year history.

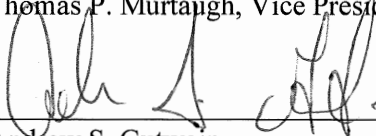

- Councilmember Byers moved to adjourn.
